DID WE BUY GOMEZ

Further Information From Charles M. Dobson.

HE IS A FRIEND OF GEN. WOOD

And Resents Any Intimation of Cor ruption on the Part of That Official.

Yew York Sun Special Service

New York, June 18.-Charles M. Dot who was quoted in a dispatch from New Orleans as saying that General Gomez had been paid \$25,000 by the United States government to stay out of the race for the presidency of the republic of Cuba. said to-day that he had not been correctly quoted. Mr. Dobson lives in New York, and returned from New Orleans yesterday. He was especially indignant over the intimation that General Wood personally or of his own volition, had done any discreditable. Mr. Dobson reaffirmed the allegations, however, that General Gomez had received large sums of money from this government as the price of peace on his part and that of his

followers. Mr. Dobson said: "General Gomez was in a position at the close of the Spanish-American war to cause this government a great deal of trouble. He had the native lighting ele-ment of the eastern end of the island completely under his control. He did not cause any such trouble, and from May to November, 1900, he was paid at least \$19,000—how much more the records at

Ashington will show.
"So far as General Wood is concerned, I have the utmost confidence in his integrity. He is an able man, so far as the administration of affairs in Cuba is concerned, and thoroughly honest. He is my personal friend, and I regret that any aspersions on his character have been incorrectly attributed to me.'

EUROPEAN CROPS

They Are Damaged by Frosts and

Excessive Rains. Paris, June 18 .- There is considerable anxiety regarding the state of the crops and vineyards, in consequence of the un-interrupted cold and rainy weather during

the last two months.

M. Flammeran, the astronomer, says there has been no such disastrous springime since 1852. Snow has been falling for the last four

days on the slopes of the Pyrenees and in the neighborhood of Perpignan. The farmers in these districts are in a state of consternation. The cantons of Mont Louis, Salaigouse and Ipras have been visited by unprecedented frosts for the time of the year.

The farmers in these districts are in Vienna June 18 .- The unprecedented and persistent cold weather in Austro-Hungary is causing great apprehension

among those interested in agriculture. Prospects for cereals are dubious. Berlin, June 18 .- While snow is falling in the Alps, there are cold rains here and over a large part of Germany. With short interludes of sunshine rain has been falling for the past six weeks.

SALVADOR IS CROSS

That Nation Fears It Has Been Buncoed by Arbitration.

New Orleans, June 18.—The latest news from the republic of Salvador, via Gautemala, indicates a state of frenzy aroused by the recent decision of the Washington court of arbitration in the Burrell case. The president of the little republic and most of the members of the republic and most of the members of the national assembly have signed a pronunciamento to the people, declaring that the decision of the court was a scan-dal and a crime; that the judges were bribed; that the Salvadorean representa-tives were treated in a scandalous fash-ion, and that Dr. Zaldivar, one of the Salvadorean representatives was recreant to his trust, and is now in Europe to escape the results of his actions.

WHIST LEAGUE TOURNAMENT Annual Meeting Will Open June 23 at New York.

New York, June 18 .- The annual meeting of the American Whist League will open June 23 at the Oriental hotel, Man-hattan Beach. Three hundred to four hundred players will take part in the con-tests. The three principal events are the contest for the Hamilton trophy for teams of four from the various clubs, to be competed for in a series which lasts from Tuesday to Saturday; a similar contest for the American Whist League trophy, a challenge cup and the Minneapolis trophy for pairs.

There will also be a competition for the Brooklyn trophy inaugurated in 1896, and number of open contests for mixed players. A number of women will take part in the events.

SECRETLY AND QUIETLY. Coffee Slowly and Steadily Poisons Some Persons.

There is no doubt that coffee secretly and quietly causes an immense amount of misery to the human race, but in the majority of cases the person does not sus-pect the cause of the trouble.

A Virginia lady had an interesting exeriment with coffee poison. She says, For about five years I was troubled with indigestion, weak stomach and palpita-tion of the heart so bad that at times I would fall and have to be carried into the house. Finally I began to have spasms and suffered untold misery. I tried all

doctors, only to get temporary relief.

I finally gave up all hope of getting well. My stomach was in such condition that everything but stale bread would throw me into spasms. I nearly starved myself but never suspected that coffee was the cause of all the trouble, nor did I have any idea what the cause was.

ILLINOIS DEMOCRATS

With Harrison. Springfield, Ill., June 18 .- Clerk of the su reme court, John L. Pickering of Springfield. State treasurer, George W. Duddleston of

Superintendent of public instruction, Anson Trustees of the state university, Dr. Julia Holmes Smith of Chicago, J. A. White of Urbana and S. S. Paxton of Monmouth.

The foregoing ticket was nominated by the democratic state convention yester-day and John P. Hopkins was re-elected chairman of the state central committee after a bitter contest with Carter H. Har-

rison of Chicago.

The election of Chairman Hopkins produced the only fight in the convention Impassioned speeches were made in favor of both representatives and the adpride or dislike of the speaker's attitude The delegates at times were frantic and criticisms highly personal in their nature were frequently exchanged.

The committee on resolutions had a long and stormy session before their report was finally adopted. The principal fight was over the first plank in the platform. As originally

drafted this read: The democrats of Illinois, in state conven tion, declare their adherence to the fundamental principles of the democratic party as laid down in the Declaration of Independence, and the constitution of the United States

This was considered by the opponents of silver as a too specific declaration in favor of the Kansas City platform, and, headed by John C. Richberg and Adolf Kraus of Chicago, they fought it. For three hours the debate went on and the plank was amended to read: "All fundamental principles of the democratic party, etc., repeatedly affirmed by past democratic conventions.

No effort was made to bring in the name f W. J. Bryan. The platform denounces trusts and demands a revision of the tariff, opposes ship subsidies, extends congratulations to Cuba and deplores the assassination of President McKinley. As to the Philippines the platform says:

We believe that the American government hould at once announce to the Philippines that it is not our policy to permanently retain their country, but as soon as hostilities shall cease, and a stable government be established the United States will recognize the independence of the Philippine islands as was done in the case of Cuba.

MAINE DEMOCRATS

They Listen to Champ Clark and Want to Let the Philippines Go.

Bangor, Me., June 18.-The democratic state convention nominated S. W. Gould of Skowhegan for governor, adopted a plat-form which deals at some length with national issues and listened to a political address by Congressman Champ Clark of Missouri. The platform says: We deplore the policy which has created

occasion for acts of cruelty and barbarism in the Philippines which no party dares uphold. We denounce the policy of imperialism as practiced by Spain in Cuba, by the British government in America before the revolution, by Great Britain in South Africa and by the republican administration in the Philippines. We believe that the liberation of Cuba was forced by the democratic party, and that the same liberty should be granted to the Philip-

Mr. Clark of Missouri said: While Mr. Payne, the floor leader of the republicans, and his faction shout "Let well enough alone," they, inconsistently with their own theory, brought in a bill to tinker the blessed Dingley rates by reducing them 20 per cent on imports from Cuba. Whereupon forty-three whole-hog tariff republicans. mostly from the beet sugar region, kicked out of the traces, ran amuck on the house ma-chine and smashed it into smithereens. On the other hand, the democrats are united upon

A large buck chigger is about one-hundredth of an inch long, and it is said by scientists that 1,000,000 baby chiggers can be coralled on a half dollar, but they have the faculty of making themselves actually felt from the time they are weaned, which is at the end of the third hour of their

The most notable trait of the chigger -the one which causes him to loom up out of obscurity and become a burning issue—is his propensity for burrowing under the human skin when he is in search of diversion. When he performs this operation, the person selected for a habitation, promptly forgets for the moment everything else in the universe. As a pretty co-ed naively expressed it yester-day, in recounting her own sufferings, 'you just simply have to scratch, no mater where you are or who is looking.

In view of this fact Evanstonians looking forward with more than usual interest to the contest for the Kirk prize in cratory—the biggest event in that line during the college year—for if the chig-

gers happen to get in their work on the contestants while engaged in delivering orations, some of the gestures are likely entirely impromptu and without precedent. The chiggers found their first lodgment in Evanston at Heck hall, where the bib-lical students congregate. Had they been content with that conquest no one would have cared much, aside from the "bibs" themselves, for the denizens of Heck hall

are not particularly popular in college or town circles. But they didn't. Instead they soon evinced a great preference for feminine society, and in a tingdean's wonderfully short time the woman's hall, proval of it. the cottage and the other girls' quarters were invaded.

London, June 18.—The action of Rudyard Kipling, June 2, in dispersing a mob which threatened the house at Rottingdean, Essex, of his aunt, Lady Burne-Jones, a pro-Boer and widow of the late Sir Edward Burne-Jones, the painter, because of her having displayed a banner reading. "You have killed, you have conquered," has caused a local sensation that shows no wign of abating. When Mr. Kipling, who also lives at Rottingdean, went to the rescue of his aunt and in so doing shouldered his way through the crowd, he delivered a thoroughly "Kiplingesque" oration of the kind the people of Rottingdean were not accustomed to hear, from one who had formed the local rifle company and had stirred up local imperialism to the boiling point. To show his further disapproval of the attack on his aunt's house, Mr. Kipling has now shut up the drill hall which he had given to the public. This action has created intense feeling.

Mr. Kipling refuses to express an opinion in regard to the black banner, but he emphatically announces his disapproval of Rottingdean's manner of expressing its disapproval of Rottingdean in a proper to the public of the public of
