

GOVERNMENT REPORT MAKES THE MARKET STRONG

Traders Find It Conformatory to the Jones Report of the Three States.
September Jumps Two Cents and the Other Options Follow in Part.

Later the Market Declines—Cash Wheat a Little Draggier To-day.

Minneapolis Chamber of Commerce, Sept. 11.—Wheat was strong and higher this morning. The fact of continued large receipts and many other factors, however, made a big advance in the market. The government report of the three states was a factor in the advance. The report showed a decrease in the crop of 1903 against 1902, but the advance was not so much in itself as in the effect of its confirmation. Traders reported the government report and compared it with the figures in the Jones report, and allowing for difference in acreage they found very much the same. The government report in fact was generally accepted on the floor.
