NEW LEASE OF LIFE FOR "SONS"

CENTRAL CAMPS TO BE MUS- DEMENTED MAN TAKEN IN TERED IN IOWA.

ment Commander and Plan a Vigorous Campaign on New Lines-New Constitution Prepared.

Mason City, Iowa, Oct. 6.—William G. Dustin. commander-in-chief of the Sons of Veterans of the United States, and his chief of staff, General Reed, have been holding a conference with the various members of the order in the state for the purpose of reviving it in this state.

W. F. Muse, the department commander, submitted a plan for the upbuilding of the order which has met with their approval and a strong camp will be mustered in every congressional district as a nucleus to form other camps. This central camp will appeal strongly to the business and professional men who have heretofore falled to take any interest because of the too frequent meetings of the camp which required too much of their time for mere routine ritualistic work.

A new constitution, whereby in the larger cities less number of meetings is required. Is ready, and it will be the purpose of these camps to celebrate especially Lincoin and Grant day and sasist veterans in the proper observance of Memorial day and Flag day. Mason City has started such a camp with thirty of its best young business and professional men, and the department commander believes that Cedar Rapides, Signx City, Des Moines and other cities will respond to the call.

Meanwhile every Grand Army post has been written to in the state to lend its aid in forming camps in their towns and the commander-inchief believes that in lowa, Kansas and other western states there will be the revival of the interest which has marked the eastern and New England states the past two years. The local camp tendered the distinguished guests a banquet and the visitors pledged anew their alleglance and promised a larger support of the order for the memorial university.
