Steady Advance Today and a Strong Close SENSATIONAL RISE

Wednesday Evening,

Wheat Makes a Substantial Gain and Holds It to the

Receipts Much Lighter and the Cash Demand Still Very

Foreign News More Favorable to the Strong Side of the Market.

Minneapolis Chamber of Commerce, Oct. 11 Minneapolis Chamber of Commerce, Oct. 11.— Light receipts at American primary markets and firmer Liverpool advices made wheat strong today, a good cash demand helping materially. Only 456 cars came in here compared with 505 a year ago, Duluth getting 149 compared with 228, and Chicago 50 against 58. The southwest did comparatively better, with 195,000 bu against 141,000 at Kansas City and 79,000 against 59,000 at St. Louis. Winnipeg had 391 cars compared with 229. The premium for No. 1 northern went up. a little. 1½@2c over September being the with 229. The premium for No. 1 northern went up a little, 1½@2c over September being the quotation, and No. 2 northern at 1½c under was also in good demand. No. 3 sold from 76c to 79c and No. 4 from 70c to 79c. The closing Idverpool cable was ½@¾d higher. Broomball said this was due to firmer offerings from Russia and the Danube, and an unprecedented demand from Germany, Italy and Spain. The feeling, he said, is very bullish. The European news is coming more on the side of the bulls. There is improvement reported in India, which is There is improvement reported in India, which is There is improvement reported in India, which is rather bearish now, with crops now promising except in Bombay, where rain is needed. There is also the estimate of the Rumanian crop at 1,000,000,000 bu against 52,000,000 last year, 71,000,000 in 1903 and 73,600,000 in 1902. With the exception of a few such items the news coming via Liverpool is favorable to the price. The local market was not the only one experien-cing a good cash demand. No. 2 red wheat was quoted at 90c in St. Louis and at 91c in Kansas City. An important influence for strength is quoted at 90c in St. Louis and at 91c in Kansas City. An important influence for strength is the daily showing in flour. With over 97,000 bris reported shipped out yesterday, something much lighter was expected in today's posting, but the figures are again well up at 80,619 bris. The Bradstreet's figures showing an increase in the world's visible supply of 9,250,000 bu looked bearish at first glance, but as this is the time stocks ought to increase and as the gain last year at this date was 9,108,000 bu, there was year at this date was 9,198,000 bu, there was really little significance to it. Local elevator stocks for four days show an increase of 900,-

stocks for four days show an increase or 900,000 bu.

A leading Winnipeg authority writes The
Journal: "One noticeable feature of the sitnation at the present time is the very large
quantity of wheat that is going in store for
farmers at terminal elevators. It is doubtful
if even half of the wheat passing Winnipeg has
been definitely sold. Farmers seem to have
faith that prices will be higher and are preparing to hold for them when they come." faith that prices will be higher and are preparing to hold for them when they come."

The local market was strong and %c higher on the small receipts at all spring wheat points and the unexpected strength displayed by Liverpool. Shorts were the best buyers, with offerings light. Altho the market went above call price the pit crowd watched Chicago closely and followed the trend of prices at that market rather than to sell against calls.

Chicago says there was a meeting there last night of grain men of central Illinois. They were pretty unanimous as to the corn crop being better than last year. A few thought it was 25 per cent better, and others 15 per cent. Clearances equal to 458,000 bu. was 20 per cent better, and others 15 per cent.
Clearances equal to 458,000 bu.
The weather map shows low temperatures in
the northwest, with snow in Manitoba and
Duluth. Generally clear west and southwest,
with low temperatures. Rains in Ohio valley
and eastward.

THE FLOUR MARKET

GOOD BUSINESS BEING DONE ON STEADY PRICE BASIS.

PRICE BASIS.

Reports are favorable in flour. Yesterday's big shipments were followed by a big total again today, and the movement shows no indication of falling off. New business is coming in freely, and the mills remain well sold ahead, despite the large quantities shipped out every day.
