Retail trade has been appreciably helped by the weather, but considerable stocks will unquestionably be carried over, because—re-order business has been heavy, owing to mild weather earlier in the season.

The effect of this carry over on next fall and winter demands remains to be seen. Other developments have been generally favorable.

heavy, owing to mild weather earlier in the season.

The effect of this carry over on next fall and winter demands remains to be seen. Other developments have been generally favorable. Concessions in pig iron prices have brought out some new business west and south. Leading interests are reported with practically full books, but deliveries is some lines are freer, and high premiums are said to be disappearing except where small quick delivery orders can be filled from stock.

Building material was apparently never so active as at this season, lumber leading and the cutput in northern forests has been helped by recent heavy snows. Common brick will be reduced at the west on March I, but it is still from at the east. Coal feels the induces cold weather and strike talk in firmer prices and enlarged demand, some of which is for the coal to be stored pending a clearer view of the week aneat the predicted strike has been rather of a quieting nature.

Bank clearings are much smaler, reflecting decreased stock speculation due to dearer money at the metropolis, a condition which looks artificial in view of the growing case at all other centers. Collections which looks artificial in view of the growing case at all other the back, as for some time past. Summed up, it also south, where holding of cotton is a drawback, as for some time past. HIDES, PELTS, TALLOW, WOOL

REVIEW OF THE MARKET BY THE NORTH-WESTERN HIDE & FUR COMPANY.

The market for hides is decidedly dull, Soarcely any of the tanners are placing orders. It had not been for dealers being wise and selling ahead when the market was more active, we believe green salted hides would be down to 10½c; but most of the orders are filled or will be the coming week, and prices will have to be reduced. Watch The Journal closely for prices are likely to be reduced any day. The tallow market not quite as good as it was.

The tallow market not quite as good as it was.

Was.

Wool is inactive, no buying by the mills. It is plain to see now that the market was forced too high during the excitement of last summer. Instead of the large holders making 2c or 3c, they have the carrying charges, and are losing from 3c to 5c per pound. It shows that the grower that sells during the active season, taking one year with another, comes out ahead. Most of the dealers in this market did the same, and are very glad of it.

Some few changes will be made the coming week on furs. Rats and skunk are in best demand and find ready sale. Mink is too high yet, and dealers find no profit in them. Weasels are only wanted at the lately reduced prices.

Committee in Charge of Project Decides to Begin at Once Task of Securing Necessary Funds for Institution-Stock to Be Sold for Development of Peat Industry and Big Plant Will Be

Bell Peat Next Year.

Efforts are being made to interest St. Peter men in the peat beds near Osbawa, which are to be developed next summer by the United States Peat Fuel company of Chicago. Officers of the company intend to issue stock to the amount of \$50,000 with which to buy land and build a factory; and the securities will be placed on the market immediately. The promoters plan to dispose of the greater part of the stock in the east, but a portion will be sold in Minnesota, and some of it may be taken by local investors.

sold in Minnesota, and some of it may be taken by local investors.

When the company begins its operations and acquires title to lands upon which it now holds options it will control one of the most extensive peat deposits in the country. Near Timber and Middle lakes, which are both within easy reach of Oshawa, there are a vast number of large bogs, and an analysis of the peat in them has shown it to be of a superior quality. Deposits Easy of Access.

Deposits Easy of Access.

The deposits vary from 7 to 12 feet in depth, but all are easy of access, and the expense attached to gathering the raw material will not be excessive. The North-Western road is very conveniently located for the purpose of the fuel company, and it will be possible to lay side and spur tracks and thus obtain the best shipping facilities.

If the sale of the stock proceeds rapidly, work can be begun in the spring, and the promoters will plan to have their factory completed in six months. It will have a capacity of 100 tons of peat briquettes a day, and the product will be marketed at the rate of \$5 a ton. The manufacturers claim that its lasting qualities are equal to those of the very best grades of anthracite coal, and they declare their readiness to compete with the Pennsylvania fuel.

eed train idea. REVIVAL AT MORRIS

Churches United in Holding Services

Under Leadership of Evangelist. Table rector at Mount Calvary church, Baltimore, will be preacher at Holy Trinity Sunday forenoon.

There are already indications that the creditors will be unable to agree upon a trustee and a clashing of interests is expected at the first meeting.

Societies Create an Aristocracy, Making a Gulf Between the Classes-Many Students Appear Before Committee and One of Faculty Tells of "Barb" Organization.

Special to The Journal.

Madison, Wis., Feb. 17.—The university investigating committee is devoting the greater part of its sessions to an investigation of the workings of the fraternity system. Complaints had been made that the rapid growth of the fraternities and societies were tending to create an aristocracy here, and was making a gulf between the classes; that the standards of living were going higher constantly, and tending to making the institution a rich man's school; that extravagance was growing, and with the increasing social demands the work of students was often demoralized.

The committee questioned several students on this point, also Dr. O. G. McCarthy of the faculty, on the workings of the fraternity system in Wisconsin and eastern universities.

Recently a "barb" society, now numbering several hundred members, was formed at Wisconsin to break down the fraternity monopoly of university honors and activity, and Dr. McCarthy told of the workings of such "barb" organizations in the east. Important recommendations are expected.

Sioux City, Towa, Feb. 17.—A dog and a littile boy all unconsciously yesterday afternoom threw the district countroom into tears. Before the opening of court a shagey "cur" was seen limping wildly about the room. Nobody claimed it, and no one knew where it came from. Finally, while it sat in the middle of the foor, there came from the corridor the fapor that provide an aristocracy here, and was suiting of crutches. It was little Myer Tarashonsky, a child whose leg had been cut off by an limitod Central engine, and who was suing for damages.

The dog cocked its ears at the tap of the crutches and gravely approached the child as soon as he appeared in the doorway. The little fellow gave a gasp of delight and held out two thin hands toward the dog, his eyes shining with excitement. Limping nearer, and sniffing at the stump of his leg, the dog looked up and continued to gaze with an expression of sympathy at the face of the child.

The committee questioned several students on t

was driving a mule pulling two loaded cars, when he slipped and fell between the beam and one of the cars. Three ribs were broken and his back so badly injured that he died shortly after. He came here about three years ago, and leaves a wife and child in the old country. Neighbors Help at Fire.

Fire which originated from some cause nu-known nearly destroyed the residence of G. C. Hartman. Neighbors came to his assistance and saved nearly all his household goods. The loss on the building is \$1,100. No one was at home when the fire started. Hartman was at the home of a neighbor when he saw the flames beginning their work of destruction. It is thought a lamp accidentally overturned or an overheated stove caused the fire.

FINDS HIS WIFE MARRIED

Wisconsin Town Develops a Genuine Enoch Arden.

MADISON, WIS.—Stoughton has a genuine Enoch Arden, John Lind returned to Stoughton yesterday after several years in the west and the Klondike to find his wife married to Peter Olson and a year-old baby in the cradle. He never wrote his wife after leaving, and, thinking him dead, she remarried. There is an 11-year-old daughter by the first marriage to whom the father gave \$500, and then took a train for the west again that he might not disturb his wife's present happiness.

GUARDIAN FOR WIFE

Milwaukee Court Makes Appointment in Marsten Divorce Suit.

MILWAUKEE, WIS.—Judge Tarrant has appointed Charles F. Wieler guardian for Mary Martens, the 19-year-old wife of Fred Martens, in her sult for divorce. In her complaint, Mrs. Martens asserts that since their marriage, Oct. 28, 1905, her husband has purchased no clothing for her and that he has refused to provide her with adequate food, making her dependent on her mother for the necessities of life.

MISS VAN BUREN HONORED Owatonna Citizens Hold Reception for Former Librarian.

OWATONNA, MINN.—A public reception was given last evening to Miss Maude Van Buren, the lately deposed librarian of the public library, by the five federated women's clubs of this city, which was attended by hundreds of clitzens. During the evening the senior class of the high school presented her with an engrossed souvenir spoon and Dr. Milo B. Price, principal of Pilisbury academy, expressed the public appreciation of her services and presented her with a gold watch, the gift of citizens.

Miss Van Buren will leave shortly to take the position of chief cataloger of the Iowa state university, a position that has been held open for her pending results here.

RECEIVERS TAKE CHARGE Effort Will Be Made to Sublet Widell-Finley Contracts.

MANKATO, MINN.—The receivers in the case of the Widell-Finley company have filed a joint bond for \$25,000, and are endeavoring to arrange for the completion of the company's contracts rather than allow them to be forfeited and so lose the \$50,000 or more held back in percentages.

Charge Is Made that Wisconsin "U's" Jurors Are Deeply Affected and Bailiff to Hide Their Tears-Boy Is Suing Railroad for Damages for Loss of a Leg and Comes to Court on Crutches.
