

A DIMPLE MAKER.

Find a child with dimples and chubby arms and legs and you find a healthy child. Find one with drawn face and poor, thin body and you see one that needs Scott's Emulsion. Your doctor will no doubt tell you the child is fat-starved—its food is not nourishing it.

Nothing helps these thin, pale children like Scott's Emulsion. It contains the very element of fat they need. It supplies them with a perfect and quickly digested nourishment. Scott's Emulsion brings dimples and rounded limbs.

UNIONISM STRIKES AT RACE SUICIDE

Cupid Dissolves Girls' Union Label Club and Breaks Up Other Unions.

Journal Special Service.

Chicago, March 7.—Unionism as a preventive for race suicide has been tried and found effective. The Girls' Union Label club, organized three years ago, has been forced to disband. All its members, with three exceptions, have become wives.

Miss Nellie F. Mahoney, who organized the club, today told of its dissolution. "Our club has disbanded," she said with a tone of regret.

"Have the girls lost faith in unions?" she was asked. "No, not exactly that. They have more faith in unions now than they ever had, but they are a different kind. The truth is, they have all been married."

Miss Mahoney went on to tell the fate of the club. "There are but three of us left," she said, "myself, Mabel Tierney of the Glove Workers union, and Nellie Georgia of the Rubber Workers. All the rest are married. 'You see, our club was organized principally for the purpose of educating the sale of union-made articles. One of our girls would go to a union meeting and address the men on the subject. Some fellow at the meeting would decide to make his purchasing agent for life, and we would lose a member. The ratio of marriages to initiations was about six to one. We couldn't last long at that rate. We had more than fifty members at one time. Now we have three. I don't know that it is our own fault that we are members still, but it is true. The club, however, has had to disband."

Other organizations of women have had the same experience as Miss Mahoney. "The greatest difficulty we find in trying to maintain unions of girls is that they all want to get married," said Miss Emma Lanphere of the Retail Clerks' union. "No sooner do we organize than some fellow marries our president. That frequently breaks up the union. We can't keep a set of officers six months."

G. A. R. MEN BALK AT HONORING LEE

Journal Special Service.

Indianapolis, March 7.—After a general deliberance against northern magnanimity towards old confederate soldiers, McPherson post, G. A. R., at Crawfordsville, passed a resolution to condemn the resolution of General Fred D. Grant, made the birthday anniversary of General Robert E. Lee as sacred as that of Lincoln, Grant and Sherman.

"Resolved, That this so-called magnanimity has grown to such a nauseating excess that the same spirit that would laud rebellion would erect a monument to the traitor of Benedict Arnold or Aaron Burr or hang the image of Judas Iscariot on the cross of Christ. That congress be petitioned to enact a law prohibiting the displaying of any other flag than the stars and stripes."

GOVERNOR JOHNSON'S MOTHER SERIOUSLY ILL

Special to The Journal.

St. Peter, Minn., March 7.—Mrs. Caroline Johnson, mother of Governor John A. Johnson, is critically ill at her home in this city. She is suffering with a severe attack of colic, and her condition is giving Governor Johnson and her other children much concern. Miss Hattie Johnson, who is a teacher in the St. Peter public schools, has put aside her work temporarily that she may assist in nursing and caring for her mother.

"GET DRUNK, STAY DRUNK"

Kansas City Judge Orders a Prisoner Freed on This Condition.

Kansas City, March 7.—"If you'll get drunk and stay drunk I'll let you out of jail. You must leave this city. Only remember, you must get drunk and stay drunk. You're a bad man, and whiskey will take you to the devil quicker than anything else. The sooner the devil gets you the better. If you don't live up to these conditions I'll put you in jail and keep you there."

With these remarks Judge Wofford in the criminal court released Sally Jones, charged with forgery and said to be the son of well-known St. Louis people. The name Jones is admitted to be an alias, but he refuses to reveal his identity. On his attorney's promise that Jones would go to Chicago, where he had secured work, Judge Wofford took the prisoner's personal cognizance.

"THERE'S A REASON."

WHY THE BOYS ARE WORSE THAN GIRLS

Chicago Man Says It's Because the Boy Is Made an Outcast.

Journal Special Service.

Chicago, March 7.—"Why are boys worse than girls in the city? Why are they the pests of the schoolteacher, the chronic truants, the fishmarket of the streets, the raw material of criminality, when their sisters grow up in a thoroughly respectable manner? Because modern conditions do not give them a fair chance, because they are 'rank outsiders' to everyone, because no one has much use for them."

These questions were asked and these answers given by Charles C. Krauskopf, principal of the Emmet school secretary of the Illinois Society for Child Study and former examiner at the parental school, in an address delivered before the Twentieth Century club of Maywood last night.

Mr. Krauskopf described the average city-bred boy's bitter struggle in the harsh, selfish whirl of a metropolis in a manner that recalled Dickens' pathetic pictures of child life.

No Place for a Boy.

"There is in the present day city life," he said, "absolutely no place in the economic community for the man-child between 4 and 14 years old. There is no place or condition where he becomes a natural, essential factor of the social body. Nobody really needs him or wants him. His mother may ask him to run a few errands, but there is rarely any attempt to require of him the performance of regular daily duties. He has nothing to do, and is forced to play or loaf; is doomed to an aimless, useless life."

"His father's place of business is usually far from home, frequently behind walls and fences with 'No admittance' over the doors. Even if the boy can visit his father and see him at work, the differentiation of labor is so great that the purpose of the father's task is often incomprehensible to the child."

Back to His Troubles.

"After a few minutes the novelty of watching the wheels go round wears away and he is naturally attracted to body carry him to where he will again be kicked off the neighbors' lawn, ordered from vacant lots or streets because of his noise, until finally, an outcast and a wanderer on the face of the earth, in self-defense, he forms a band or a gang to fight for or to gain secretly his rightful share of innocent pleasure, and then, by an always easy road, he usually passes to a more questionable occupation for his unoccupied time."

"With the girl it is somewhat different. Even in a modern apartment house overstocked with servants, there are certain household duties that may be required of her. Her traditional games are more closely associated with the home and she is never banished from doors. The mother's life is centered in the house and is not associated with other life in so complicated a way as the girl's."

Girl Has Place at Home.

"The girl sees, hears and takes a part in the housekeeping plans. She is truly a home body, while the boy may be a stranger under his father's roof, having no necessary connection with the institution of home. Thus the girl may have an opportunity to learn to work, while the boy is usually forced to play. "Another reason is in the difference in the personal attitude of adults, particularly men, toward boys and girls. The boy is a flat building feels free literally to kick boys off the lawn. Think of the indifference of a passer-by to the abuse of a boy in comparison with his indignation if the victim be a girl. Does not this tend to make the boy more antagonistic and more unsocial than the girl?"

FALLEN BOSS' FIRM LOSES BIG CONTRACT

Philadelphia, March 7.—One of the first official acts of Thomas L. Hicks as soon as he was sworn in as director of public works of Philadelphia, was to annul the five contracts held in the name of Daniel J. McNichol for the construction of several parts of the city's filtration system. The reason given is "collusion, irregularity and fraud in the procuring and execution of the contracts whereby the city has been wronged and defrauded in its rights and property."

The total value of the canceled contracts is \$1,976,000. The McNichol firm, which includes former State Insurance Commissioner Israel W. Durham and State Senator James P. McNichol, had already secured the contract work on the filter plant amounting to more than \$12,000,000.

ALFONSO'S BRIDE-ELECT BECOMES A CATHOLIC

San Sebastian, Spain, March 7.—The impressive ceremony of the conversion of the Princess Ena of Battenberg to the Roman Catholic church, prior to her marriage to King Alfonso, took place today in the chapel of the palace of Miramir. Rt. Rev. Robert Brindley, Roman Catholic bishop of Nottingham, England, officiated. Premier Moret and the Duke of Alba were witnesses for the princess. The members of the royal party were deeply moved, Princess Beatrice, Princess Henry of Battenberg, mother of Princess Ena, and Princess Ena herself were in tears.

An artillery salute announced the termination of the ceremony, after which the royal party lunched together. The town is enjoying a holiday in honor of the event, processions headed by bands of music passing constantly thru the streets.

HEIRS TO \$28,000,000

Bank Clerk and Engineer's Wife Are Found to Be Legatees.

Enid, Okla., March 7.—William H. Conklin, a Chicago bank clerk, and his sister, Mrs. Edward H. Ryan, wife of the engineer of the city waterworks here, are heirs to an estate in Germany worth \$28,000,000, according to a lawyer from that country who has been in the United States for some time searching for descendants of Frank and William Stillwagen. The latter was the grandfather of Conklin and his sister. Half of the estate is cash and the remainder real estate on the Rhine. Mr. Conklin's father emigrated to Pennsylvania in 1840.
