Marquette, Mich., Aug. 21 .- With Vice Presi-Special to The Journal. dent Fairbanks, Justice William A. He said the only thing he had against La Follette was that the senator was not in favor of Davidson for governor, and he came out flatfooted for sound regulation of corporations by the state. The first statement was made in reply to a man in the audience who insisted upon interrupting the speaker with praises of La Follette.

It is said that nothing that Governor Davidson has thus far done in his campaign has helped him so much as the utterances in his Milwaukee speech. The governor said:

"I have not said anything against La Follette. I have always supported the measures he supother prominent personalities among the speak-ers, a unique celebration has been arranged for next Wednesday and Thursday at St. Ignace. I am with him today. It would give me the greatest pleasure to cast my vote for him for president of the United States. The only thing I have against him is that he is not supporting me for governor."

The statement was made without bitterness but with earnestness and candor, and the concluding sentence was accompanied by a goodnatured smile to the audience, as much as to assure them that no mater what La Follette did or failed to do, Governor Davidson intended to stick to the principles he had advocated.

The Turner hall speech was one of the best the governor has delivered this campaign. Notwithstanding the fact that he had spent the day in campaigning in an automobile thruout the archs of all the territory now embraced in the Lake Superior region. The Indians will be robed in their savage splendor, and ghost dances, canoe races, Indian songs and games will be held at frequent intervals. The Indians will, visit the grave of Father Marquette, where, chanting their death songs, they will pass in single file before the tomb, pausing long enough to kneel and lay the pipe of peace upon the grave.

What we know you would always say "Schlitz beer" when you order. could visit our brewery—as thousands have done-you would insist on the beer that is brewed here.

You would want a beer clean—as ours is. You would want it filtered and aged as we do it. You would want to know that every bottle is sterilized—that it is pure—

as is every bottle of Schlitz.
