RICHMOND REGISTRATIONS TOTAL LESS THAN 20,000

Official Reports Last Night Place Enrollments at 19,975, With Few More to Come.

DEFERRED CLASSES LARGEST

Men Who Give Ages at Eighteen and Thirty-Seven More Numerous Than Others—Chairman Ellerson Issues Thanks to Registrars.

The latest official report of the number that registered in Richmond on registration day between the ages of eighteen and forty-five years was issued last night by the five divisions, the total being 19,975. This is practically complete, but a few cards are expected by mail to-day, and the grand total will probably reach 20,000.

An interesting fact connected with the registration was revealed when the registrants were being classified according to ages, and this was that those eighteen years old and thirty-seven years old, just below and above the ages to be called first, as announced by the provost-marshal-general, are at least 25 per cent greater on average than any of the other ages.

The central registration committee, under the chairmanship of Chairman Ellerson last night issued the following statement: "The central registration committee desires to return its thanks to the more than 700 citizens of Richmond who gave of their time and energy as assistant registrars, the value of whose services is recognized not only by the central committee, but by the chief of each of the five precincts to which they were assigned."

TO CENTRAL COMMITTEE

"Thanks are due also to the committee of colored citizens, acting as assistant registrars, the value of whose services is recognized not only by the central committee, but by the chief of each of the five precincts to which they were assigned."

The women's auxiliary of the War Camp Community Association, which furnished lunches to the registrars and others employed at registration, and was much pleased with the manner in which the registrars handled the situation. He doubted whether any city in the whole of the United States that registered in the neighborhood of 20,000 men could produce such a record as was Richmond. No other citizen, however, of any kind resulted, and there was never a word of dispute that arose between registrars and registrant. For his work he was much gratified.

LOCAL BOARDS BEGIN TO-DAY

Local boards will to-day finish marking the registration cards with serial numbers in preparation for the call of men in October. No changes will be made in the method of conducting the different steps over which cards have to pass before the call is issued for men to appear before their local boards for examination. It was announced last night at the headquarters of the board.

TO PREPARE FOR CALLS

Duplicate cards will be forwarded to the office of Provost-Marshal-General Crowder and the Adjutant-General of Virginia for their use in the call of men. This step, it is thought by local boards, will be taken before the order numbers are drawn in Washington, in the belief that as little time as possible may be lost in calling the new men to the colors.

By divisions, the registration was as follows:

ALMOST BLIND FROM DIZZINESS

This Virginia Lady Tells of Constant Suffering From Dreadful Backaches, Permanently Relieved By Cardui.

Norton, Va.—Mrs. E. S. Clouse, of this place, writes: "In about 1901 I seemed to get in bad health. I had been married about a year. I called in Dr. ... who treated me ... and gave me medicine, which didn't do me any good. I suffered agony for about 4 months, and felt I must have some relief, for I was so bad off that I was really unable to be up out of bed during all that time."

I could hardly walk, every step was painful and a drag. I would be almost blind from dizziness. I had dreadful backaches that never ceased, and severe pains. I read of Cardui in the Birthday Almanac and friends urged me to take it. I used one bottle with such beneficial results that I gained hope of recovery. After the use of 2 or 3 bottles, I felt so much better that I was able to get up and go about my work. My improvement was steady, and after about the 3rd or 4th bottle I was entirely cured, and the cure has been permanent. For the past seven years I have had perfect health and my work has been a pleasure."

MANY AUSTRO-HUNGARIANS AMONG THOSE CAPTURED

Pershing's Army Has Taken 8,000 Prisoners Up to Friday Morning.

ARTILLERY DOES GOOD WORK

When American Guns Opened on Foe Fire Was So Accurate There Was Nothing to Do But to Get Under Cover and Stay There.

WITH THE AMERICAN FORCES IN LORRAINE, September 13.—Prisoners taken by General Pershing's forces in the St. Mihiel salient up to Friday morning totaled approximately 8,000. They include 350 Austro-Hungarians. This number includes a considerable number of Austrians in force are being used on this part of the line.

General Pershing's troops continued their steady advance against the St. Mihiel salient throughout the night. They reached and even passed the objective set for them. Prisoners continue to pour in.

The Americans pushed ahead all along the front except at one point. They were met with less resistance than they had expected. The Germans made only one counter-attack to stem the crushing tide of Americans.

The Germans, however, began their practice of making a dash for it when they saw the Americans warning of what was coming, and General Pershing's men were completely prepared for the counter-attack when it started.
