

DRAFTING REPORT ON MUSCLE SHOALS BIDS

Subcommittee Appointed
To Draft Recommendations
of Full Committee.

TWO DEMOCRATS ARE NAMED

Chairman Kahn Says Proceedings
Have Been Friendly and Con-
fidently Expects Unanimous Report
in House.

[By Associated Press.]

WASHINGTON, April 21.—A subcommittee consisting of three Republicans and two Democrats was appointed today by Chairman Kahn of the House Military Committee, and instructed to begin drafting a report for the House containing the committee's recommendations and opinions of the route private offers for development of the government's properties at Muscle Shoals, Ala.

The creation of the subcommittee came as a result of more than two weeks of daily executive sessions held by the Military Committee, which freshen out evidence collected during the open hearings, and marked the first definite step since the public hearings were concluded in the direction of a final report for the House.

The subcommittee includes Representative James H. Hamilton of Vermont, chairman; Miller of Washington, and Parker, New Jersey, Republicans, and Quinn of Mississippi, and Wright of Georgia, Democrats. While these five men are working on a written report, the full committee decided upon a program of recesses, meeting from time to time for conferences with the subcommittee. The next meeting of the two groups has been fixed for Monday.

The final report will be made to the House as soon as completed, in the name of the Military Committee, unless a division of opinion among the members develops and it is found necessary for the committee to report out two or more dissenting opinions. Chairman Kahn said the proceedings in executive sessions to date had been characterized by such friendly deliberations that he confidently expected a unanimous report in the end.

LADY ASTOR TELLS WOMEN PUT HOME BEFORE POLITICS

(Continued From First Page.)

former soldiers in the matter of finding employment for them.

"Men ought not to be paid for fighting for their country," she thought.

Her Husband Real Democrat.

"I believe in democracy, but I find it hard to find democrats," she remarked. "My husband is a real democrat, and so is Lloyd George. The heart of Lloyd George has ever been with the great majority of the people, and it always will be."

To the Irish, here and in Erin, she recommended the advice of St. Paul, to look forward to the things that are to be, instead of the things that are. They would progress, however, over "ancient wrongs" would get Ireland nowhere, she thought, nor would any agitation based on deep-rooted prejudice.

She suggested that the responsible women of wealth dress more simply, saying that most girls went wrong for the sake of clothes in an endeavor to imitate those who could afford fine apparel.

Prost In Danville Area.

DANVILLE, Va., April 21.—A white frost was registered generally in this section early today. Reports indicated that it was not sufficiently severe to harm the fruit crops, but no word had come from the orchard country west of here, where temperatures probably would be lower than in Danville. Reports from Patrick county were that the prospects for a heavy fruit harvest were unusually good.

EXPERIMENTS SHOW BUGS USE RADIO FOR COMMUNICATION

Cockroach Has Wave Length of an Inch With a Very
Low Frequency—Tumblebug and Moth Also
Have Wireless Equipment.

[By Associated Press.]

HARRISBURG, Pa., April 21.—The

troublesome cockroach is a radio

man, and communicates by wireless

with his brothers and sisters. Thus

Howard Zimmerman, of Harris-

burg, sergeant-major of the Fifty-

fifth Infantry Brigade, headquarters

company, Pennsylvania National

Guard, believes and seeks to prove

through experiments the results of

which were made public here today.

The experiments, Sergeant Zim-

merman said, have been under way

here for a year and the results of

investigations begun in a "bug in-

vested barracks in Luxembourg under

the direction of Captain Armstrong,

of the Fifth Division, signal corps,

with which Zimmerman was serving

shortly after the armistice.

The sergeant declared one insect

radios to another, and this heffer, he

said, is supported by his experiments.

"I have found in my experimental

work," he asserted, "that a cock-

roach has a wave length of between

one-half inch and one inch, with a

very low frequency."

The tumblebug and moth are also

undoubtedly with radio power, he added,

while beetles show only slight evi-

dence of possessing wireless habits.

Zimmerman said he had been

informed by a French officer that

the French had been under way

here for a year and the results of

investigations begun in a "bug in-

vested barracks in Luxembourg under

the direction of Captain Armstrong,

of the Fifth Division, signal corps,

with which Zimmerman was serving

shortly after the armistice.

WILL NOT ASK BRYAN SPEAK AT CONVENTION

Is Not Regarded as a Practi-
cal Sunday School
Man.

[By Associated Press.]

COLUMBUS, Ohio, April 21.—Wil-

liam Jennings Bryan will not be

asked to speak before the Interna-

tional Sunday School Association's

convention at Kansas City, June

21-27, not because of his theological

views, but because "he is not a prac-

tical Sunday school man." It was

asserted here today by J. J. Profes-

Walter R. Athern, dean of the school

of religious education of Boston

University. Dean Athern is chair-

man of the committee on education

of the International Sunday School

Council of Religious Education,

which meets here tomorrow. He also

is a member of the program com-

mittee for the convention, which is

to meet here Tuesday.

This committee, according to Dean

Athern, has decided that Mr. Bryan

will not be asked to speak. He said

he would give out a statement later

telling why. He added that this

statement probably would set forth

the arrangements for Mr. Bryan's

appearance had been made by a sub-

committee which did not have power

to decide definitely.

Other men of equal public impor-

tance had been looked at speakers,

he said, with the idea that they

would draw large crowds, but when

the committee made its report it was

decided to arrange for Sunday school

experts and educators rather than

prominent men to talk.

The committee on education, dur-

ing the meeting here, will draft a

four-year program, Dean Athern

said, for all Protestant Sunday

schools and day schools of religion

of the Christian faith in North

America.

Big Theater Project Abandoned.

DANVILLE, Va., April 21.—While

no announcement has been made, it

is learned that the projected \$150,000

Palace Theater, plans for which have

been drawn, will not be built here

any, whose lease on the site of the

Theater expires this fall. At the

time work was started on three new

fronts on Main Street, which were

to front the theater. It was said the

theater would be built later. Now,

it is learned the North Carolina syn-

dicate which planned to come to

Danville as a competitor of the South-

ern Amusement Company, has aban-

doned the idea, and efforts will be

made by the Southern Amusement

Company to release the Majestic

Theater.

Meriden, Conn., April 21.—

Bishop Thomas Nicholson, of Chicago,

addressing the New York Methodist

Episcopal Conference today, said

that when the general assembly did

their coming on the way to church

or prayer meeting, the present

young folk "adopt the way of Fat-

ty, Arbutle, or Peagay Joyce," and

attend resorts where the church is

a joke and the eighteenth amend-

ment a laughing-stock.

SEEK TO REVOKE SCHOOL'S CHARTER

(Continued From First Page.)

versity declare they were not con-

sulted prior to the placing of their

names on the lists of the "insti-

tution," and that such action was not

authorized.

Swiss Take Initiative.

The "university," while operating

principally in Germany, has branches

in England, France, Italy and India.

In Switzerland the government took

the initiative and already has pro-

ceeded against the concern, and has

made it a criminal offense for any

one to use a "degree" purchased

from the "university." A DeMoles,

representative in Switzerland of the

Holler "school," is said to have been

prosecuted and convicted, since which

time he has confined his activities to

Germany.

Last year, according to informa-

tion reaching the office of the At-

torney-General of Virginia, the sale of

degrees netted Dr. Holler \$17,000.

Numerous complaints have been

received by the Attorney-General,

several of them from Italy. The

United States district attorney's of-

fice at Washington has been instru-

mental—in fact, extremely helpful—in

getting the investigation by the

Attorney-General of Virginia started.

Miss Pearl McCall, assistant district

attorney in the national capital, is

in charge of the Washington end of

the probe. A hearing is scheduled

in Washington next week at which

the Attorney-General of Virginia

will be represented.

Annulment of the charter, if the

Attorney-General is of the opinion

that it can be revoked, will be by

quo warranto, his office said yester-

day.
