Mines and Prospects--Furnaces and Mills

South Columbus Nearing the Vein

Big Bore Is Now in a Distance of Six Hundred and Twenty Feet.

In the South Columbus of Alta Manager Jacobson expects soon to strike the vein toward which he is driving the big tunnel, which has now penetrated the mountain to a distance of 620 feet.

The change from a hard lime formation to softer ground greatly encourages a belief in favorable developments at almost any shift.

This property has made a long and persevering campaign and its backers hope that the day of remunerative production is not far distant.

RUSH TO GOLDFIELD.

C. E. Hudson Speaks Well of the Nevada Gold Camp.

Constantly increased activity at Goldfield is the report brought back by C. E. Hudson, who has returned from a trip to the famous Nevada camp. Every train, he says, is swarming with prospectors, investors and fortune-hunters who are flocking into this new Eldorado, and it is impossible to get lumber on the ground fast enough to build homes for half of the argonauts.

The recent rich strikes are reported as holding out to a degree exceeding conservative expectations, and the sampling of newly-discovered ledges proves additional sources of great wealth.

DRILLING ON WEST SHORE.

Kansas City Oil Company Is Down Nearly 1000 Feet.

The Royal Oil company of Kansas City is reported to have its drill down 900 feet on the west shore of the lake. It is said that the indications there are fully as favorable as in the Farmington field, where for nearly a year the Guffey-Galey people have been engaged.

Donnellan's Market Letter.

Of the Tonopah stock market the latest weekly letter of Kenneth Donnellan & Co. says:

As stated in our letter at the close of business last week, Montana soared away above the $2 mark after having been down to $1.50 some forty-eight hours before. As the time drew near for the annual meeting, a feeling of uncertainty prevailed. The wise operator shorted the stock, standing ready, however, at any moment to cover, should the first sign of buying orders from insiders show themselves. The stock continued to decline, and when it again reached a point at which only $1.82½ was bid without bringing out the buying orders (and this was late in the day preceding the day set for the meeting), it was then a foregone conclusion that no dividend would be paid. Stockholders then got down off the expectant seat, resigned themselves to the situation, and centered their interest in the president's report as to the condition of the mine and any changes which were liable to occur in the personnel of the directorate and management. We wish we might give that report herewith in all its details, but we cannot, and respectfully refer our clients to the Tonopah and Salt Lake papers. Our space permits us to state, however, that there is at present over $3,000,000 worth of ore awaiting treatment and this does not by any means include all that is in sight. The campaign to be pursued the coming year, as outlined in the report, is a very vigorous one. The choosing of Donald B. Gillies as the future general manager and superintendent is a compliment to the sagacity of the board of directors, and taken as a whole, the report is a satisfactory one, and as stockholders we can say, it suits us. As soon as the true status of the company and the mine became public, the stock became firm and showed an immediate gain of 17 cents a share.

Tonopah common has enhanced in value $1 a share in a little over a week's time. Regular shipments are in vogue now, and the stock will continue to enhance.

Tonopah Extension is still on the rise. McNamara is full of life and partaking of wide fluctuations.

Belmont still hovers around 60 cents, when it should be much higher.

Rescue is much the same, the resuming of operations having been delayed.

Jumbo at Goldfield is much stronger and very much in demand.

We urge the purchase of Goldfield Mining at the prices now asked. When one looks at the mine and its production, and then at the price of the stock, it appears little short of ridiculous.

Jumbo Extension is deservedly in demand and should go to 50 cents a share.

Many sales are recorded in Adams, Mohawk, Blue Bell, Black Ant, Hazel Kirk, Columbia Mountain, Diamondfield, Vernal, Sandstorm, and in fact pretty much the whole list, and we believe that present buyers will make lots of money between now and Christmas. Strikes of the character of those which have been heralded to the world the past few months, and which at first appeared so wonderful, are now taken as a matter of course, and are of almost daily occurrence in many different directions.

Contracts for Mill Equipment.

The Continental-Alta yesterday closed contracts with the Salt Lake Hardware company for the equipment of its new mill in Tooner's flat. Manager Crowther will push the work of installation with all possible speed and it will be but a short time before the plant will begin handling ore.

Card of Thanks.

Capt. W. G. Workman and family desire to thank most heartily their many friends and relatives for the assistance and sympathy shown them, as well as for the many beautiful floral offerings bestowed upon them in their late bereavement at the death of wife and mother. Yours sincerely,

THE DAY ON 'CHANGE.

Only Low-Priced Stocks Figured in the Trading on Call.

There was not much doing on 'change yesterday, the totals showing the transfer of 24,400 shares, for which the investors checked out only $1,940.50. All of the stocks that responded to bids were in the low-priced class, May Day opening the morning's trading with 5000 at 5¾ cents. Two lots of Silver Shield were taken over at 4¾ cents, while 1¼ cents was the best that could be obtained for 1000 Little Chief. On the open board May Day registered a gain, selling 3000 at 5½ cents and a point higher, while Victor released an odd 900 at 1¾ cents.

The advance in May Day continued in the afternoon, 700 shares selling at from 6 to 6¾ cents. Carisa was taken at 9¾ cents, Sacramento found a buyer for 2500 at 13¾ and 14 cents, while Tetro was the only trader of the open board, 1500 going at from 27 down to 26¾ cents. The best bid for Con. Mercur was 31, with 33½ cents asked, while Daly West was an offering at $14.50, with the bidder $1 under this figure.

The call closed on the following quotations and sales as they follow:

Quiet in Boston.

BOSTON, Mass., Sept. 21.—The strength displayed by the New York market did not help the local list very much. Early prices were inclined to be strong on professional trading, but commission houses were not factors in the day's dealings. Commission houses do not appear with very many buying orders, but their selling orders are increasing, not a very bullish indication. Four Foot Vein of Manganese

Black Mineral Found in Marketable Quantities Near Caliente.

Special to The Tribune.

CALIENTE, Nev., Sept. 21.—H. J. Cullen, owner of the "Black Flag" group of silver-lead claims, forty-three miles west of Caliente, came in today for provisions. He has just cross-cut a four-foot vein of manganese and is sending samples to Salt Lake for assay. He will commence drifting north and south on the ledge on his return, and expects to have a carload of ore ready for shipment before October 1. The contact is lime, and so far the deposits have been pockety, although Mr. Cullen feels certain that he will open an ore body in place at depth.

Work will be commenced next week on a twenty-four foot body of gypsum on the St. Louis claim, three miles east of Caliente and one-half mile south of the San Pedro track. The property is owned by Fred A. Foster and Will Lee, and samples sent to Salt Lake last week proved to be a fine quality of gypsum with some borax. Mr. Foster is at present at Bingham, but will renew work on his claims on his return to Caliente.

A twenty-eight foot body of gypsum has been sunk on forty feet in an incline shaft by J. Whalen on his Fourth of July claim, four miles north of Caliente. The ledge runs northwesterly and southeasterly, and is undoubtedly on the same ledge as that opened recently by Foster and Lee, on the St. Louis claim, east of Caliente. Mr. Whalen is also sinking an incline shaft on his cinnibar ledge in Chief district.

John Buller and Pat Noltz have just struck and partly cross-cut a big ledge of silver in bromide and manganese in his Steptoe claim, west of Caliente. The ledge at grass roots is sixteen feet wide, with a twenty-eight inch pay streak of $42 ore.

A lease and bond for $10,000 have just been given by Charles Mulvey to Blair & Seaforth of Reno, on the Gypsy Queen group of gold copper claims, eight in number, twenty-six miles northwest of Moapa. Six men will be put to work in developing these claims next week.

McKnight and Folsom, locators of the Pine Nut mine on the Virginia river, have struck a big body of rich free gold on their claim at a depth of ninety-six feet, and are now sinking in solid ore averaging $73.50 per ton.

Reports of strikes on Virginia river come in nearly every day, the latest being on the Lucky Boy, a second southeasterly extension of The Hidden Treasure. Finney and Bronson, the owners, run a tunnel from near the river into the mountain on a stringer two inches wide, showing sensational values in coarse gold. When in forty-eight feet the vein opened out to sixteen inches and the honey-combed pink porphyry was found literally filled with free gold.

Duke Marion, leaser on the southerly extension of The Hidden Treasure, is drifting twenty feet below the surface on a two-foot body of $120 coarse gold ore and has sacked over twenty tons of ore assaying $96 to the ton. He has also sunk a thirty-foot winze on an ore shoot showing richer ore than that already extracted. His leased claim belongs to The Hidden Treasure group.

SILVER-LEAD SAMPLES.

Goodsell Mine at American Fork Contributes to the Exhibit.

Some fine samples of silver-lead ore from the Goodsell mine of American Fork canyon were yesterday added to the mineral display of the Real Estate association.

The ore runs as high as 76 per cent and 220 ounces silver per ton.

While this character of rock has not yet been disclosed in large quantities, the management is hopeful that with but little more development the amount will increase until a shipment sufficiently large to afford funds for carrying on the work can be made.

NOTICE OF ASSESSMENT.

Joe Bowers Mining company, principal place of business at Salt Lake City, Utah.

Notice is hereby given that at a meeting of the directors, held on the 20th day of August, 1904, an assessment of one (1) cent per share (being assessment No. 12), was duly levied on the capital stock of the corporation, payable immediately to R. T. Burton, Jr., secretary of the company, at the office of the company, room No. 225 D. F. Walker bldg., Salt Lake City, Utah.

Any stock upon which this assessment may remain unpaid on the 24th day of September, 1904, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 15th day of October, 1904, to pay the delinquent assessment, together with the cost of advertising and expense of sale. NOTICE TO WATER USERS.

State Engineer's office, Salt Lake City, Utah, Aug. 31, 1904.

Notice is hereby given that the Old Evergreen Mining and Tunnel company, by H. G. McMillan, its secretary, whose postoffice address is Salt Lake City, Utah, has made application, in accordance with the requirements of chapter 100 of the Session Laws of Utah, 1903, to appropriate sixteen and seven-tenths (16.7) second-feet of the water flowing in Big Cottonwood creek, in Salt Lake county, Utah, to be diverted by means of a ditch, flume and pipe at a point on said creek from which the quarter-section corner at the southeast corner of the southwest quarter of section 26, township 2 south, range 2 east, Salt Lake base and meridian, bears north 35 degrees 15 minutes east 832 feet distant; also from a spring branch at a point from where said quarter-section corner bears north 15 degrees east 912 feet distant (the intention being to turn the water of said spring branch into said creek at the point of diversion first above described), from where the commingled water will be conveyed through a ditch, flume and pipe for a distance of about 2800 feet, and there be used from January 1st to December 31st of each year for developing power to propel mining and milling machinery at the said Evergreen mill site, in the southwest quarter of said section 26. After having been so diverted and used the water will be returned to the natural channel of Big Cottonwood creek at a point from which the southeast corner of said section 26 bears south 43 degrees 30 minutes east 2280 feet distant.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit and filed in this office after thirty (30) days and before sixty (60) days from the date hereof.

NOTICE TO WATER USERS.

State Engineer's Office, Salt Lake City, Utah, Sept. 2, 1904.

Notice is hereby given that James J. Chambers, whose postoffice address is 359 Broadway, New York city, N. Y., has made application in accordance with the requirements of chapter 100 of the Session Laws of Utah, 1903, to appropriate ten (10) second feet of the water flowing in Little Cottonwood creek, in Salt Lake county, Utah, to be diverted by means of a dam and pipe at a point on the South fork of said Little Cottonwood creek about two miles south of its junction with the main stream, from where the water will be conveyed through a pipe for a distance of about 10,000 feet, and there be used from January 1st to December 31st, inclusive, of each year for developing power for electric lighting and for propelling machinery at mines, smelters and pumping plants in Salt Lake valley. After having been so diverted and used the water will be returned to the natural channel of Little Cottonwood creek at the confluence of said South fork stream with said creek.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit and filed in this office after thirty (30) days and before sixty (60) days from the date hereof.

NOTICE TO WATER USERS.

State Engineer's Office,
Salt Lake City, Utah, Aug. 24, 1904.

Notice is hereby given that Joseph Y. Larsen and D. B. Brinton, whose postoffice address is Murray, Utah (Rural Free Delivery Route No. 4), have made application in accordance with the requirements of chapter 100 of the Session Laws of Utah, 1903, to appropriate two-thirds (2-3) of a second-foot of the water flowing from Big Willow spring, situated approximately in the center of the east half of section 1, township 2 south, range 1 east, Salt Lake base and meridian, to be diverted by means of a dam and flume at a point just below where said spring issues and from where the water will be conveyed through a flume and pipe for a distance of about 4000 feet, and there be used from March 1, to December 31 of each year for the irrigation of about sixty acres of land in the southwest quarter of the southwest quarter of section 1, and in the south half of the southeast quarter of section 2, township 2 south, range 1 east, Salt Lake base and meridian, in Salt Lake county, Utah. So much of said water, as may be necessary for watering live stock owned by said applicants will be used. It is claimed by applicants that the water flowing from said spring is now wholly wasted through seepage and evaporation.

All protests against the granting of said application, stating the reasons therefor, must be made by affidavit and filed in this office after thirty (30) days and before sixty (60) days from the date hereof.

A. F. DOREMUS, State Engineer.
