Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock

market:
Logan & Bryan, New York, say: 'Saturday's strength was continued in today's market, the market being strong throughout and more uniform than for some time. Money rates, though strong, were not erratic. The feeling seems to be that the crists has been passed. Wall street is confident that the investment demand from the October disbursement will shortly bring money back to the street, making easier rates. The action of the market is strong, with steel stocks and low-priced industrials the favorites. On any general advance these stocks are expected to give a good account of themselves."

any general advance these stocks are expected to give a good account of themselves."

Hutton, New York, says: "We seem to be in a position today here in Wall street that we have seen many times before. The public is practically out of the market and stocks the big interests carrying same in lieu of absolute knowledge as to what the future will bring forth in their favor. Speculators and investors alike have been scared out of market by insurance companies and scandals, fears of railway legislation at Washington this fall, the rumored strike in coal regions next spring, high money, etc. Now as regards these various factors, we find stocks going up in the face of 7 per cent money, because this condition was discounted before and traders sold long ago in anticipation of such, and the big interests took the stocks, and they being well supplied with funds as is always the case under such conditions, they will keep on buying until the money situation eases up and then the public will be builish and take securities off the hands of these banking interests."

T. A. Mcintyre & Co., New York, say: "There was a considerable increase in the demand for stocks, with the result that it caused a much better undertone to the general list and a further hardening tendency to prices. The action of large financial institutions indicates that the leading banking interests have the money situation well enough in hand to warrant the assumption that the stock market will be in good shape and that we will have a continued trading market, with probable gradual increase in values rather than any development of weakness. There is a tendency among the trading element to pick out the cheap stocks of the better class of railway and industrials and concentrate operations on them for a further rise."

ONLY FEW DUCKS REACH THE MARKET

Hunters Find Birds Plentiful, but Few Are Offered for Sale.

LARGER SUPPLY IS PROMISED FOR TODAY

Price of Birds Ranges From 40 to 75 Cents a Brace. Teals the Lowest.

Although hunters who availed themselve of the opening of the duck season reported their luck unusually good, only a few birds found their way to the retail stores of the city These were selling at from 40 to 7. cents a brace, the mallards bringing the latter price and the teels the smaller figure. A delicacy not often seen at this season of the year was being offered at some of the fruit stands-strawberries. They came from California and although they were anything but attractive looking, were selling at 25 cents a box. Cranberries were about the only other fruit that has not been on sale for some time. These came from Cape Cod, and sold at 15 cents a quart, retail.

BEARISH NEWS FAILS TO HOLD WHEAT DOWN

Strength Due Almost Entirely to Active Bidding of Leading Bull.

CHICAGO, Oct. 2.-Notwithstanding a number of bearish influences, the wheat market was strong throughout the entire session. At the start the market was affected to some extent by the steadiness manifested in the wheat market at Liver-

manifested in the wheat market at Liverpool.

Owing to the sharp decline in Chicago Saturday, a majority of traders here expected a considerable reaction in prices at foreign grain markets. Cables, however, falled to confirm the expectation, values at Liverpool being a trifle lower. For December opening quotations here were unchanged to icc higher; at \$31,4835.

From the start a leading bull was an active bidder for wheat. To this fact seemed due almost entirely the strength manifested throughout the entire day Spurred on by demand of the bull leader, pit traders became active purchasers. As prices advanced shorts started to cover, causing still greater show of strength, notwithstanding that news of the day otherwise was favorable to the bears. Weather in the Northwest was generally clear. Receipts at Minneapolis and Duiuth were again of liberal volume. World's shipments were large and the visible supply showed an increase of 1,660.00 bushels.

Nevertheless the market continued to gain in firmness. During the last few moments of trading December touched the highest point of the day, sales being made at \$45.0543. The close was strong with December 1½c higher, at \$45c.

Sentiment in the corn pit was a trifle bearish and prices showed a moderate decline. The market closed steady, with December ½c off, at \$31.

Liberal receipts had a depressing effect on the oats market. December closed 14.00 improved demand for lard. At the close January pork was unchanged, lard was up 21/265c, and ribs were a shade higher.
