JOHNSON HIMSELF
BACKS "WHITE HOPE"

By International News Service. CHICAGO, July 21.—There's one "white hope" that Jack Johnson believes in. He's Jim Barry. Fresh from a long stay in Australia, Jim dropped into Chicago on his way to Kansas City. Defil after defil emanated from the energetic James and Jack Johnson is ready to back them up.

Barry, who lost two close decisions to Sam Langford in the antipodes, wants to meet Joe Jeannette, Al Palzer and Lutter Moderthe in the Interior of the season and the condition of the diamond and outfield could scarcely be the condition of the diamond and outfield could scarcely have been worse. The pitchers were forced to pitch uphill while from the diamond and outfield could scarcely have been worse. The pitchers were forced to pitch uphill while the outfield ers were somtimes out of sight in the second growth alfalfa.

McCloskey worked three hurlers in the first affair, which can scarcely be termed a ball game for it was more like a marathon for Missoulia's men and Ogden's outfleders. Erickson lasted less than two innings and seven runs in two innings spelled Ervine Jensen's finish in the eighth. "Artic" Schimpff finished up. Bush for the Bianks, had most everything and held the Macks to a quartette of stingy blows in the nine innings.

Stone had his one day out of a week when he worked in the second game for Ogden. His work was only a little less brilliant than that of Bush in the first same. His control was perfect, his base on balls record showing clean and six Blanks went the strikeout route. Carney, the new unpure looked after the bases and Mead called the balls and strikes.

WILLIS MOORE GIVES DINNER TO FRIENDS

By International News Service.

WASHINGTON, July 21—Professor
Willis Moore, chief of the weather bureau, who recently returned here from
the international wireless conference at
London, gave a delightful dinner this evening at the Chevy Chase club to a number of newspaper and congressional
friends.

Professor

Professor Moore has not yet reported officially on the proceedings of the conference, but it is understood that his suggestions for a complete covering of the ocean steamer tracks with wireless communication will be realized as the principal practical results of the conference.

and professional men, paupers and millonaires.

During the year which ended June 30, last, 452 persons were convicted and sentenced, and 571 cases are awaiting final disposition. Postmaster General Hitchcock's order to inspectors to collect evidence that would warrant criminal prosecution or the swindlers gradually is building a wall of protection against such frauds around the American people. Before that the punishment was only a fraud order forbidding the delivery of mail to such operators.

The report says that these fraud manipulators, who usually exploit bogus mines, fake remedies and worthless lands, constitute a distinct class of lawbreakers. Among the wealthy offenders who have been caught by the inspectors are criminals who have posed as respectable citizens, leaders in their communities and personages in the highest social and business fields. Some of them are millionaires enriched by their plunder. Some of these men are now serving prison sentences.

LITTLETON AGAINST THE MAJORITY REPORT

WASHINGTON, July 21.—When Democratic members of the Stanley steel trust
investigating committee meet tomorrow
to resume consideration of the majority
report of their inquiry, Representative
Littleton of New York will oppose that
part of the findings which recommends
that upon defendant corporations be left
the burden of proof that their operations
are not in "unreasonable" restraint of
trade.

This is a feature of suggested amendments to the Sherman law incorporated
in bills for remedial trust legislation accompanying the report written by Chairman Stanley. Mr. Littleton has prepared
a substitute which he will submit to the
committee and a fight among the Democratic members may be precipitated.

WASHINGTON, July 21.—One hundred and twenty million dollars was filched from the American people during the last fiscal year by swindlers who operated largely through the mails, according to a statement just made in a formal report to Postmaster General Hitchcock. This was an increase of approximately \$50.—000,000 in the aggregate of the previous year.

Of those who are alleged to have operated the fraudulent schemes, 1063 were arrested by postoffice inspectors.

They included persons in all walks of life, merchants and mechanics, politicians and professional men, paupers and millionaires.

During the year which ended June 20, last, 452 persons were convicted and sentenced, and 571 cases are awaiting final disposition.
