

A War Savings Stamp Pledge Card Was Delivered to Your Home for YOU by One of My Postmen

YOUR PATRIOTIC DUTY

is to fill in that card AT ONCE and pledge yourself to the limit in the matter of War Savings Stamps purchases—provided YOUR LIMIT does not extend beyond the one thousand dollar limit determined upon by the Government as the limit to which any individual can invest in this most desirable form of security.

—Then mail it immediately to D. J. CALLAHAN, Metropolitan Bank Building, and by this patriotic performance do YOUR PART toward lightening the work of the W. S. S. Committee, who are trying so hard to give to the City of Washington a 100 per cent report for the old District on

National W. S. S. Pledge Day Friday, June 28, 1918

and make good the hope of our President as expressed in the last sentence of his Memorial Day appeal to the American people—

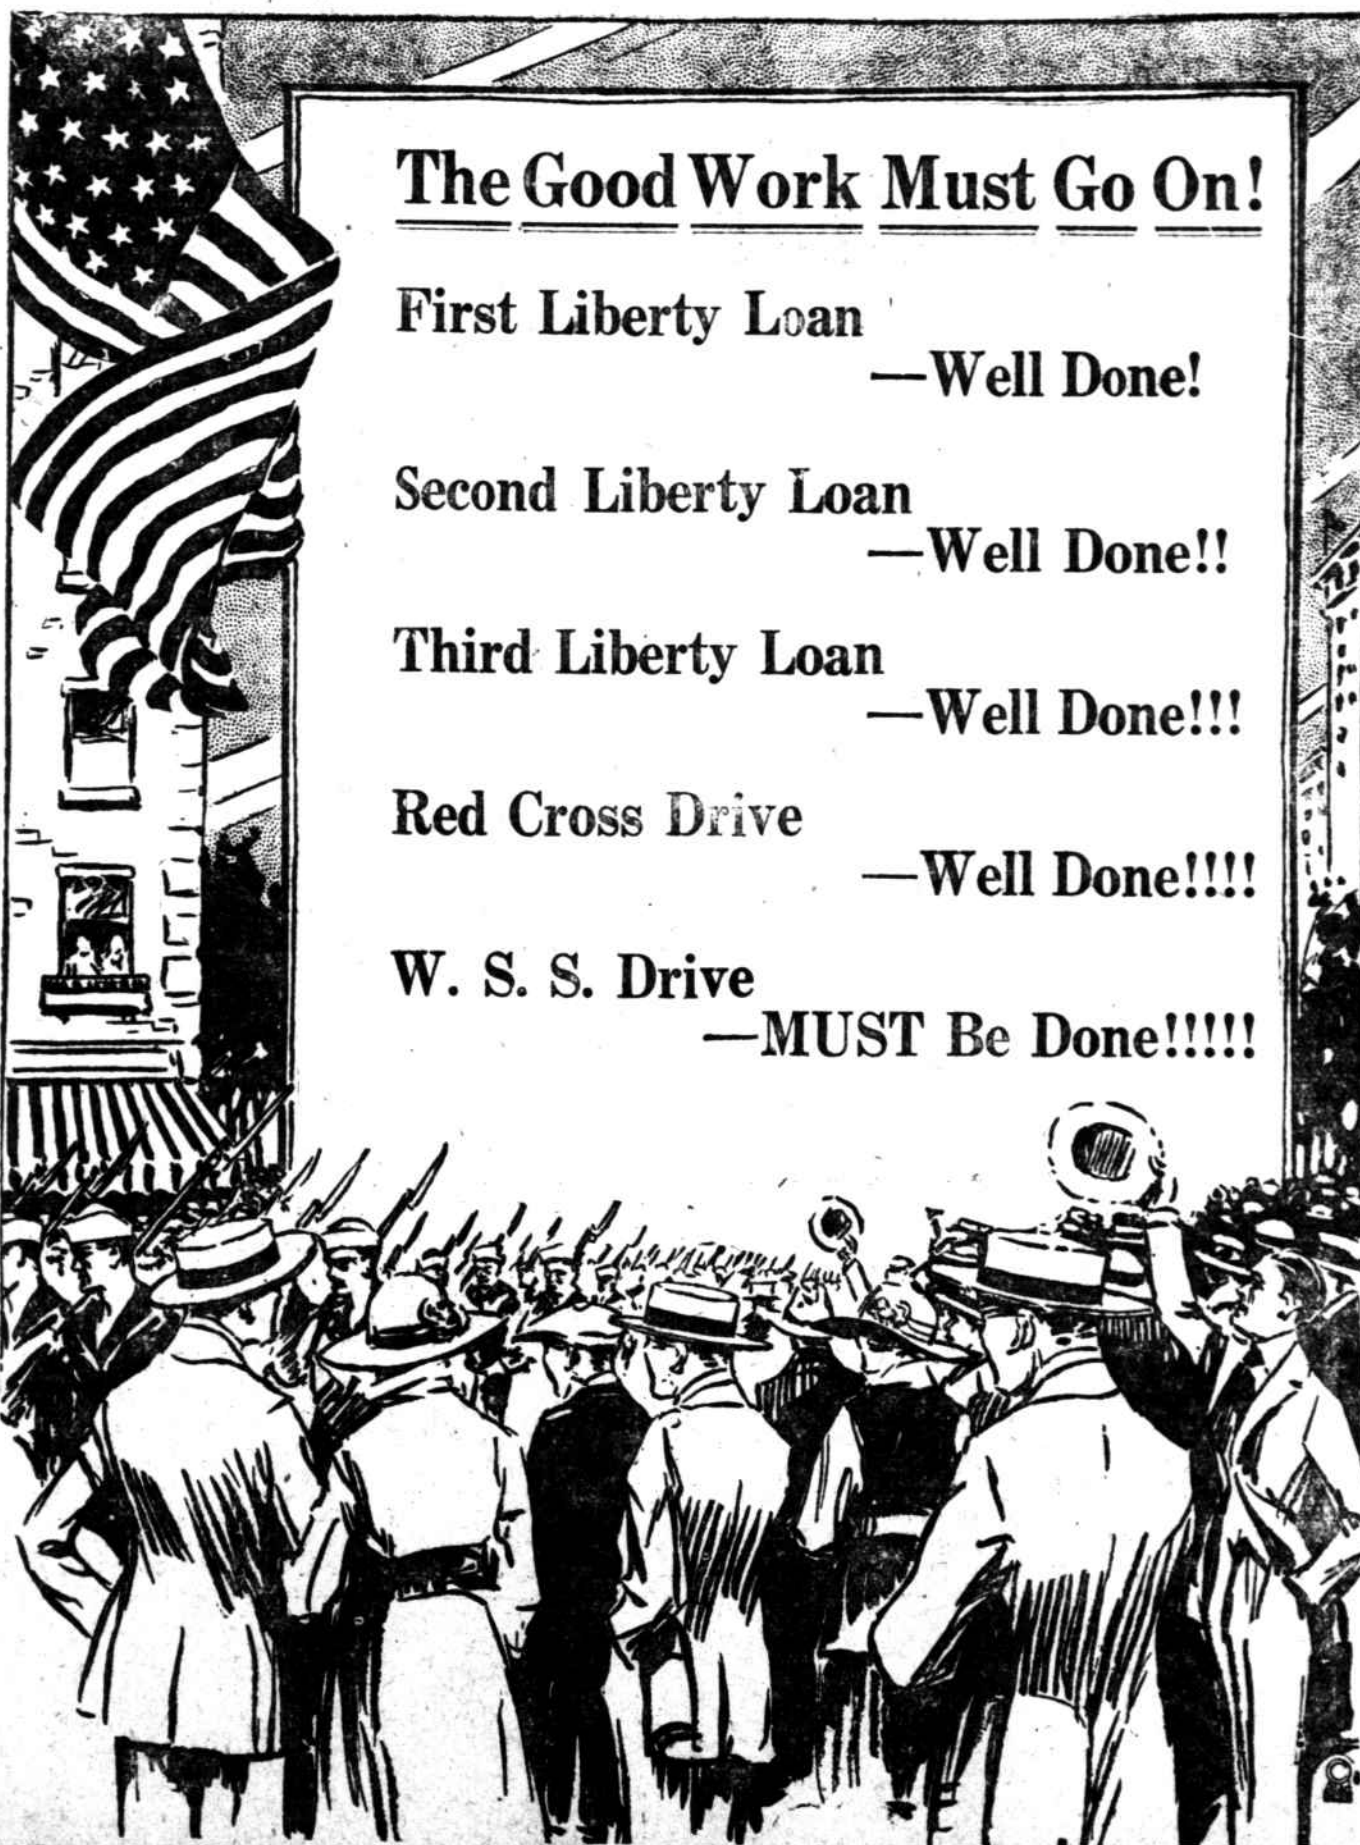

*“May there be none
unenlisted on that day”*

Do Your Duty

This nation is at a time when we would not tolerate for an instant any neglect of duty on the part of those carrying on the active prosecution of the war.

We who stay at home should put the same rule upon ourselves with which we measure the action of those who have staked everything—even to life itself—on the winning of the war. There is as great an opportunity to be a “good soldier” at home as on the firing line. And the first demand of a good soldier at the front is to cheerfully perform the duties imposed upon him and to obey the instructions of those in command.

Those in command of the War Savings Stamp drive for the District of Columbia are determined to do everything in their power to make good the President's hope, at least as far as this community is concerned, as expressed in the last line of his message to the American people naming Friday, June 28, as National W. S. S. Pledge Day—“May there be none unenlisted on that day.” As soon as your pledge card is received, fill it out and mail according to the printed instructions—and pledge yourself to the limit of your financial ability up to one thousand dollars.

The Good Work Must Go On!

First Liberty Loan

—Well Done!

Second Liberty Loan

—Well Done!!

Third Liberty Loan

—Well Done!!!

Red Cross Drive

—Well Done!!!!

W. S. S. Drive

—MUST Be Done!!!!

The Importance of W. S. S.

War Savings Stamps are to financing of the war what submarine chasers and other small war craft are to the United States Navy. They are a part of our scheme of national finance and must not be overlooked by every financially responsible citizen any more than Secretary of the Navy Daniels would think of overlooking the comparatively small boats that go to make up an efficient navy.

The more Liberty Bonds that you hold, the greater your evident ability to purchase War Savings Stamps up to the one thousand dollar limit set by the Government.

War Savings Stamps are guaranteed by the United States Government and pay compound interest at the high rate of 4 per cent. They are free from taxes, and here is the way in which they grow in value:

	Cost in June	And Are Worth on Jan. 1, 1923
1 Stamp	\$4.17	\$5.00
20 Stamps	83.40	100.00
50 Stamps	208.50	250.00
100 Stamps	417.00	500.00
200 Stamps	834.00	1,000.00

They are better than cash in hand, they pay you 4 per cent interest—and in any case of emergency you can have them cashed for what you paid, plus the interest earned by simply giving ten days' notice to any Money Order Postmaster in the United States.
