STOCKS STRONG; RESERVES HIGH

Profit Taking Fails to Lower Tone of the Market.

By BROADAN WALL.

New York, Nov. 9.—The actual bank statement today showed surplus reserves increased $13,160,820; loans increased $21,828,000 and net demand deposits increased $74,352,000. The average statement showed surplus increased $5,672,110; loans decreased $16,628,000 and net demand deposits increased $48,384,000.

Stocks were strong throughout the session despite considerable profit-taking that became apparent in high-priced issue such as Southern Pacific and Mexican Petroleum. There was a tendency toward stocks selling for a smaller number of dollars per share, the idea of traders being to avoid increasing bank loans. Tobacco stocks were all strong with the exception of American Sumatra, which was weak on the unconfirmed rumor that there had been a change of control. American Can began to show vitality. Pittsburgh and West Virginia is apparently accumulated by someone who is trying to avoid attracting attention to the stock.

One strong feature of the market today was the cash buying of investors in stocks that pay dividends and in bonds. In several investment houses the clerks were kept busy until midnight Friday finishing up the day's business, and yesterday morning found another large volume of buying orders ready for the market. These investors are attracted by the recent advances in high grade bonds, many of which have gone up as much as ten and fifteen points.

Big Interests Buy Studebaker.

The Du Pont interests, the Durants and the Standard Oil people are understood to have bought into the Studebaker company while it was at panic prices. Close working agreements between that company and General Motors might therefore be expected, and particularly in the direction of farm tractors.

Earnings of $2.74 a share by the Pierce Arrow, after paying taxes for the September quarter, has encouraged buying of that stock.

Careful investigation fails to find anything more behind the rise in Southern Pacific than very strong pool operations. Those are based on the possibility of big profits to come from the oil properties of the company.

CHICAGO GRAIN.

By JOSEPH F. PRITCHARD.

Chicago, Nov. 9.—The trade in grain showed a strong disposition to remain close to the speculative shore today. This action on the part of the speculative world was scene of trade awaiting the acceptance or rejection of the signing of the armistice by Germany. The November corn was under more or less pressure, and transactions were from $124 down to $121, with sellers at the lowest price at the close. The deferred futures fared only a little better than the November as they showed losses ranging from 1⅝c to 2¾c.

There were declines of ⅝ to 1⅜ in oats largely in sympathy with the break in corn. The cash market was unchanged relative to futures.

HAY—Quiet; receipts increasing.

FLOUR—Dull; unchanged.

COTTON MARKETS.

New York, Nov. 9.—Covering of short lines that had been put out following expression of opinions recently that the end of the war would have a bearish effect on prices, caused a firmer tone in the cotton market here today. Profit taking led to reactions at times, but the tendency in the final dealings was upward. There were reports of floods in Texas, but it was felt in most quarters that the Lone Star State cannot get too much rain at this season.

Receipts at the port for the day were about 25,000 bales, against 24,812 a year ago.

Spot here was quiet at an advance of 30 points at 31.15; no sales. Spot at New Orleans was unchanged at 30.38 with sales of 786 bales.

Receipts at New Orleans were 9,163; Savannah, 3,189; Augusta, 2,756 bales.

BALTIMORE PRODUCE.

Baltimore, Md., Nov. 9.—Prices on the local produce market today ranged as follows:
