SILAS BURNS, PROPRIETOR, BUILDER OF STEAM ENGINES AND GENERAL MACHINIST. The improved condition of the Raleigh and Gaston Rail Road will enable me to fill with dispatch and punctuality all orders after the 1st of

work executed at the above Works:
"AUBRY, Cumberland, May 15, 1852. "Mr. Silas Burns—Dear Sir: Our Engine and Mills, made at your shops, have been at work nearly two months, and fully meet our expectations. The Engine, as to finish and fully meet our expectations. The Engine, as to finish and strength, performance and durability, is inferior to none in the State of the same class made here or elsewhere. The Mills run with a smoothness and speed truly astonishing. In ordinary sawing we cut in a common sized log, 1 foot, in 354 seconds or 16 feet per minute. We have run, however, through an 18 feet log in 32 seconds or at the rate of 33 feet per minute, by running to the top speed we fully believe we can cut 40 feet per minute. The only objection we have heard urged is, it takes too many hands to haul up logs and carry away lumber. Yours, &c.,
