

EVENING STAR.

The office of the "Daily Evening Star" is on the south side of D street, two doors west of 12th street.

LOCAL AFFAIRS.

The Jury.—"The long agony is over" so far as the jury in the Gardiner case was concerned. Judge Crawford, after careful consideration, and hearing the opinions of the council for and against the defendant, came to the conclusion this morning to discharge the jury.

Mr. Henshaw, deputy marshal, conducted the gentlemen into the Court room, where they were asked if they had made up a verdict. The foreman replied that they had not, and were not likely to do so if they remained till Christmas. Judge Crawford made some very appropriate remarks to them concerning their privations, expressed his regret that they had remained shut up so long, and discharged them.

We understood one of the Jurors to say that they stood nine for acquittal and three for conviction.

Penitentiary.—In the United States prison in this city, there are confined at hard labor, ninety-two convicts, sent there for committing various offences, viz:—Burglary, 1; larceny, 62; receiving stolen goods, 3; perjury, 3; counterfeiting, 1; assault with intent to kill, 6; forgery, 3; manslaughter, 2; bigamy, 1; murder, 1; for life; fraud on government, 1; mail robbery, 4; arson, 1; attempting to pass forged notes 4. Of these, ten are women, and over one-third colored.

Good health seems to prevail in this prison, which may be accounted for by the attention which is paid to the cleanliness of the prisoners, the supply of pure water, and the labor the prisoners perform.

The officers are as follows: Warden, salary \$1,500; Clerk, \$1,000; two assistant Keepers, \$750 each; one Guard at \$650, and three at \$550 each; Messenger \$350; Physician, \$500; Chaplain, \$250; three Inspectors, at \$100 each.

A Messenger in one of the departments of the Government, with a salary of \$750, remains in his office about thirty-six hours in a week; the assistant in the prison, with the same salary, is on duty every day and nearly half the nights, sabbaths included, during the year. There is a big difference in duty, but none in pay!

Improving.—Our city is improving rapidly. All those portions once considered waste and useless; and where the sham or "five dollar lots" were located, are now being made as valuable as any other parts of the city. It is now a very difficult matter for a person to obtain a "five dollar lot" to make himself eligible to a seat in the Common Council. Such lots have entirely disappeared; and it is very unlikely that a valuable lot will be "made over" for such a purpose.

We once heard of a gentleman who made over a lot for this purpose and had great difficulty in getting possession again.

City property has improved to such a degree that there is no great danger of any one running the risk; and if such a case should occur, the real owner deserves to lose his property.

We understand this morning that the Chubb Brothers had determined that Mr. Perkins should lose nothing by the burning of his house night before last. Mr. Perkins has been the runner for their banking house for a considerable length of time, and the report being in unison with the character of those benevolent gentlemen, we believe it correct.

DEMOCRATIC CITY CONVENTION.—The Democratic City Convention will meet this evening, at 8 o'clock, in the Common Council Chamber in the City Hall.

Police Report.—Constantine Edwards, assault and battery; security to keep the peace. George Edwards, assault and battery; security to keep the peace. Ann Bronson, breach of the peace; gave security. Wm. Long, assault and battery; security to keep the peace. Wm. Jones, drunken and disorderly; security and paid cost. Elizabeth Hamilton, vagrant; workhouse 30 days. Thos. Russell, profanity; workhouse 30 days.

The penny subscriptions in England, to be placed in the hands of Mrs. Stowe, already amounts to \$6,000.

The report of cholera having appeared in Alexandria is unfounded.

Several severe cases of cholera morbus have occurred at Wheeling within a few days from eating rhubarb pies.

The Fly, it is said, has appeared in the wheat in Washington county, Md., and is playing sad havoc with whole fields.

The members of the Printers' Union have expelled one of their body for keeping a rat terrier.

The National Industrial Congress meets in Wilmington, Delaware on the 2d of June.

The Secretary of the Treasury, it is said, has accepted Curtis, Percy & Ward's bid for the new mint in California. It is to be finished for \$239,000, in nine months. Nothing to be paid till the building is completed.

[For the Daily Evening Star.]

GEORGETOWN, May 25, 1853.

Mr. Editor: Many thanks for your little "Evening Star" which has been a pleasant visitor, especially these last dark gloomy evenings. We welcome the "Sun" in the morning and the "Star" to throw its light on us when the evening has come.

Give us, if you please, all the information you can obtain as regards the Jury now sitting upon the Gardiner case. It has truly been a trial to more than Dr. Gardiner. For weeks have gentlemen been kept from their business at, we know, to some, very serious losses. The pitiful compensation they receive by no means repaying their loss of time at their respective places of business. Men with families are kept there, and have been for nearly a week, and under circumstances of great anxiety. We know of one gentleman who was obliged to leave home an ill child, and that interesting little girl even now only able to sit up in her bed supported with pillows. This may be only one of other instances. And why, we would ask, in this free country are men to be locked up for days, to force them, if possible, to agree upon a verdict, which they inform the court they cannot do. If your "Star" can give us any light upon the subject, you will oblige

A CONSTANT READER.

[For the Evening Star.]

Proscription of an Irish Democrat.

Mr. Editor: One of the most respectable and enterprising citizens of our city, Gregory Ennis, Esq., was nominated by the Mayor of Washington, a week since, for Canal Commissioner. The Board of Aldermen, who had to confirm or reject it, decided the case in the negative, on Tuesday evening last. This decision has taken nearly all of our citizens by surprise, inasmuch as there could have been no possible show of objection to Mr. Ennis, unless upon the ground that he is an *Irishman by birth*. That there is but too much of this *anti-republican and anti-social* virus of a pseudo-American party in active operation in this community, requires no other proof than what may be seen in the usual conduct of many member of the Board, whose names are registered on "Native American" petitions before Congress, for the purpose of depriving adopted citizens of their rights, guaranteed to them by the Federal Constitution. If such men are to be entrusted with the confidence of either the federal or municipal authorities, it is time for the Irish adopted citizens, not only of Washington, but of the United States, to know who the men may be, who shall be, from henceforth, candidates for public favor. Heretofore we have not cared whether a man was a whig, a democrat, a native, or an adopted citizen, if he was capable and honest when a candidate for office; but let us have no factious or anti-American interpolation in the charter of our liberties by men of the class alluded to, merely because God has chosen to create us *Irishmen* rather than *Hindoos* or *Pottowatomies*.

RICH MUSIC.—The N. Y. Tribune thus refers to the music of the Chinese performers now in that city:

"The singing and playing were like a compound of distressed cats, and an old pump handle, ungreased cart wheels, a poker on a tin kitchen, and the spiritual rappers in communion with the infernal regions."

The will of the late James Taylor, of Newport, Kentucky, covers 21½ pages of royal octavo. The fee for recording it amounts to \$21 80. It relates to property valued at \$4,000,000, and gives freedom and property to more than twenty human beings, and their posterity.

Strawberries are selling in this city at fifteen cents per quart.

TO THE PUBLIC.

Garner's Vegetable Pain Extractor.

HAVING, for the last fifteen years, been engaged in examining the medical properties of the various plants of the vegetable kingdom, in order to ascertain that if by a proper and proportionate combination and blending of several kinds into one harmonious whole, a liquid medicine could not be obtained that could be used internally and externally without injury to the human system, and that would relieve poor, suffering humanity of some of the diseases that flesh is heir to, I flatter myself that I have produced such a medicine, which I call **GARNER'S VEGETABLE PAIN EXTRACTOR**, that, for its efficacy in removing pain and disease from the human body, stands unrivalled in the history of medicine. This is no idle boast, as I first tried its virtues in my own family and then administered it to my friends and acquaintances until several hundreds have used it, and who are as much astonished and delighted as myself at the almost miraculous cures it has produced.

Satisfied of its wonderful powers, and at the earnest solicitation of my friends, I have determined to spread it broad-cast throughout the world, and for this purpose I have appointed Mr. G. L. GILCHRIST, of the city of Washington, D. C., my General Agent, who is prepared to supply Agents with any quantity of this valuable medicine. To him all letters and orders must be addressed, (post-paid,) which will meet with prompt attention. may 26—tf GEORGE W. GARNER.

CHILLS AND FEVERS.

IT is seldom we see a radical cure in fever and ague, under the common treatment of quinine, arsenic, and patent medicines so highly extolled by physicians. There are objections to the general use of quinine, as some has been found to contain arsenic, and the use of it has been followed by swelling of the face, spleen, liver, &c. Another objection is, the disease is very liable to recur, upon slight exposure or fatigue. The patient will find a permanent cure, or the money refunded, at the German Medical Office of Doctors BROTHERS & GRAY, opposite the Smithsonian Institution, Island. may 21—eo2w*

Dr. J. S. ROSE'S GOLDEN PILLS.

For Diseases of the Womb and Female Weakness. Also, for Weakness of the Back, Spine, Loins, &c., they have no equal.

THIS DISEASE, heretofore treated by bandages, trusses, and internal supports which can only prove palliatives, yields completely to the use of these tonic, strengthening Golden Pills. They have a peculiar affinity for the debilitated muscles of the Female, and in no instance have they failed in radically curing those distressing complaints females are so often subject to; they brace the whole system, giving strength and vivacity to the frame at large.

Twenty-seven years experience in the use of these Pills in my practice has been the means of dispensing with more bandages, abdominal supports, pessaries, and golden balls, than many individuals now manufacture. Females of the present age are as perfectly formed as mother Eve, or those mothers of antiquity, and require no external support. The muscles of the body, kept in due tone by remedies of this character, are a sufficient support, and all that nature ever intended.

These Pills have been pronounced by the thousands, (amongst whom was the wife of a distinguished Senator from Louisiana, and the widow of an ex-Governor of Delaware,) who have used them, as superior to anything hitherto known. J. S. ROSE, M. D.
