LONDON, May 18.—The jury in the case of Cunningham and Burton, charged with causing the explosions at the Tower of London and against the black and red flags of anarchists and LONDON, May 18 .- The jury in the case of elsewhere, returned a verdict this morning find-ing both the prisoners guilty. They were sen-tenced to penal servitude for life. Cunningham maintained his self composure, but Burton broke down and sobbed when the verdict was rendered. When the prisoners were asked i they had anything to say why the sentence of the law should not be passed upon them, Cunningham protested that he was innocent. He said he was willing to accept penal servitude for life, but they could not touch his soul. Burton simply declared that he was innocent

MINISTER PRELPS PRESENT. the notabilities present were the lord mayor and United States Minister Pheips. There were many ladies in the room. The prisoners were an anxious look, and followed Judge Hawkins' charge with intensest interest. The drut of the charge was clearly against the prisoners. The judge began by explaining the nature of the charge, and expounded the law on the subject. He then analyzed the evidence, calling the jury's attention to the fact that Burton's statement was not made under oath, and therefore entitled to very little credence. If there was any truth in the statement, said the judge, it | in the straits of the Dardanelles, was astounding that no witness was called to support it. The judge drew attention likewise to the fact that Cunningham and Burton had frequently been seen together, and dwelt upon their connection with the trunk, what they had told their landladies concerning it, and the unsatisfactory explanation Cunningham had since given of his relations thereto. The jury then retired. They remained out not longer than fifteen minutes. The announcement of the sen-
