THE NEW PUBLIC PRINTER'S LABOR

The Charge That He is an Enemy to Labor Denied by Chief Clerk Benedict. A dispatch from Syracuse, New York, in a morning paper states that at the coming convention in that city of the political branch of the state workingmen's trades assembly, the appointment of Mr. Benedict, the deputy state controller as public printer, will be canvassed. It is predicted by the same authority that the be Agent or the Indians—Chas. H. Yates, of Light Cal. of the Round Valley agency in Callillery school has recently made the following is predicted by the same authority that the additions to their list of publications: "Notes on the Distribution of Iron Ores in the United confirmation of Mr. Benedict on the ground tornia. To be Recorder of the General Land States," by Lieut. A. W. Vogdes, 5th artillery; that his record in the New York assembly from "An Historical Account of the Development of 1880 until 1883 shows that he is an enemy of INTERIOR DEPARTMENT CHANGE 1880 until 1883 shows that he is an enemy of organized labor. In proof of this it is maintained that the record shows that Mr. Benedict has always voted for perpetuation of the convict labor system in the prisons of the state; that he voted in 1883 against the proposition to submit the question to the people, and in the same year voted against the bill to establish a state printing office, a similar establishment to the one in this city, though on a smaller scale. An effort will also be made, it is stated, in this dispatch to prove that Mr. Benedict is not a

practical printer and to oppose his confirmation on that ground. Mr. Benedict is not in the city at present, as he will not assume the duties of his new office tention of his brother, who was recently appointed chief clerk of the Government Printing Office, was called this morning by a STAR reporter to the statements above referred to. Mr. Benedict at once said that he could not speak for his brother, and preferred that such matters should be referred to him. He, however, gianced over the newspaper cutting, and re-"It seems to me that this whole thing is en-

while in the assembly, but in general I can say labor organizations, and in favor of doing what he could to advance their interests. As far as the specific bills referred to are concerned I know that my brother's action would be determined by what in his judgment he thought were the merits in each case. SUNDAY SCENES IN CHARLESTON. As tew of the courches in Charleston are considered sale, religious services were held yesterday in the open air. The singing from the disferent assemblages filled the whole city, and the addresses of the clergymen, who made the earthquake their theme, were given a terrible force and impressiveness by the wrecked buildings on all hands. A number of men and women gave their "experiences" after the general sermons. A greater revival was probably never witnessed than the one in Washington square. At 4 o clock there was a general mass meeting at the corner of Broad and East Bay streets, near the city post office. Thousands of people attended and eloquent sermons were preached by volunteer ministers. The people of Charleston must have prompt aid to lide them over A party of scientists, headed by Professors Menueuhall and McGee, returned to Charleston last night from an exploring trip north of the city. They visited Ten Mile Hills, Summerville and Lincoln. At Summerville they leit nine distinct shocks, and say the people are terrified and leaving that section of the country. Some strange freaks of the earthquake were found and photographed. Most of the three hundred houses at Summerville are wooden buildings, geysers were found, some ten feet in diameter,

Exchange and Merchants' Exchange have telegraphed the following to President Cleveland: "Several days have elapsed since the first | not fallen in those counties for 14 months; that terrible shock of earthquake conversed Charles- a majority of the settlers have left, and that ton, and now that comparative calinness exists, we are able to look around us for the extent of destruction to property in this city and vicinity, and we find that each hour develops the greatness of the calamity and the immensity of our losses. No conception can be formed of the extent of damage, and we stand appalled at it. give, it can only relieve temporary suffering. A city has been wrecked and its people are without means to rebuild it. We conceive it head of the nation, to the end that, if possible, steps may be taken to afford prompt national
