This was the last day of school for the public school pupils. To-day the school buildings were vocal with the songs of children, and redolent with the perfume of flowers. The boys and girls wore their best clothes. Parents and friends sat in rows along the walls or on the platforms, and the school trustee assumed his blandest, most paternal smile. The prospective joys of vacation time formed the theme of many of the little songs sung or rhymes recited in the lower grade schools. SOUR BREAD.

The sour or alkaline taste attending the use of cheap, low-grade baking powders is due to the fact that such powders are not properly combined, and that the ingredients used in them are impure. The cream of tartar of the market used by their manufacturers is adulterated from five to twenty per cent. Their manufacturers do not know how much lime it contains, and hence are unable to mix it with the soda in proper proportions. As high as 11.85 per cent. of lime has been found by the chemists in some of these powders, due to these causes. The result is an imperfect action which renders the bread, biscuit, or pastry heavy, sour and unpalatable, or a residuum of lime and alum, imparting a bitter or soapy taste to the food. Any baking powder that does this is unfit for use.

There can be no heavy or sour bread, biscuit or cake where a perfectly made, pure baking powder, like the "Royal," is used. In the use of the "Royal" neither alkaline nor acid residuum is left, and the loaf raised by it is always sweet, light and wholesome, and noticeably free from the peculiar tastes complained of. This is because it is composed of nothing but absolutely pure materials scientifically combined in exactly the proper proportions to neutralize each other while producing the largest amount of leavening gas. The Government Chemists, after thorough and exhaustive tests, recommended the "Royal" for Government use because of its superiority over all others in purity, strength, and wholesomeness. There is no danger of sour or bitter bread or biscuit where the Royal Baking Powder alone is used.
