NO TEACHERS APPOINTED. The School Board Still in a Quandary Gver the Appropriation.

CONGRESS TO BE ASKED TO REMOVE RESTRICTIONS-THE MEETING OF THE TRUSTERS LAST NIGHT-AN OFFICIAL COLLISION WITH THE BUILDING IN-

The school board when it met last night found itself in as much a quandary as ever regarding the appointment of teachers for the ensuing year. Several hundred "school marms" and schoolmasters, some of whom are now abroad, have been waiting anxiously for the action of the board. When the board met last night, Mr. Darlington, from the High School committee, submitted the from the High School committee, submitted the list of nominations for the teacherships in the High School. He said the nominations embraced all the old corps of teachers, who had not resigned, and two additional ones, Miss Breckinridge and Mr. Daish. Dr. Lane is nominated as principal. There are four vacancies yet to be filled.

Mr. Fish said he was ready to make the nominations of teachers for his division. After some discussion, as Mr. Ross stated that they would be unable to adjust salaries then so as to comply with

Mr. Fish said he was ready to make the nominations of teachers for his division. After some discussion, as Mr. Ross stated that they would be unable to adjust salaries then so as to comply with the requirements of the law, it was decided not to submit nominations at that meeting. Mr. Darlington thereupon withdrew the High School nominations. Trustees made statements, however, showing that all the old teachers would be renominated. There is some question yet as to the appointment of new teachers, and the assignment of Normal School graduates.

Mr. Whelpley had the secretary read the letter of the First Controller, made in response to a letter from him, and which was published in yesterday's STAR.

Mr. Fish said that that meant that they had Mr. Fish said that the order of his and Serrors, and Pittsburg 10 hits and 3 errors, and Mr

These two buildings contained twenty schools, and a thousand children whose lives and limbs would be jeopardized. He spoke also of the objection of curtailing the play-grounds of the schools. He offered a resolution protesting against the location of the

resolution protesting against the location of the engine-house on that square.

Mr. Whelpley remarked that there was other property in that part of the city just as available for the purposes of an engine house. He called attention also to the ordinance of the city council of August 20, 1862, imposing a tax of 5 cents on every \$100 of real estate to be set apart and applied excassively to building public school houses. Seven thousand dollars of the sum thus realized, he said, was used to purchase the Wallach school house site. He thought if the commissioners' attention was called to that law providing for the application of this money exclusively to school purposes they would reconsider their action. Mr. Ross said he heartly seconded the resolution and said the noise that would necessarily accompany the operanoise that would necessarily accompany the opera-tion of a fire engine company rendered the erection of an engine house in such a place extremely undesirable.

Mr. Darlington offered an amendment to Mr. Whelpley resolution setting forth the provisions of the ordinance of 1862, and declaring that the ground in question, so purchased, is neither legally nor morally subject to diversion to any other than public school purposes."
This amendment was accepted by Mr. Whelpley, and the resolution was then a copted.

A COLLISION WITH THE BUILDING INSPECTOR. Mr. Ross stated that some time ago the Commissioners had referred to the board a request by a citizen for permiss on to put into a school building at his own expense a device for heating and ventilating as an experiment. The board had authorated the control of Mr. Ross stated that some time ago the Commisturned in from box 214 for fire in the grocery store of Mr. A. S. Clarke, corner of 7th and Boundary streets. A box of matches fell from one of the shelves and ignited, but no damage was done.

Now, Mr. Ross said, the building inspector had interfered. He moved the appointment of a special committee to confer with the Commissioners and find out whether the action of the building inspector had interfered. He held that these shells and other boats were included in the word "crait," and defined the duties of the harbormaster, and held that ine pleasure boats of the Potomac Boat Caub were not included in the word "crait," mentioned in the faw. The judge said that their right of egress and ingress to their place cound not be disputed, but the case brought under this law failed. Their remedy is in the civil courts. The Statesmen Annihilate the Phillies-Other Ball Games Yesterday.

The Washingtons trounced the Philadelphia Club handsomely yesterday, the score being 14 to 5. O'Day and Mack and Buffinton, Hallman and Clements were the batteries. Washington fielded as loosely as Philadelphia, but batted so hard that the game was won in two innings. None of the Phillies' runs, and but five of the Washington's were earned. The Phillies could do nothing with O'Day, while the Senators solved Buffinton in the first inning, and did not give him a chance t straighten. O'Brien led the batting for both sides with a single, a double, and a triple. Capt. Willis L. Case, of the schooner J. R. Smith, for whose arrest a warrant was issued on the oath of Harbormaster Sutton, charging the captain with violating the harbor regulations, as published in Saturday's STAR, appeared in the Police Court this morning with his counsei, Mr. J. J. Darlington. This is the first case brought under this law, which was enacted in 1864. The de-lendant was charged with obstructing the entrance to the Potomac boat-house, so as to pre-vent the passage of the boats, and refusing to move when ordered to do so. Harbornaster Sutton and members of the boat-club testified as to the position of the schooner and to the refusal of the captain to move her, ne defendant admitted the facts. Note-The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

\* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, we to be avoided as dangerous.
