BON MARCHE. BON MARCHE.

WAIST WEATHER!

What could be more appropriate than the sale of High-grade White Shirts, this high-degree weather? The history of the Perfect Waist of Shirts was once damaged by FIRE.

We bought ten thousand dollars' worth of White Shirts at once—quarter the original price—today a few have been damp, but can be restored to their original freshness with a slight application of ink—everywhere. The original edition is now ready to wear. We are selling them at one-quarter their value. You'll find a wide selection to choose from, from the plainest white to the most elaborate design. They all come from the same source and are of the highest quality.
