STRIKE DECLARED OFF

Compromise Follows Day of Fierce Rioting.

CHICAGO IS RELIEVED

PARTIAL VICTORY FOR PACKING HOUSE TEAMSTERS.

Representatives of Both Sides, in Session All Night, Finally Reach Agreement.

CHICAGO, June 5.-The packing house teamsters' strike, which has disturbed the peace of the city for nearly two weeks, and which vesterday caused the most serious rioting that has occurred since the American Railway Union strike of 1894, came to an end at 4:15 o'clock this morning as the result of a secret conference between representatives of the packers and the teamsters at the Grand Pacific Hotel, which had been in session since 8 o'clock last night. The agreement reached at the conference

is a partial victory for the teamsters, in that the packers have declared that they will not discriminate against members of the union.

The scale agreed upon is 2 cents lower than that demanded by the men. It is as

Cart drivers, 18 cents an hour; single wagon, 20 cents; two-horse, 22½ cents; four-horse, 27½ cents; six-horse, 30 cents. The men are to be paid full time from the time of leaving the barn until they return, with a deduction of half an hour for lunch. They will not be required to work on Labor day.

The document as drawn up is as follows: At a conference held at the Grand Pacific Hotel on the night of June 4, 1902, between representatives of the Chicago packers and their packing house teamsters, held at the suggestion of Carter H. Harrison, mayor, and the state board of arbitration, it was agreed, after due deliberation, to recom-mend to the two parties to the controversy now existing between the said teamsters and the said packers;

Compromise of Differences.

That a compromise of the said differences be effected by making the following suggestions for a compromise 1. There shall be no discrimination against

union teamsters. 2. The scale of wages for teamsters shall be fair.

3. No teamsters shall be compelled to work on Labor day.
4. Any teamster receiving more than the scale of wages stated shall not suffer a reduction of wages after this agreement goes

into effect. The above and foregoing provisions were agreed upon at said meeting The following persons represented the respective interests:

BUT COMMONS VOTED £50,000 TO RECOMMENDATIONS OF FIRE DE-LORD KITCHENER.

Dillon Led the Fight Against It and Introduction of Water Supply Pipes, the House Refused to Listen to Redmond.

LONDON, June 5 .- The house of commons has voted the grant of £50,000 to Lord Kitchener. As a remarkable coincidence,

parliament June 5, three years ago, voted its thanks and £30,000 to the same general for his services in Egypt. Mr. Balfour, in supporting the motion, referred to Lord Kitchener's rapid premotion. The liberal leader, Sir Henry Campbell-Bannerman, who seconded the motion, paid

a warm tribute to Lord Kitchener as a sollier and statesman. Dillon Led Opposition.

John Dillon, Irish nationalist, led the opposition in behalf of the nationalists. Mr. Dillon said he and his friends absolutely objected to the vote, because they were opposed to the policy of the war in South Africa and the conduct of the campaign, which involved wholesale devastation of the country, the burning of farms and sacrifice

William Redmond, Irish nationalist caused a scene of great disorder by remarking that Lord Kitchener would go down to history as a general who had "made war on women and children." This remark called forth loud cries of and appeals to the chairman

hearing the closure was moved. The closure was adopted by 273 to 138 votes, and the grant of £50,000 to Lord Kitchener was carried by 380 to 44 votes. The minority consisted of Irish nationalists and two or three radicals.

Mr. Redmond said he desired to repeat that Lord Kitchener was responsible for the death of 15,000 children, and that he had warred on women and children. That was his absolute conviction and he refused to withdraw the words. The country was living in an atmosphere of hypocrisy. When a man spoke the truth he was gagged. Mr. Redmond's remarks were almost unnearable, owing to the uproar caused by the cheers of the Irish nationalists and the protests of the members of other parties. The chairman replied to Mr. Redmond's appeal for a fair hearing that it was impossible to control the house, to which his speech appeared distasteful.

Frederick county.
In part the resolutions say: "We are justy proud of the fact that our representative, Geo. A. Pearre, has been a prominent factor in bringing about and maintaining day he was chosen to represent the third district in place of Representative James rank in the halls of Congress on account of his ability, intelligence and general conception of the needs not only of our congresvices, fidelity to duty and general efficiency, and earnestly recommend his renomination by acclamation and call upon all lovers of good government, irrespective of party, to rally to his support in the coming cam-

symphony concerts at the capital, has drawn some of his musicians from the Ma-rine Band. These men are enlisted men and non-union. The resolution was not adopted by a vote, but it was decided to refer the motion to the different locals, with a request that they comply with its spirit.

the department in getting into service to a minimum in a great many instances. The

firemen when called upon would, instead of leading out long lines of hose through the

corridors and down and up the different stairways, subdue the fire with the stand-

pipe system and the different appliances

pump in case of fire.

"I also recommend that three fire alarm boxes be erected as follows: One in the Senate wing, one in the rotunda, and one in

the House wing, and that instantaneous fire alarm boxes be located in different parts of the building and connected to these

three boxes."

It is also recommended that a chemical

fire extinguisher be placed in each commit-tee room and the distribution of a number

of pick-axes and ceiling hooks. It is sug-gested that at least two experienced men be

appointed to look after the appliances and see that they are ready at all times for

immediate use and to perform the duties required of a fireman. The report con-

CUBAN RECIPROCITY.

Conference Between Representatives of

the Two Factions.

An extended conference was held this

afternoon on the Cuban reciprocity bill be-

tween the advocates of reciprocity with

tariff reduction and the opponents of that

plan who prefer a rebate. The beet sugar

faction was represented in the conference

by Senators Elkins, Burrows and Jones of

Nevada. The supporters of the admin-

istration plan were represented by Sena-

tors Platt of Connecticut, Spooner and Cul-

lom. No decision was reached, and further

The distinguishing feature of the meet

ing this afternoon was the spirit of cor-

mony. Wide differences of opinion were

revealed as existing between the advo-

relief to Cuba. There was pronounced dis-

taken to enable those present to attend the

He Assistant Chief Belt and Fire Marshal will not give the matter his attention until the committee appointed by the New York supply pipes, with numerous outlets, be run board of trade and transportation calls at the White House and presents him with ing with an abundance of hose. Provision resolutions adopted by that body asking him to take some action. The proposition of the board is that the President make a tender of arbitration or appoint a commission to investigate the situation. The committee is expected in Washington today or tomorrow. The suggestion is that the proposed commission should be something like that appointed by President Cleveland during the Pullman Car Company strike in Chicago, in 1884.

The impression prevails that the President will receive the resolutions and give them his attention, but that he will take no action. The promise of results from such an interference are too remote and the promise of trouble too near to warrant it unless conditions were much more serious than now

Urging a District Man.

Senator McComas strongly urged the President today to nominate a District man to fill the vacancy on the Supreme Court bench of the District caused by the death of Justice Bradley. Senator McComas gave many strong reasons why a local man ought to have the place. Mr. Mc-Comas urged Mr. Gould's name, but said that any good local man would satisfy him. The President gave no insight into his in-tentions, but Senator McComas is hopeful that a District man may yet be nominated. The President is not irrevocably committed to John G. Thompson for the judgeship and might find something to cause a change in his mind. The President is at least giving consideration to the arguments made to him by Senator McComas and others in favor of a District man.

President Receives Delegations.

The President today received a delegation of fifty members of the Brotherhood of Locomotive Engineers. They were introduced by Edwin C. Madden, third assistant postmaster general, who is a member of the organization. Prior to adjourning yesterday at Norfolk, where the engineers have been holding a convention, they adopted a resolution indorsing Mr. Madden's efforts to correct the alleged abuses of the second-class mail privilege and acquainted the President with the fact. They also elected Mr. Madden an honorary member of the grand convention. This honor has been conferred but twice before. Two hundred members and ladies of the Association of Surgeons of the Southern Rallway were received in the east room Another organization to be received was Company G of the 2d Regiment of the Con necticut National Guard. There were about seventy men in uniform.

Praise for Admiral Kempff.

Rear Admiral Kempff was presented to the President this morning by Representative Bartholdt. Admiral Kempff merely called to pay his respects, but he was honored by high praise from the President, who recalled the fact that Admiral Kempff had refused to order the American naval forces in Chinese waters to join in the bombardment of the Taku forts. President Roosevelt said that the civilized world had rendered judgment on the action of Admiral Kempff and had decided that he was right. Admira! Kempff was much gratified with the President's warm and friendly praise The American admiral was urged by the naval commanders of all other nations to oin in the bombardment, but he refused to take part, saying that his country was not then at war with China. This act is re-

membered with generous gratitude in China. The Oregon Election. Senator Simon of Oregon saw the President today. He said that his information from the Oregon elections was that two republican representatives in Congress and a republican legislature had been chosen. The election of a democrat as governor by small plurality was due, Benator Simon said, to purely personal reasons. The democratic candidate for governor was, he said, an extremely popular man. The plan in relation to taxation generally advocated favored immediate provision of a national advance to meet the cost of large and permanent municipal improvements, only the interest upon this advance with a proportionate contribution to a sinking fund to be collected each year for a long period from the current revenues. It was contended that the question whether personal taxation was necessary and if so what form it should take could be decided only after the proposed advance had been authorized and the revenues from the new assessment of real estate had been ascertained. Some of the speakers urged the making of the advance and postponement of final shaping of the personal tax measure until next session. The delegation was before the subcommittee about two hours. This practically closes the hearings before the subcommittee, which this afternoon continued its work of considering the District appropriation bill as a whole. It is likely that the District bill will be reported to the Senate either at the close of the present week or early next week. It is understood that the subcommittee will be ready to make its report within a day or two to the full committee.

It is thought that the cruiser Brooklyn, which is slated to transport the remains, will be met upon her entry into English waaters by a Br'tish man-of-war and escorted to port. It is stated at the Navy Depart-men that the Brooklyn will be ready for sea at the New York yard on the 20th in-stant, so she can sail at any desired date thereafter. So complete were the cere-monies over the remains of Lord Paunce-fote last week that no further observances to attend the departure of the remains are contemplated here.
