This splendid upright piano will bring pleasure to some home circle— \$175 Monthly Payments. \$6 Monthly. We'd have no difficulty in disposing of this piano for \$500 but to make a leader of it we place the price at \$175 on \$1 monthly payments. This is just what we should for it in exchange. Has beautiful mahogany case and is in excellent condition. Includes all the latest features of tuning and free delivery included, and carries our full guarantee, which means that we will take it back at any time, whether within one or five years—whether you have paid all or only part of it—and allow you the full amount in exchange for a new Broadway Upright. This amounts to an iron-clad guarantee by which you run absolutely no risk whatever. At the same time you get a good Upright Piano at about half price.

ARRAIGES OF TAXES. Proposed Extension of Time for Payments in Certain Cases. Mr. H. H. Darnelle, the assessor, has submitted a report to the assessor on the request of the Senate District committee as to whether or not the Commissioners desired to extend the time within which arrears of taxes for years prior to 1900 may be paid with 6 per cent interest in lieu of the usual penalties and interest. Mr. Darnelle says there was a mutual understanding between the District committees of Congress and the Commissioners at the time of the passage of the act of February 15, 1902, permitting the payment of certain arrears at 6 per cent within a limited time that a renewal of the privilege would not be granted. The time allowed owners of real estate property of arrears of taxes at reduced interest was considered ample, it being more than ten months; and the fact that this privilege existed was widely advertised.

ROBBED HIS BENEFACTOR. John Berry, colored, fined \$20 for Stealing Milk. John Berry, colored resident of Montgomery county, Md., called at the farm of John O'Keefe, at Brightwood, Wednesday night in search of employment, but was not successful, and as the hour was late he requested, and was granted, permission to sleep in one of the outbuildings. When Mr. O'Keefe entered his milk house before daybreak he found that the contents had been stolen during the night, entering through a window, and carried off three gallons of milk. On entering the building where Berry was asleep, Mr. O'Keefe noticed that the latter's clothing was covered with whitewash. Berry was still asleep, and was permitted to slumber until he was awakened and escorted to the station house.

SEPARATE DRESS SKIRTS. Ladies' Separate Dress Skirts, in a rich quality black and navy blue; transparent taffeta, paneled off from sides to back with 6 rows of milliner's taffeta folds; kilt plaited flare at bottom; inverted habit back and made with drop skirt of spun glass silk percale. Extra special price..... \$8.98.

REBIBBON SALE OF IMPORTANCE. New crisp Ribbons in Satin and Liberty; also Moire, Metallic and Louise Taffeta, at the reduced prices for Saturday's sale. LOT 1—250 cartons of high luster Metallic Taffeta Ribbon, the kind that won't crush, all in the newest colorings, such as White, Pink, Light Blue, etc., up to 4 inches wide. Special price Saturday..... 12 1/2c. LOT 2—Consists of an immense quantity of best quality 1 1/2" Satin Taffeta Ribbons, up to 5 inches wide in all the wanted shades. Worth more wholesale than the price asked. Special price Saturday..... 19c. LOT 3—Consists of one of the best lots of all Liberty Satin Ribbons, in the wide widths, the season's most wanted shades. Regular 35c quality, at..... 25c.

Bradbury Factory. F. G. Smith, Manufacturer, 1225 Pennsylvania Avenue. N. W. P. VAN WICKLE, Manager. Recommendations Favorable Report. Colonel Biddle, the Engineer Commissioner, has recommended to his associates that a favorable report be made to the Senate on the amendment to the District bill appropriating \$2,500 for grading and improving the property adjoining the Western High School which was purchased last year. The estimate of cost was made by the Commissioners and the item is recommended by the board of education to make the ground available.

Gov. ODELL LEAVES. Departed at Midnight With His Party for Albany. Gov. Odell of New York spent yesterday afternoon and evening visiting friends in the city and at midnight left with the members of his party for Albany. The governor, Representative Littauer and Mr. E. H. Harriman of New York made a round of the upper departments in the afternoon, called on Secretaries Hay, Root and Moody. Held for Identification. The body of an unidentified young colored woman was taken to the morgue last night from Stevens' drug store, corner of Pennsylvania avenue and 9th street. The woman was taken ill on the street, she was removed to the drug store, where she died before the arrival of the ambulance. Coroner Nevitt directed that the body be removed to the morgue, to be held for identification. Death was attributed to a natural cause and no inquest will be held.

LOSS ESTIMATED AT \$1,765,000. Major S. F. Blunt Reports on the Rock Island Arsenal Fire. General Crozier, chief of ordinance, has received a telegraphic report from Major S. F. Blunt, ordnance department, confirming the press report of the serious fire at the Rock Island arsenal Wednesday night, and that the loss is \$1,765,000. The report stated that the fire was confined to the arsenal, but that a quantity of munitions, including a small arsenal, were destroyed. General Crozier regrets the disaster, but is grateful that none of the machinery of the valuable manufacturing plant at Rock Island was damaged. Major Blunt also says that the fire was caused by a defective fuse, showing particularly in the case of the fuse, and giving an estimate of cost to replace the destroyed storehouse. The structure was built of sandstone and cost about \$2,000,000. General Crozier is confident that it can be rebuilt for much less than its original cost. He says the munition destroyed formed a reserve supply and can be readily replaced from the city. He says the fire will not interfere with the operations at Rock Island in the manufacture of carriages for field and siege guns of other current work.

TRANQUILITY IN SALVADOR. Rumor of Declaration of War is False. The State Department has been advised by United States Minister Merry that the president of Salvador has informed him that complete tranquility prevails in Salvador and that the rumored declaration of war is false. Deprived of Leave. The Commissioners have reconsidered the case of Watchman Coulter of Engine Company No. 4 of the fire department, who was recently reduced to the last number in his rank for dozing at the alarm desk during the daytime, and instead of reducing him will deprive him of his days off for three months and his annual leave this year, as suggested by the chief engineer. Injured by a Fall. Charles Skinner, a painter, living at 1220 Pennsylvania avenue southeast, fell from a scaffold this morning while working on Emerson street northeast and injured his back. He was removed to his home by the police. Art in Advertising. From Press and Printer. The man desirous of keeping in touch with the doings of the commercial world around him may find a walk along any prominent thoroughfare in any large city merely a piece of invigorating exercise, but if his eyes are wide open it may be a liberal education. Eternal vigilance is not only the price of liberty, it is also the price of success in the modern world. A merchant's show window is without a doubt the one in which he is most interested and the one that he wants to have the most attractive, but it must be remembered that his competitor also has the same object in view, and his methods for attaining it are worth careful consideration, not only that one may get the best of the deal, but one may learn wherein he is wrong and avoid the same mistake in your displays. The student of business methods, who opens the present time it is one of the widest, yet the likelihood of even greater developments in the future is so great, so that it behooves the merchant, to be ever so obscure, or the clerk, though his position be of the humblest, to carefully watch it. It is the advertising columns of the daily and class papers. There is no surer barometer of trade conditions than these same advertisements, there is no indicator of the tendencies of the public taste that is quite so sensitive, nor is there one that the wide-awake business man watches more closely; for it shows him what his neighbor is doing to attract custom, while in his class or trade journals the advertisements give him the latest developments in his own field of endeavor. The day is long past for a flimsy boyant announcement that the goods described below are better and cheaper than they have ever been offered at, and that the advertiser's best form of advertising would speak of those goods as unusually attractive, and if in addition it is claimed that they were low in price as well the reason for this would be plainly and simply stated.

GOLDENBERG'S, Seventh and K Streets. PORTO RICANS THE BEST SHOTS. The best six shots with a carbine in the Department of the East as demonstrated at all members of the Porto Rican provincial regiment, beginning with Capt. Charles H. Hamilton with a percentage of 89.5, and including Lieutenant Terence Hamill, Albert Zulo, Sergeant Henry C. Slocum, Sergeant Phillip Lehman, Irvine McManus, and Sergeant, the lowest percentage being 71.8. The best shot with a regular army rifle also belonged to the Porto Rican regiment, being Capt. Frank L. Graham, whose percentage was 83.25. SENATORS AND TRUSTS. Judiciary Committee Trying to Amend the Littlefield Bill Satisfactorily. The Senate committee on judiciary continued its consideration of the trust-question yesterday, and after holding two sessions adjourned today. The committee was especially concerned in an effort to amend the Littlefield bill so as to make it burdensome to small corporations. It practically is the unanimous opinion of the committee that a bill should be enacted into law, but there is much difference as to the phraseology to be employed. There also is practical unanimity as to the desirability of making the proposed law apply to corporations which are capable of becoming oppressive in their operation and of relieving those which are beneficent in their operations and which are not extensive enough to require close supervision. The committee is finding difficulty in defining a line of demarcation, but the members express the belief that a way will be found out of the difficulty, and that the bill will be so modified as not to make it onerous upon small concerns. The committee today further considered the question of trust legislation on the basis of the Littlefield bill, the attention being again monopolized by the question as to whether all corporations should be included in the requirement to make returns. Senator Bacon has offered an amendment providing that the returns required shall only be mandatory upon large corporations, but that it may be made applicable to smaller ones at the discretion of the authorities having the matter in hand. Senator Bacon, Senator Hoar and others advocate a provision on these lines, but other members of the committee express the opinion that no mandatory requirement for returns should be made upon any corporation, but that the question should be left to the control of the executive department of the federal government.
