NEW YORK, March 13 .- The steady drain on the banks through the subtreasury has been such a feature of late that in most brokerage offices an item that has long been passed over as of no particular moment, the statement of subtreasury transactions. has come to be regarded as an important item of daily news. In fact, a recent interesting development in the speculative com munity has been traders selling of stocks on the day-to-day figures, showing loss of cash by the banks. Practically since October 1 there has been a monotinous con tinuity of reports of such loss, only broken now and then by a day or two of gain.

On Friday and Saturday, chiefly on ac count of the treasury deposits made by Secretary Shaw the banks made a gain of several hundred thousand dollars, but this was all wiped out yesterday, and at the close of business last night the subtreasury was \$301,000 ahead for the week, and this morning had a debit balance of only \$18,029 at the clearing house. The fact that the Secretary has this week made additions to the list of government depositaries is taken in some quarters to indicate that he is pre paring to make further deposits of public funds next month if the treasury's condi-tion permits and the state of the money market warrants it.

Annual reports of larger Berlin joint stock banks reflect increased activity in German trade and industry. Pressure has been heavy Bertin buying lately of London bills for the payment to Japan for account of Russia of the expenses of maintaining Russian prisoners. Foreign centers are said to be withdrawing their Berlin balances, and there is a strong demand for sight drafts to meet payment abroad. The Handelgescheileschaft is negotiating a loan of 50,000,000 francs, Servian, for the Servian government. The gold import movement in-augurated by the City Bank this week appears unlikely to go very far unless it is closely related to our excess of exports of foodstuffs, manufactured articles and se-

-Striking Advances Scored by

Some Stocks.

NEW YORK, March 13 .- In this morning's early dealings the stock market presented a rather unsettled appearance, but maide from a few special securities there was little genuine pressure apparent, and before the noon hour a general and prononneed rally set in. Neither the early deession nor the later recovery were very confically accounted for through novel derelopments of particular or general import-

Amalgamated Copper broke rather badly, producing the usual effect upon general speculative sentiment. It is probably not necessary to recite the

would dead issues, and there will be no very satisfactory explanation of the early decline in Amalgamated Copper. Montana advices reported that mining operations at Butte had been materially in-terfered with by the sudden advent of ex-tremely cold weather, but as against this firther advance was announced today in elling prices for copper metal.

Lanston seems inclined to take the middle of the stage for a while and give an exhibition of how to go up. Today at the meeting of the stock exchange there was more than the usual volume of trading in the stock, and the range of the prices was from 14¼ to 14%, which is a higher level than has been reached for some time past. An option was also sold at 14%, and at the close the bid was 14½, with stock to be had a quarter of a point in advance.

Mergenthaler seems to be taking the back track in its course, and today the bid for it was a quarter of a point below the closing
