## HAZING AT THE V. M. I.

ESTING STATEMENT.

CHARLOTTESVILLE, Va., September 27.

The first class at the V. M. I. is out with a statement about the hazing at that insti-tution which will probably be read with widespread interest throughout the south, the V. M. I. being the West Point of that section. The nucleus of the statement is that the V. M. I. is no place for a youth

Owing to the number of reports being circuiated regarding the hazing at V. M. I., we, the first class, desire to make a state-ment in regard to the actual state of af-

No Worse Now.

In the first place the hazing is no worse than it was in former years, and never before in our stay here has so much precauthe stoops occupied by new cadets, nor are by the old cadets is absolutely untrue.

It is true, however, that more men have left this year than last year, still this does not prove that they left on account of the not prove that they left on account of the hazing, as the first few days of a new cadet's life here are very busy ones, being occupied in his being taught the rudiments of soldiering. These young men, when they come here, are, for the most part, unused to work, many have never been away from home before, and when they find that this is no place for play, but for good hard work, they are ready to go back home. Then follows the letter in which is contained a very pitiful story of hardships gone through, and the indignities to which they are subjected. Now in many cases these men are unfit, both mentally and physically, for the work gone through with here, and this is the kind which usually drop out the first of the year on account of the hazing. Again, many are not suited for military life, and prefer a place where they do not rise at six and retire at ten, and where they do not have to be considered as men.

A gentleman from Tennessee took his son

where they do not have to be considered as men.

A gentleman from Tennessee took his son away last Saturday, and several of the first class went to the station to see him. We asked him why he was taking his son from the school, and he told us because of the hazing. We then asked his son who had hazed him, and all about his trouble, and in each case he did not know who had hazed him, which, of course, weakened his case. We then asked him if this was the only reason why he was leaving, and he said that in the first place he did not like the military part of the school. Without going any further, we knew at once why he wanted to leave, for if a person once decides he does not like it it is impossible to show or tell him anything else. This boy was an only son of over-fond parents, and had never before been away from home.

and had never before been away from home.

Another case, somewhat similar to this, is that of Mr. J. T. Deal of Norfolk. The only difference is that Mr. Deal was here at the first of the year, and by the kindness of the authorities was allowed the freedom of the barracks. He certainly made rapid progress during his stay here, and from his quotations in the newspapers it looks like a miracle that any new cadets are left here. It seems to us that if Mr. Deal, who was a former student of the institute, had seen what he says he has, and had the welfare of the institute at heart, he would have notified the proper authorities, so that steps might have been taken to stop the infractions of the rules at once. Instead, he withdrew his sons and has advertised himself very well in the columns of the daily newspapers. We have talked with several alumni, who were here at the same time as Mr. Deal, and they say he was one of the meanest and worst hazers in his class, and was generally unpopular.

No Brutal Hazing.

### No Brutal Hazing.

In conclusion we desire to state that the reports circulated about brutal hazing are entirely unfounded, and had Mr. Deal, inentirely unfounded, and had Mr. Deal, instead of seeking newspaper notoriety, reported the matter to the proper authorities, an investigation would have been held and summary punishment dealt out to the accused, had they been found guilty. There are men now in the guardhouse for hazing. Who are to be dismissed today.

Of course it is impossible to have 300 men together without having some black sheep, and as soon as possible these will be eliminated and sent home. The sentiment of the corps is against hazing, and it is not, nor will it ever be, tolerated by the officers of the institute, nor by the cadets themselves.

cadets themselves.

mentioned above as being confined to the
guardhouse for hazing were dismissed at
battalion parade yesterday.

DOG AIDS POLICEMAN Fugitive Who Hid in Cellar Located

by Canine. A dog played an important part in the capture of William Mitchell, colored, yes-terday by Policeman Bobo of the first precinct, Mitchell being wanted on a charge of ell. The husband was on a street car of the Pennsylvania avenue line yesterday afternoon, when the wife saw him and pointed him out to the policeman. When Bobo started after him Mitchell jumped from the car at 3th street and ran into D street, jumpling into a cellar of a store. The cellar was dark and Mitchell crawled behind a pile of boards. When the policeman looked around the cellar he saw nothing of the man.

About that time, however, a small dog ran into the cellar, sniffed around for a minute and looked intently behind the pile of boards. Policeman Bobo went there and found Mitchell. The prisoner broke away again, but he was captured at 8th and E
