Six Members of Cabinet Here on Various Missions.

TO TAKE UP RECIPROCITY

Negotiations Will Be Resumed by Two of the Delegation.

TO DISCUSS FISHERIES CASE

Minister of Railways Graham Will Go Over Transportation Matters With Chairman Knapp.

W. S. FIELDING.

Six members of the Canadian cabinet arrived in this city this afternoon on various missions. Only two are authorized to participate in reciprocity negotiations, but it is probable that the others will be kept informed as to the progress of the negotiations, and their advice sought and acted upon.

The members of the cabinet to resume the reciprocity negotiations are William Patterson, minister of customs, and W. S. Fielding, minister of finance. The other Canadian ministers who have come to Young Men's Overcoats, sizes Canadian ministers who have come to Washington are L. P. Brodeur, minister of marine and fisheries; Sir A. B. Aylesworth, minister of justice; George P. Graham, minister of railways, and W. MacKenzle King, minister of labor. Graham and King each has a mission in connection with his own department, but it is generally recognized here that the

importance of the reciprocity negotiations furnishes a most valid reason for their simultaneous presence in Washing-

The reciprocity exchanges will be resumed where they were left off last November, when the late Henry M. Hoyt, Charles M. Pepper and Consul General J. G. Foster acted as the American commissioners here.

While the details of that conference are confidential, it may be stated that the proposals made by the Americans were broad and liberal, offering a large advan-tage in the United States market for Canadian farm products. One need not be in the full confidence of the negotiators to know that Canada's advtange lies largely in a wider market for natural products.

#### Object of United States.

The object of the United States is larger sale of manufactures to Canada. The Laurier government is torn between Appointments, Promotions and Resthe farmers, who want a large measure of reciprocal free trade with the United States in products which they consume and sell, and manufacturers, who dread the War Department are announced as any tariff cut on manufactured articles, follows:
