STRIKE ECHO IN SPORT.

Men Who Were Loyal to Employers
Barred From Contests.

Foreign Correspondence of The Star.

DUBLIN, September 19, 1911.

A singular affair occurred at Jones' road athletic ground, Dublin, where a Gaelic athletic sports meeting was held, under the auspices of the Dublin United Trades committee. Among the entrants were two clerks, one employed by a railway company and the other by a shipping company, each of whom had stood loyally by his company during the recent strike. It is stated that the committee, on receiving their entries, decided to refuse them, but did not notify either of them to that effect. They accordingly attended for the purpose of competing.

It is stated that the committee, on receiving their entries, decided to refuse them, but did not notify either of them to that effect. They accordingly attended for the purpose of competing.

The committee informed him that owing to his action during the strike he would not be allowed to compete. It was alleged that he had performed work which had been abandoned by the strikers, such as pushing trucks and removing goods. When the objection was made the other cyclists who had entered for the events in which the man was concerned held a conference and decided to stand by him. The intention was that unless he was allowed to compete they would "go on strike." An impasse was thus created. The officers of the Gaelic Athletic Association present supported the committee in the objection, and the competitors remained true to their resolve, the sports had to be abandoned.

THE CUTTER SERVICE.

Second Lieut. W. T. Stromberg and Third Lieut. J. S. Baylis, C. G. Roemer, W. N. Derby and L. C. Mueller have been given preparatory orders to stand their examinations for promotion to the next highest grade.

The resignation of Second Lieut. J. T. Drake from the service was accepted by the department and took effect September 12. Lieut. Drake entered the school of instruction from New York in May, 1904, and was graduated and appointed a third lieutenant in October, 1906. In September, 1907, he reached the grade of second lieutenant and was assigned to duty on the Androscooguin at Portland, Me.

Revenue cutter service ships are called upon for all kinds of service to save marine property, but it is not often that the crews of the cutters have an opportunity to aid a railroad warehouse that is in trouble. Last week the crew of the cutter Onondaga, at Norfolk, saw smoke issuing from a large warehouse building where the wintering of the railroad company. First Lieut. W. A. Wiley, commanding the cutter, dispatched two boats, but the other received a highly complimentary letter from A. B. Snyder, general agent of the Chesapeake and Potomac, thanking the men for the service rendered.
