

PENNSYLVANIA AVENUE.

Saks & Company

SEVENTH STREET.

You Have No Idea of the Strength of Our Serge Stock

Men's---\$12.50 to \$30.00

It numbers THOUSANDS of Suits--SCORES of models--in the full assortment of size-divisions peculiar to Saks-making. EASILY THREE TO ONE SHOWN ANYWHERE. Mark that--because there's a very important reason for such an assembling of Serges here.

Reliance! Every yard of Serge used in every grade, from lowest - priced to best, is GUARANTEED. You can rely upon it implicitly. Not only is it ALL WOOL; but it is SELECTED wool. And we know it to be ABSOLUTELY FAST COLOR. Not on the weavers' word; but by ACTUAL TESTS OF OUR OWN--a real acid test, and what's still better, a weather test. Exposure to just the conditions it will be called on to undergo in your service. Rained-on and sunned-on and then rained-on again.

Then comes the making. Serges need the utmost skill in tailoring--and they get it in our shops--at the hands of our experts. Cold-water shrunk, until there's no shrink left in them; so are the tapes and stays, and canvases. You never see a Saks Serge pulling at the seams, curling at the edges and corners--and that's why. That's why they hold their shapeliness straight through to the end of their service. Of itself that gives the Saks Serge Suits advantage over any other.

Young Men's---\$9.75 to \$25.00

There are Plain Serges; Self-striped Serges; Pin-striped Serges--in Single Breasted, Double Breasted and Norfolk styles--with Soft-roll fronts, easy and graceful; or the permanent roll that is more precise. They are full-lined, half-lined, or skeleton--with no padding in the shoulders, or slightly padded--which-ever way you want them. We don't care how big you are; or how small--there's a Serge here in YOUR size--in every one of the grades.

The modeling has been done with the consummate taste that marks all productions of our workrooms; the tailoring gives evidence of the masterful skill of our shops.

We couldn't buy a Serge for our stock--because nobody else gives the attention to the details we do--and your satisfaction depends as much--really more--on the manner of making than upon the Serge itself. We've no monopoly on wool and dyes. BUT IT SEEMS THAT WE CERTAINLY HAVE ON MAKE-MANSHIP.

There simply isn't any real competition with Saks Serges.

You can see why we have to have THREE TIMES THE BIGGEST STOCK.

"AD" MEN OF NATION ASSEMBLE IN DALLAS

Texas Town Hums With Noise of Delegates to Annual Convention.

DALLAS, Tex., May 20.--Advertising men from all parts of the nation reached Dallas today, each delegation coming with some startling variety of noise or decoration designed to impress others with the importance of the particular town from which each hailed.

It was the signal for the beginning of the annual meeting of the associated advertising clubs of America. The first feature today was the automobile parade, in which each delegation was expected to launch some startling innovation that would bring glory to its native city. There were fanfares of "publicity" from almost every city in the Union. There were hundreds of varieties of "local color."

Brings "Houn' Dawg" Chorus.

The St. Louis delegation, for instance, brought a chorus trained exclusively on the "Houn' Dawg" song. However, the words were different, intimating that inasmuch as the "hound" was a healthy bull terrier weighing eighty pounds, nobody "was kickin' him around." Prior to the parade there had been welcoming addresses to the delegates by Gov. C. B. Abbott and Mayor Holland. At a second business session reports of committees were heard and advertising men told of improvements in their methods and work. The advertising men of the convention city will be elected and the convention city for next year chosen. A "circle tour" of

the state will be begun Friday morning. The membership of the Associated Advertising Clubs of America has increased nearly 10 per cent in the past year. This was the announcement made in the annual address of George W. Coleman of Boston, president of the national organization, in his annual report today. The membership increase is from 3,776 to 4,181, the number of clubs enrolled increasing from 99 to 130. The new clubs represent nineteen different states, territories and provinces, as widely separated as Maine, the Hawaiian Islands, Ontario, Georgia and California.

DREAM DRIVES HIM TO DEATH.
Man Ends Life After Recurring Visions of Own Funeral.

PHOENIXVILLE, Pa., May 20.--Tortured for weeks by a constantly recurring dream, in which was pictured a funeral cortege with a hearse opened to receive a casket being carried from the house in which he boarded, led to the suicide here yesterday of Peter Lueckel, who shortly after he had cut his throat with a razor.

Witnesses at the inquest told the jury of the strange apparition which long oppressed Lueckel, and which, through loss of sleep, finally drove him into insanity. His fellow-boarders told of the accounts of his strange dream which Lueckel gave them at breakfast each morning, and in which he declared that it was a forecast of his own death and pictured to him his own funeral.

On the Team.

Bozeman Bulger contributes another section of his "Breaking Into the Big League," to our next Sunday Magazine, wherein the newcomer passes through the hard training and is at last engaged to play with the regular team. It is really a better installment than the first one, for it gives more dramatic action and at the same time reveals a lot of base ball technique that even most fans do not know. Our readers, after perusing this one, will wait with eagerness and impatience for the next part. The series will probably be concluded with the publication of the fourth installment.

FOR PROMOTION OF HEALTH.

Maryland to Make War on the Public Drinking Cup.

BALTIMORE, May 20.--The state health department, in its fight against the spread of disease, is ready to begin the crusade to eliminate the public drinking cup and to enforce rigidly the law in regard to maintaining this means of throat quenching.

The penalty for breaking this newly enacted law is a fine of \$25. An appeal, however, is allowed to the public service commission. To explain the reason for an immediate effort to stamp out the public cup practice, the department officials point to the fact that with the coming of warm weather the number of those who will patronize public fountains will be increased by thousands. Thoughtless of the consequences to others, the officials declare, many persons having contagious diseases, notably tuberculosis, drink from cups or dippers afterward used by unsuspecting hundreds.

While there is a demand that the public roller towel also be eliminated, the department probably will leave this question to a future day.

PRESIDENT TAFT AS GUEST.

New York German-American Alliance to Meet May 26.

NEW YORK, May 20.--President Taft has been invited to attend the seventh annual convention of the German-American Alliance of the state of New York to be held here May 26 and 27. Theodore Sutro, president of the alliance, announced that the German ambassador, Count Johann Heinrich von Bernstorff, and Dr. C. J. Hexamer of Philadelphia, president of the National German-American Alliance, will be the principal speakers at the banquet on the evening of May 27.

While the convention is in session the tenth anniversary of the organization of the United German Societies is to be celebrated.

HOME FOR EX-CONVICTS.

New Hope Hall, Near Chicago, Ready for Dedication.

CHICAGO, May 20.--Mrs. Maud Ballington Booth, "Little Mother of the Prisoners," will today dedicate New Hope Hall, a home for ex-convicts in West Ravenswood Park. The corner stone of the building was purchased by former prisoners of Illinois penal institutions.

During the last year an average of one pardon a day for prisoners of the Joliet penitentiary has been obtained by the Volunteer Prison League. About twenty of these now live at the home and many others have been placed in positions and given a new start in life. Nearly all of them have promised to be present at the dedicatory exercises.

STUDENTS CALL IT PRANK.

Cow Stabled in Parlor of Frat House in Chicago.

CHICAGO, May 20.--A cow which had slept in the parlor of the Sigma Chi Fraternity house occupied by students of Northwestern University created so much disturbance yesterday that the police were called to eject it.

Alarmed by strange howlings, the occupants of the house crept through the hallways to discover the animal had been put in the parlor by prankish students. The cow's anger, measured by the condition of the furniture, led to a call for the police.

BODY PARTLY IDENTIFIED.

Found Bruised and Heavily Weighted in San Pedro Harbor.

LOS ANGELES, Cal., May 20.--Bernard Rein, an automobile salesman here, is believed by the police to be the man whose bruised and heavily weighted body was found in San Pedro harbor yesterday. Baggage left several days ago by a man answering

Rein's description at a San Pedro hotel and which has not been claimed is the clue upon which the authorities based today their assumption of having solved the murder mystery.

Rein's description is said to tally closely with that of the body. Rein was known to have had several hundred dollars upon his person when last seen. A son, W. H. Rein, resides in Detroit, Mich.

Recreation Is Denied.

That the average workman has to labor so hard to satisfy his employer that he has no time for recreation with his family or fellowmen was the assertion made at a meeting of socialists of this city, held at Typographical Temple last evening. It is not the lack of necessities but the unequal distribution of them that is injuring the country today, it was declared.

AGAIN IN HOUSE OF MERCY.

Three Girls Tire of the Restraint Imposed on Them.

Three girls, who were inmates of the House of Mercy at Kilgus road and Rosemont avenue northwest, were reported last night as being fugitives from that institution. The police sought for them and today they are again at the House of Mercy.

Flora Barrier returned of her own accord and told where her companions were. They were later found at the House of Mercy. They said they had left the institution because they had tired of the restraint.

EXERCISES AT MANASSAS.

Industrial School Commencement Week Begins Next Sunday.

Commencement week of the Manassas Industrial School for Colored Youths, at Manassas, Va., begins next Sunday, when Rev. W. J. Howard of this city will deliver the commencement sermon.

On the Monday evening following an exhibition will be given by the musical department and a declamation contest will be held. The mechanical and industrial departments will hold an exhibition on the next evening. A reception will be tendered the alumni and graduates by the faculty May 29 at 8 p.m.
