CURRENCY BILL TO SENATE SATURDAY

Opposing Committee Factions Agree to Submit Divided Reports on Measure.

The administration currency bill will be reported to the Senate Saturday by the banking and currency committee. The opposing factions of the committee met together today and agreed to submit divided reports, one signed by Chairman Owen and the administration democrats, and one signed by Senator Hitchcock and the republicans.

The members of the committee decided that it would be a waste of time to make any further effort to secure an agreement by the two factions on even the non-essentials of the bill.

The measure as passed by the House will be reported back to the Senate with the statement that the committee is unable to agree. The bill drawn by the administration faction will be appended to the report with the views of its proponents as to necessary amendments; the bill drawn by Senator Hitchcock and the republicans will be similarly submitted.

A meeting of the steering committee of the Senate had been called for today to consider a program for the debate on the currency bill, but, finding that the measure would not be brought in until Saturday, the committee adjourned until tomorrow. The question of calling a democratic caucus to take up the currency bill will be considered by the steering committee.

Republican Bill Completed.

The republicans today made public the bill which they have drawn in the weeks they have spent considering the measure. It provides for the establishment of four regional reserve banks with the authority vested in the federal reserve board to increase the number after two years if necessary.

The regional banks will be capitalized through public subscription, underwritten by the national banks, and the capital is fixed at 6 per cent on the capital and surplus of the national banks. Each regional bank would be controlled by nine directors, five appointed by the federal board and four selected by the banks.

The earnings of the regional banks will pay a dividend of 5 per cent on the stock, create a depositors' insurance fund, guaranteeing national bank deposits and the remainder will be turned over to the government to be used in redeeming 2 per cent bonds.

The bill would fix the reserves against deposits at 12 per cent for country banks and 15 per cent for city banks, and would require a gold reserve of 35 per cent against note issues, with a graduated tax on a deficiency in the gold reserve down to 25 per cent. The new notes to be issued against prime commercial paper would be redeemable in gold.

Concession to National Banks.

A section of the bill would allow the national banks to loan one-third of their time deposits on five-year farm loans. The republicans struck out of the House bill the provisions requiring national banks to segregate their savings-account business.

In order that banking conditions may be protected while the new system is getting into working order, the republicans would extend the provisions of the present Aldrich-Vreeland emergency currency act to June 30, 1915, instead of June 30, 1914, when it would expire under its own terms.

The democratic bill has not yet been completely revised and Senator Owen and his supporters will make minor changes in its provisions before reporting to the Senate.

NOTED CLERGYMAN DEAD.

Rev. Dr. Herrick Johnson Passes Away at His Philadelphia Home.

PHILADELPHIA, November 20.—Rev. Dr. Herrick Johnson, a widely known Presbyterian clergyman, who was moderator of the Presbyterian general assembly in 1882, died at his home here today. He was eighty-one years old. Dr. Johnson served churches in Troy, N. Y.; Pittsburgh, Chicago and Philadelphia and was a professor of theology at Auburn Theological Seminary, Auburn, N. Y., and at McCormick Theological Seminary, Chicago. He was the author of several theological works.

Dr. Johnson leaves a wife, who was Miss Duncan of Louisville, Ky.

Thomas Talks on Naval Holiday.

Approval of the suggestion of Winston Churchill of the British government that the great maritime powers stop battleship construction for one year was the subject of a speech delivered in the Senate today by Senator Thomas of Colorado. He predicted that the scant treatment accorded the suggestion by other European nations would be followed by a more rational second thought.

MAY SERVE WARRANT ON MISS BURNS SATURDAY

Local Suffragist Thinks Newspapers Carry Fun Too Far in Forcing Action.

That Miss Lucy Burns, vice chairman of the Congressional Union for Woman Suffrage, will be served Saturday with a warrant charging her with writing an advertisement of a suffrage meeting on a sidewalk with chalk without a permit and will be required to appear in court seemed certain today.

"Some of the newspapers have almost forced the police to take action," said one of the suffragist leaders today. "Of course, we like fun as well as any one else, but it seems too bad that this question is being forced to an issue."

Miss Burns returned to Washington unexpectedly late yesterday afternoon from a visit to Philadelphia, and soon afterward left for Baltimore, saying that she would not be back in Washington until Saturday. No attempt to serve a warrant on her was made during her short stay here.

Police officials maintained a discreet silence on the question today.

COL. GOETHALS IS BARRED.

Cannot Become City Manager of Dayton, Ohio.

Col. George W. Goethals, chief engineer of the Panama canal, cannot accept the invitation of the authorities of Dayton, Ohio, to become city manager and undertake the making of a model municipality of Dayton. Secretary Garrison of the War Department has notified Senator Pomerene of Ohio that an engineer of the army cannot be granted leave or be detailed for work of that character without special legislation by Congress.

The decision is in line with an opinion recently of Attorney General McReynolds, who held that army engineers could not be detailed to the interstate commerce commission to assist in its inquiry into the physical valuation of American railways. The ruling would apply in the same way to the police commissionership of New York city, which it has been reported was to be offered to Col. Goethals by Mayor-elect Mitchel.

NEW ALEXANDRIA POSTMASTER

Dr. William M. Smith to Succeed J. A Eggborn.

Dr. William M. Smith was today nominated by President Wilson to be postmaster of Alexandria, Va., to succeed J. A. Eggborn, who has held the position for about four years. The nomination of Dr. Smith was recommended by Representative C. C. Carlin of the Alexandria district.

Dr. Smith is a practicing physician in Alexandria, is president of the Virgina State Medcal Association and is chairman of the Alexandria school board. He is prominently identified with a number of fraternal and social organizations in Alexandria.

The President also nominated James W. Green to be postmaster of Culpeper, Va., and withdrew the nomination of Thomas Hall Davis as postmaster of the National Soldiers' Home, Virginia, and substituted the name of Lillie L. Davis.

CHINESE ARE EXCLUDED.

Government of Panama Passes Act and Populace Approves.

Walter S. Penfield, counsel for the Panama legation in Washington, today gave out the following statement:

"The Panama legation has received official information that, by reason of the passage by the Panama congress of the new Chinese exclusion law, which goes into effect November 25, and which has caused much comment, the people of the city of Panama yesterday, regardless of party, held a popular manifestation in support of the attitude of the government with reference to the enforcement of the new law.

"Such Chinese as are resisting the enforcement of the law closed their mercantile establishments, but similar stores were at once opened by native citizens, and, therefore, the argument that the closing of the Chinese shops would cause injury to the poor classes became of no avail. The cablegram also conveyed the information that the entire country approved and sustained the attitude of the government."

Spanish Queen Has Influenza.

PARIS, November 20.—The plans of King Alfonso and Queen Victoria of Spain have been upset owing to the illness of her majesty, who is suffering from a severe attack of influenza. The king and queen were to leave for Vienna tonight, but the doctors in attendance today forbade the queen to travel for a week.

BAPTIST CHURCHES PLAN FOR A FUND

Columbia Association Seeks Subscriptions to Shares for Building Project.

A permanent building fund for the Columbia Association of Baptist Churches, now in session at Immanuel Baptist Church, was assured by the adoption this morning of the report of the committee on building and loan fund, submitted by the chairman, Rev. H. V. Howlett.

This document recommends the plan of work to be pursued as follows:

"That an earnest appeal be made to the churches, to organizations within the churches and to individuals during the weeks intervening between the adjournment of the association meetings and the beginning of the calendar year, for subscriptions to shares at the rate of one dollar each per month; payment of subscriptions to begin January 1, 1914, and to terminate December 31, 1914.

No Loan in First Year.

"That the moneys gathered thus be the beginning of a building-loan fund for our association, and that this fund be in the care of the officers of the association, and that no loan be made from the fund during the first year.

"That the committee during the year formulate the rules which will govern the loaning of moneys from this fund."

The nucleus of the fund will thus be made, to which contributions and legacies may be later added.

In view of the fact that for the past two years the educational board has made no report, only a few minutes had been set aside this morning for it. The time had to be extended, therefore, in order that the comprehensive report submitted by the chairman, C. E. Vrooman, which dealt at length with the necessity for work in Christian education, might be heard.

Rev. J. C. Ball Closes Exercises.

The report of the committee on the digest of letters was adopted, and that of the committee on preachers and place of next meeting was postponed for a later hearing.

A doctrinal sermon by Rev. J. C. Ball, pastor of the Metropolitan Church, closed the exercises.

The meeting this afternoon includes the reports of the committee on systematic beneficence, the committee on obituaries and the advisory committee.

The report of the committee on young people's work will be heard at the final session tonight. "The Church and Its Young People" is the theme to be used by Rev. William Quay Roselle of the Fifth Baptist Church of Philadelphia.

Woman's Work Taken Up.

Yesterday afternoon's session was concerned largely with the work of Baptist women. Mrs. W. W. McMaster opened the meeting with prayer, which was followed by the report of the board of trustees of the Baptist Home, submitted by Capt. Fred Beall, the chairman.

The reports of the board of lady managers of the home, and of the Woman's Baptist Missionary Association followed. The report of the lady managers of the home urged that the facilities of the home be enlarged to admit men to its comforts. Following some general discussion of the advisability of such a move Miss Belle Chisakopsky of the Mariners' Temple, New York, delivered an address concerning her work in and around that city.

The evening session included the reports of the committee on Sunday School Institute and that on Sunday schools, followed by an address by Rev. Dr. E. M. Stephenson of Pennsylvania, state field worker for Sunday schools and young peoples' societies.

MAY DECLINE COADJUTORSHIP.

Rev. William T. Capers Doubtful About Going to Texas.

PHILADELPHIA, November 20.—Rev. William T. Capers, rector of the Church of the Holy Apostles in this city, who has been elected bishop coadjutor of the Protestant Episcopal diocese of West Texas, said today that it was doubtful whether he would accept the elevation. Dr. Capers recently was elected Bishop of Spokane at the general convention of the Protestant Episcopal Church in New York, but he declined the honor because, he said, he had been too short a time at his present post to work out the problems in his parish work.

Discussing the new honor, Dr. Capers said:

"The same reasons that led me to decline the missionary bishopric of Spokane may now lead me to decline this election. I am trying to have a perfectly open mind upon the subject."

FORERUNNER OF CHRISTMAS.

"Star of Hope" to Be Lighted in New York Square.

NEW YORK, November 20.—As the forerunner of a big municipal Christmas tree which will be erected in Madison Square during the Yuletide, a "star of hope" will be lighted there tonight to twinkle regularly until Christmas. The star, composed of a large number of incandescent lamps, is atop a plain iron shaft about thirty-five feet high. It was recently announced that the idea was backed by "a group of idealists" who seek to anchor idealism in New York.

The mystery of their identity has not been solved.

OFFERS A NEW SOLUTION.

"Harmonious Vibration" Declared Key to Peace With Mexico.

CLEVELAND, Ohio, November 20.—William V. Backus, Cleveland attorney, who lived long in Gay county, told members of the Keep Well Club at the Y. W. C. A. last night that "harmonious vibration" was one way the United States could end Mexican trouble. His topic was "The Art of Happiness."

"Of course, it would require a decade perhaps for the United States to end the trouble in Mexico by teaching persons to convey the element of happiness from one to the other," he said, "but it must happen ultimately."

Gov. Tener Names Delegates.

HARRISBURG, Pa., November 20.—Gov. Tener yesterday appointed eleven delegates from Pennsylvania to the ninth annual convention of the National Rivers and Harbors Congress, to be held in Washington, December 3 to 5. They are J. S. Holton, Eugene W. Fry, James B. Bonner, Thomas Devlin, George W. Norris, Murdock Kendrick, William B. Irvin, George F. Sproule, all of Philadelphia; C. S. Rea, Pittsburgh; Joseph R. Grundy, Bristol, and J. Craig, jr., Chester.

Smoked Corncob Pipes During Trial.

UNIONTOWN, Pa., November 20.—Smoking was allowed for the first time in the history of the Fayette county courthouse last evening when two justices of the peace heard a case involving fourteen Italians charged with illegal liquor selling. The hearings were transferred to the courthouse for the want of room. The court smoked corncob pipes during the three hours of the trial. The fourteen defendants were held for court under $1,000 bail each.

JUDD DENIES HE KISSED NEGRO MAID AT HOME

Answers Wife's Suit for Separation, Replying to All Charges.

Oscar A. Judd today filed answer to the suit for a legal separation brought against him by his wife, Sarah A. Judd. He denies emphatically the charge made by the wife that he had embraced and forcibly kissed a colored domestic in their employ. He also denies he cursed his wife or treated her cruelly.

Instead of denying her the right to purchase supplies for the home, as alleged, the husband claims his wife had full charge of the home, employed the servants and was allowed a running account with a grocery firm in Takoma Park. Whenever she used her own funds for supplies, the husband says, he immediately reimbursed her.

Wife Retained Position.

Mr. Judd admits that his wife retained her position in the Treasury Department after the marriage, but only over his protest and against his wishes. He denies she was compelled to work because he would not support her, and alleges he provided a comfortable home, gave her money on request and never denied her, although her salary was $1,000 per year, he tells the court.

In addition to her salary, the wife owns property in Montgomery county, Md., the husband asserts, and has a substantial deposit in a building association. Beyond his salary of $1,800 annually, the husband states, he has no other income. He asks the dismissal of his wife's complaint.

Attorneys Preston B. Ray, Julian W. Whiting and Walter P. Plumley appear for the husband.

DEMAND WAGE INCREASE.

Textile Operatives in Massachusetts Write to Manufacturers.

FALL RIVER, Mass., November 20.—A letter from the textile council demanding a general wage increase of 12½ per cent for the cotton mill operatives was received today by the manufacturers' association. The operatives demand that the increase be effective December 8, and that the manufacturers reply to the letter not later than December 1.

There are about seventy-five corporations and 100 mills affiliated with the manufacturers' association. The proposed increase would affect 30,000 operatives.

Union officials say that the question of taking a strike vote depends upon the action of the manufacturers.

REPUBLICANS TO ORGANIZE.

Californians' Move Necessary Owing to Inroads of Progressives.

SAN FRANCISCO, November 20.—California republicans, to the number of about 100, at a meeting here yesterday decided to proceed with the formation of a republican organization throughout the state. Some such move was considered necessary because of the capture before the last national elections of the republican machinery by members of the progressive party.

The legality of this proceeding was upheld by the supreme court of California, and since then the republicans not enrolled under the progressive banner have had no official organization at all.

A committee of fifteen was appointed to undertake the work.

STOLEN JEWELRY FOUND.

Schwartz Store Loot Recovered in Baltimore—Two Men Held.

Baltimore detectives last night recovered most of the twelve hundred dollars' worth of jewelry stolen Sunday night from the jewelry store of Charles Schwartz, 824 7th street northwest, and arrested two men on suspicion of having committed the robbery. The men gave their names as William Leray and Tony Maggio, the former saying he resided in this city, and the latter claiming Baltimore as his home.

Inspector Boardman, chief of detectives, last night was told of the arrest of the young men and the recovery of more articles than the jeweler had reported stolen. It was stated that one of the men was found pawning a mesh bag, and that he told where the other was.

Detectives went to the room, found the other man and the jewelry, the police were told, and both men were locked up. This morning Detectives Howlett and Vermillion went to Baltimore to get the prisoners and property.

MALARIA REPORT SUBMITTED.

Is Feature of Southern Medical Association's Concluding Session.

LEXINGTON, Ky., November 20.—The report of the malarial commission of the Southern Medical Association featured the concluding general session of the annual convention today. This afternoon was devoted to meetings of various sections of the association, after adjournment of which many of the physicians left for Louisville to attend clinics in the hospitals there.

A symposium on tuberculosis before the section of medicine this afternoon included addresses by Dr. E. C. Thargh, Atlanta; Dr. Mary E. Lapham, Highlands, N. C.; Dr. W. J. Durel of New Orleans; Dr. S. T. Rucker and Dr. W. G. Somerville, Memphis, and Dr. C. C. McLean, Birmingham.

A paper before the surgery section on the necessity of balancing the foot skeleton for permanent correction of foot deformities was presented by Drs. Michael Hoke and Fred G. Hodgson, Atlanta.

A number of physicians will go to Danville, Ky., tomorrow on a pilgrimage to the tomb of Dr. Ephraim McDowell, who a century ago was credited with performing the first lithotomy operations.

Shipping Poultry Up Ohio River.

PITTSBURGH, Pa., November 20.—More than 3,000,000 bushels of coal and 7,000 tons of manufactured steel and iron are en route down the Ohio river for southern markets today, a second shipment having been started from here last night. The cargo of incoming boats consists of turkeys, chickens and ducks. High water in the rivers, due to rains and the recent snowstorms, is gradually receding.

Society Made Residuary Legatee.

NEW YORK, November 20.—The Society for the Prevention of Cruelty to Animals is the residuary legatee under the will of Victor M. Osborn, a lawyer, who died September 27 last, leaving an estate of over $100,000. His will cuts off three nephews and gives a life interest in his estate to his widow, upon whose death the fortune goes to the society.

Swiss Cow Scores New Milk Record.

EAST LANSING, Mich., November 20.—College Bravura II, a nine-year-old brown Swiss cow, owned by the Michigan Agricultural College, has established a new world's record for milk production by animals of her breed. In the year ended yesterday she yielded 19,304.8 pounds of milk, which tested 4.102 per cent and made 1,000.5 pounds of butter.

Kicked to Death by Boys.

CUMBERLAND, Wis., November 20.—While returning home from a country school six miles west of here last evening, George Ladd, thirteen years old, son of George Ladd, was kicked to death by two of his schoolmates, who engaged him in a fight.

REPUBLICANS SUGGEST CONVENTION IN MARCH

Several Cities Now Are Considered as Place of Meeting.

Prominent members of the republican national committee intimate that a date in next March may be selected for the assembling of the extraordinary republican national convention expected to be called by the national committee when it meets in this city December 16.

The disposition of influential men in the committee is to have the convention over with as soon as possible, so that all dead wood may be cleared away and a clear party trail blazed toward the next campaign. The rules of the party governing the election of delegates to national conventions would not permit the holding of a convention earlier than March.

Smaller City Favored.

The committee will, of course, select the city where the convention is to be held. Thus far, sentiment has not crystallized beyond a strong feeling that the convention should go to one of the smaller cities and a community which is not strongly partisan to either faction. The convention is not likely to go to Chicago, since it will not attract a crowd sufficient in numbers to demand such facilities as only Chicago can offer.

Indianapolis, Philadelphia, Detroit and Cincinnati are under discussion, the prospective choice in the order named. There is conviction in the committee that the convention should be held in a city where the atmosphere and environment would be free from factional fever. Trade bodies of this city are planning to urge Washington as the convention city.

Taft Mentioned for Place.

Politicians here were much interested today in a dispatch from Hartford saying that ex-President Taft may represent Connecticut on the republican national committee to succeed Charles F. Brooker, who has announced his intention to resign. Others mentioned as possible successors were Charles H. Clark of Hartford, Michael Kenealey of Stamford, Everett J. Lake of Hartford, and Col. Robert O. Eaton of North Haven.

Judge Taft's close personal friends here scouted the suggestion that he would take a place on the national committee. They would not even dignify the report to the extent of wiring him about it, saying that the idea of his doing such a thing, in the circumstances, was incredible.

HALE QUITS NOGALES.

Refuses to Treat With Any One But Carranza.

NOGALES, Sonora, Mexico, November 20.—Conferences between William Bayard Hale, personal representative of President Wilson, and the Mexican constitutionalist chiefs were terminated abruptly because Gen. Carranza refused to answer certain questions propounded by President Wilson and not as a result of the Mexicans' demand that Mr. Hale present his formal credentials.

It developed that the insurgents had confidently expected a message from the American representative, making concessions. Immediately after the train left Bonillas called on Mr. Hale at the consulate, but Mr. Hale apparently had made his last communication to the constitutionalists and he made it clear that he would deal with nobody but Carranza himself.

Hale left Nogales at a late hour last night, and it is believed that he returned to Tucson.

The constitutionalist leaders carried the American ultimatum to their chief and then invented, it is said, the story of the demand for Hale's credentials in order to explain the rupture.

It was learned that Gen. Carranza had tried to place the American envoy in the attitude of formally recognizing his provisional government. When the first meeting was arranged the constitutionalists planned to receive the envoy in state, with all the formality due an ambassador. Mr. Hale vetoed this program and insisted that the conferences should be entirely of an informal nature.

Only Two British Ships Going.

The British embassy today gave out the following statement:

"The statement which appeared in the press this morning, to the effect that the British cruiser squadron in West Indian waters has sailed for Vera Cruz, is incorrect. Two ships are being sent, one to Tampico and one to Puerto Mexico, and the State Department was informed accordingly by the British embassy November 19."

ONE SERIOUSLY HURT.

Five Others Slightly Injured in Collision in South Carolina.

One passenger was seriously hurt and five others were slightly injured in a head-on collision early today at Barton, S. C., on the Southern railway, between passenger trains Nos. 23 and 24, according to advices to headquarters of the company here.

The seriously injured passenger is T. A. Lloyd, who is not expected to live. His home address is not known here. The other injured are L. C. Fanning, Sally, S. C.; Mrs. M. F. Mayer, Sandy Springs, S. C.; David Simmond, arm broken, and two negro tramps.

The engines and express cars of both trains were derailed. An investigation has been ordered.

Shoots Two Women and Self.

PITTSBURGH, November 20.—Charles Deitz, an electrician, thirty-five years old, this morning at Braddock, a suburb, shot his wife, his mother-in-law, Mrs. Caroline Miller, and himself. The trio was hurried to the nearest hospital, where physicians said Deitz would likely die, but the women were not dangerously hurt. Deitz and his wife have not been living together and the shooting ended a visit Dietz paid to her mother's home today.

Commerce Department Changes.

The Department of Commerce today announced the following changes in its personnel:

The temporary appointment of Marvin W. Hill in the coast and geodetic survey has been extended for one month.

William M. Fletcher has been appointed a second assistant engineer on the lighthouse tender Myrtle.

Charles F. Young, assistant messenger in the office of the Secretary, has resigned.

Raleigh J. Green has been temporarily appointed commercial agent in the bureau of foreign and domestic commerce.

The detail of Frank H. Murphy as master of the lighthouse tender Sunflower has been terminated.

Would Amend Postal Laws.

Several changes in the postal laws were proposed in bills introduced in the Senate today by Chairman Bankhead of the Senate postal committee. He would have money orders drawn on a specific post office made payable at any money order post office. He would give the Postmaster General authority to direct that certain classes of mail matter should be forwarded, even though the postage was not prepaid, and would authorize the postal officials in such cases to collect double postage upon delivery.

ARCHIE LEWIS' DEATH ENDS NOTABLE CAREER

Had Been for Sixty-Four Years in Charge of U. S. Supreme Court Robing Room.

Archie Lewis, for sixty-four years in charge of the robing room of the United States Supreme Court, died today at his home, 426 M street. He had been ill for some time.

Archie Lewis was eighty-two years old, having been born in 1831. He had the distinction of being the oldest employe of the government in point of continuous service. Away back in 1849, sixty-three years and eleven months ago, he was appointed an employe of the Supreme Court, at the instance of Richard Wallach, then United States marshal for the District of Columbia and later mayor of Washington.

Lewis was a freedman and hailed from Virginia. Chief Justice Taney was the presiding justice of the court when Lewis took up his duties. He claimed that in his long service he had served two-thirds of all the justices appointed to the Supreme bench. Certainly he had seen practically all of the great lawyers of the country who have appeared in more than half a century to argue their cases before the Supreme Court. Lewis had a large fund of anecdotes about the eminent men, both on the bench and off, whom he had known.

Officials of the court today spoke with regret of the death of Lewis whom they declared to have been a most faithful employe during his long years of service.

EXTRAVAGANCE IS SHOWN.

Frisco Methods Further Revealed at Commerce Commission Hearing.

ST. LOUIS, November 20.—The story of how the St. Louis and San Francisco (Frisco) railroad was aided toward a receivership by the rule of "empire" of its chief executive by the purchasing of "feeder" lines from syndicates in which 'Frisco officers were at the same time buyers and sellers and by general extravagance at the expense of stockholders was resumed here when the interstate commerce commission opened the third day of its hearing. J. D. O'Keefe of New Orleans, receiver for the New Orleans, Texas and Mexico railroad, one of the 'Frisco subsidiary lines, took up the story of the financial burdens and physical deficiencies he discovered in the road when he became one of the receivers.

Examiner Brown said he hoped to end the hearing and the months of investigation today. The report then will be submitted to Congress, where the order for the investigation originated.

REFRAIN FROM VIOLENCE.

Copper Mine Strikers Arrested for Violating Injunction.

CALUMET, Mich., November 20.—Except for a noisy parade of striking copper miners at Mohawk, the district was quiet today. The absence of the usual daylight violence was attributed to the fact that the state supreme court is deliberating whether to make permanent an injunction against picketing. A decision is expected soon.

The Mohawk paraders hooted and reviled deputy sheriffs and non-union workmen whom the officers were escorting to the mine. The military authorities said dozens of the marchers had violated the circuit court's injunction and they arrested fifty-three men and seventeen women.

Chicago Land Show Opens.

CHICAGO, November 20.—The annual land show opened here today with exhibits showing products of every agricultural section of this country and Canada. The United States display included dry land farming, reclamation of desert lands and road building. A special exhibit by the Department of Agriculture shows the results of education. President Wilson pressed a button in the White House opening the show.

HERE TO URGE REGISTRATION.

Editor of Musical America Would Have Instructors Registered.

John C. Freund of New York, editor of Musical America, is in Washington for the purpose of arousing interest in a movement for a national demand for the registration of musical instructors on the same basis that physicians and lawyers are registered. In this way, Mr. Freund says, music teachers not qualified for the work of instructing others will be eliminated from the teaching lists of the cities

The general public, he says, has not the faintest idea of the irreparable injury done every day to thousands of music students, especially students of singing, by the indiscriminate standards of music teaching which exists in this country.

HONOR TO ERASMUS PERRY.

Marker and Stone Placed on Grave of Veteran of War of 1812.

Members of Columbia Chapter, Daughters of 1812, of this city, went to Kensington, Md., yesterday afternoon and placed a marker at the grave of Erasmus Perry, veteran of the war of 1812.

At the same time a stone was placed at the head of the grave by Mrs. Rachael Ann Perry Polkinhorn of this city, a daughter of the soldier. She was accompanied to the grave by a number of relatives and friends.

The services incident to the placing of both the stone and marker were conducted by Rev. J. H. Dunham, pastor of the Western Presbyterian Church.

GRANGE DISLIKES HOUSTON.

His Selection to Cabinet Held Shock to Agricultural Interests.

MANCHESTER, N. H., November 20.—After a debate lasting all the afternoon yesterday, the National Grange, in session here, voted to reaffirm its acceptance of the report of the special committee that conferred with President Wilson prior to his inauguration regarding his selection of a Secretary of Agriculture. The committee reported Monday that the choice of Secretary Houston was "a distinct shock to the agricultural interests of the country," and that "President Wilson had failed to grasp the true farmer spirit."

DIX ENTERS A DENIAL.

Never in Meeting With Everett Fowler, Says Former Governor.

ALBANY, N. Y. November 20.—Emphatic denial that he ever participated in a meeting at which Everett Fowler was appointed collector of democratic campaign funds was made last night by John A. Dix, former governor.

"I never heard of such a meeting until I recently read about it in the newspapers," he said. "Further than that, I don't believe that Fowler ever was in the executive mansion during my incumbency.

"At no time have I been interested in collecting campaign funds for my candidacy or that of any other governorship candidate. When I made my race I paid my own expenses and what other candidates for governor did I do not know. The story is absolutely false."

SHOWS CONTINGENT EXPENSE.

All But $358 of $36,000 Appropriation Spent by District.

All but $358.95 of the appropriation of $36,000 allowed by the last appropriation bill for the contingent expenses of the District of Columbia was spent, according to a report made to the House today by Commissioner Newman.

The figures, computed by Auditor Tweedale, give the detail of expenses under this contingent fund in every department of the District government, and include a wide variety of subjects ranging from twenty cat traps for $86 all the way up to official stationery at $65.67.

HE NEEDS HIS MILEAGE, SO SEEKS TO ADJOURN

Representative Thomas Stirs Up Some Real Excitement in the House.

Representative Thomas of Kentucky stirred up some real excitement in the House today when he introduced a privileged resolution calling upon the House to adjourn November 22, at 1 p.m. As this is distinctly not in accordance with the President's wishes, Representative Thomas was called to defend his resolution, and the long and the short of his speech was that he wants to get the mileage allowance which is due him. He said he could prove his need for it by his creditors.

"I want my mileage; I need it, and so do my creditors," said Representative Thomas. "I am from a republican district, and it takes money to get people to vote right in my district."

Representative Johnson of Kentucky, acting democratic leader, tried to block the plan by moving that the House adjourn for the day, but a short debate followed.

Hopes to Get His Mileage.

Representative Thomas declared Congress should have adjourned two or three months ago. He said newspapers now asserted that adjournment would cause a public scandal because it would be charged to be a "mileage grab" scheme. He admitted that in proposing his resolution now he looked ahead to getting his mileage of 20 cents for each mile traveled in coming to and leaving Washington.

"The people I owe," he said, "would be glad if I get my mileage. I need it and nine-tenths of the members of the House feel exactly as I do."

The Thomas adjournment resolution was blocked by the motion of Representative Johnson to adjourn for the day, which carried on a yea and nea vote, 74 to 42. The House will meet tomorrow.

WOMEN ARE TO DECIDE.

May Act as Judges and Clerks of Elections in Chicago.

CHICAGO, November 20.—Only the question of their ability to endure the strain of the work on election and primary days is said to stand in the way of the appointment of women as judges and clerks of elections in this city. The women may be permitted to decide the question for themselves.

County Judge Owens, who, under the law must determine the question finally, is said to hold that women are placed on the same basis with men at polling places under the provisions of the equal suffrage act passed by the last session of assembly. Judge Owens has asked the advice of the principal women's organizations of the city, both political and social, and will meet their representatives next Monday.

UNCLE SAM GUARDS FOXES.

Land Otters of Alaska Are Protected by Government.

Secretary Redfield of the Department of Commerce today threw the governmental mantle of protection around the foxes and the land otters in Afognak reservation in Alaska. He served warning on hunters of those animals that, to use the language of the official announcement, "the pursuit, capture or killing" of them for some time to come would bring down on the hunter the wrath of the national government.

The order was issued because the game has suffered severely by reason of the recent volcanic disturbances in Alaska and the adjacent islands. Agents of the department have reported a scarcity of the two species named. Killing of foxes in the reservation is made unlawful until November, 1918, and of land otters until November, 1915.

Found out yet what they did with that $4 you contributed to the Panama Canal?

THE PANAMA CANAL

by Frederic J. Haskin

Author of "The American Government"

The Evening Star, Nov. 20, 1913.

Colonel Goethals says: "Accurate and Dependable"

HOW TO GET THIS BOOK

On account of the educational value and patriotic appeal of this book, The Evening Star has arranged with Mr. Haskin to distribute a limited edition among its readers for the mere cost of production and handling.

It is bound in heavy cloth. It contains 400 pages, 100 illustrations and diagrams, an index and two maps (one of them a beautiful bird's-eye view of the Canal Zone in four colors). IT IS ACTUALLY a $2.00 VALUE.

Cut the above coupon from six consecutive issues of the paper, present them with 50 cents at our office, and a copy of the book is yours. Fifteen cents extra if sent by mail.

OUR GUARANTEE: This is not a money-making scheme. The Star has undertaken the distribution of this book solely because of its educational merit and whatever benefit there is to be derived from the good will of those who profit from our offer. The Evening Star will cheerfully refund the price of the book to any purchaser who is not satisfied with it.

PRESENT SIX COUPONS OF CONSECUTIVE DATES

FIFTEEN CENTS EXTRA IF SENT BY MAIL.

Friday's Thanksgiving Shoe Sales

WILL attract even bigger crowds than have been here today—for these REMARKABLE VALUES are bound to be talked about around town.

The purpose of these sales is STOCK REDUCING. The present unseasonably warm weather has retarded the movement of some of our best styles—and SPECIAL PRICING is the result to YOUR BENEFIT!

Men's Winter Tans $3, $3.50 & $4 Kinds at $2.79

The shoes in this Special Friday Sale are all brand-new TAN AND BROWN RUSSIA AND WILLOW CALF Laced and Button Shoes, with full winter-weight Goodyear Welt OAK BARK TANNED soles. Our own best made $3.00, $3.50 and $4.00 kinds.

They are medium and wide toe, "RAISED TOE" models—which have not been moving as they should owing to the big demand for the English models—but they are decidedly the most comfortable shapes a shoe can be made in—and very attractive looking. 7 snappy styles—in all sizes and widths—in tomorrow's sale.
