The sitting room stove and kitchen range worked equally as well. I had of dry kindling, from knocking up packing boxes, and there was no rouble at all getting things comfortable for the family. I am not claiming, mind you, that I actually enjoyed craw mind you, that I actually enjoyed craw-ling out at that hour to build fires but I haven't expected to find country life all a bed of roses, and it wasn't as bad as my forebodings had pictured it. Of course, it wasn't really cold this morning, but by next winter I will be better equipped and will have had more experience.

I'll confess I got cold feet when I con-templated the two-mile walk to the sta-tion—and my feet got cold literally while was taking it. There are four or flye

I am going to make a hopper from which to feed this and it will be kept in front of the hens all the time. I decided not to add either alfalfa meal or cut clover, because as soon as the snow is off the ground there'll be plenty of grass and other green food for them. Jane and the boys have undertaken to feed and care for the chickens, so my only part will be an advisory one.

It's going to be a big job to clean out that hog pen and yard and get them ready for the two bigs! I have engaged from Mr. Brown. It doesn't look as if it ever had been cleaned, but several tons of manure for my garden will pay for the work. I'll get a wheelbarrow and shovel and go at it, and as Mr. Brown says it will be a month before the pigs are old enough to take from their mother I ought to have no trouble getting the place ready.

It doesn't look as it they ever had been pruned, and they need spraying, of course. There isn't enough of the fruit to justify me in going to any considerable expense, but the improved quality undoubtedly would pay for my work, if I only knew what work to do. It's apparent here is a place I need expert advice, so I think I'll pay a visit to the fruit men of the Department of Agriculture.

What's the trouble?"
Fred didn't know, but started to rustle. The rest of the gallery was rushing about like so many wild things. Telephone calls went flashing to police headquarters and to the various police precincts. No one had heard of any assassination.
Then Donaldson called up the telephone operator who had spread the rumor and came back to the inner circle a few seconds later with this explanation:
"She says some one has been killed in

"She says some one has been killed in the Senate." Well-that made it about nine thousand Well—that made it about nine thousand times worse, and that galleryful of newspaper men just about collapsed.

But it all straightened itself out in a minute. The telephone operator shamedly called up and said she was mistaken. Something had been killed, and she saw it in the paper, but it wasn't exactly an assassination. You see, she had read that the Senate committee on the District of Columbia had killed one of the items in the District bill as it had passed the House. It was an item of importance and the newspaper she had glanced at used the words "Senate" and "House" and "kill" in display form.

So the assassination rumor was assassinated on the spot.

Upon the issuance a short time ago of the pronunclamento of the death of the republican party, by Representative Hinebaugh, chairman of the progressive congressional committee, the secretary of one of his republican colleagues from Illinois broke forth in the following thansady: rhapsody:

When the lion eats grass like an ox And the fishworm swallows the whale; When terraphs knit woollen socks And the hare is outrun by the snail;

When serpents walk upright like men And the doodle-bugs travel like frogs When grasshoppers feed on the hen And feathers are found on the bog;

When Thomas cats swim in the air And elephants roost upon trees; When insects in summer are rare And snuff never makes people sneeze

When fish creep over dry land And mules on blcycles ride; When foxes lay eggs in the sand And women in dress take no pride;

When Dutchmen no longer drink beer And girls get to preaching on time; When billy goats but from the rear And treason is no longer a crime;

When humming birds bray like an ass And limberger smells like cologne; When plowshares are made of glass And the hearts of the people are stone;

A recent incident have reminded me, if a personal reminiscence may be allowed, of a quick trip from New York to Washington to attend a wedding. The property has been sold and the ngregation will move at once to Faith Chapel, on M street, where it will hold regular services temporarily until the completion of their new building at the orner of 6th and H streets.

Pastor Lutz will speak on "Paul's Message to Titus" in the morning, and at the evening service he will answer the question, "Should a Christian Dance?"

The women will serve a farewell Dutch supper in the old church March 17 and 18.

The Northern Baptist convention has recommended that churches of the denomination observe tomorrow as "Denominational day."

Various Baptist pastors will preach special sermons at the morning service dealing with denominational belief, history and progress.

Rev. Dr. J. J. Muir, pastor of Temple Baptist Church, is one of the local pastors who will observe the day.

Dr. Hulbert declared that we have a sixth sense, or movement-feeling sense. Besides the special centers in the brain which gave meaning to the impressions received by the sense organs from the outside world, other very special centers had been discovered existing on one side of the brain only, which had to do with understanding and expressing words. It might be possible to see a word quite well with one's double-sight center, but not to be able to understand it if anything were wrong with the one sided not to be able to understand it if anything were wrong with the one sided visual word-understanding center, and in that case one would be classed with the mentally deficient as suffering from "word blindness." If one were able to hear a word distinctly with the double-hearing center, but unable to understand it with the one-sided auditory word-understanding center, one was said to be suffering from "word deafness." There was also a special one-sided center for understanding center, one was said to be suffering from "word deafness." There was also a special one-sided center for writing words, and the well known one-sided center for speaking words.

To take the understanding of the familiar word "home" as an illustration, some would argue that they got the fullest appreciation of its meanting when they saw it in print, others when they heard it feelingly spoken, but few realized the added appreciation that came from speaking it correctly. No sooner was the word musically pronounced than a much fuller appreciation of the old ballad. "Home. Sweet Home," became possible, The conveyance of its meaning was much more dependent upon the movement-feeling sense than many were apt to think.
