HOPE FOR DISTRICT

LEGISLATION WANES IN BIG HOUSE JAM

Rules Committee Head Says Chance for Another Day Is Slim.

MANY IMPORTANT BILLS HANG FIRE: 12 DAYS LEFT

Two Years Frittered Away by Focht's Associates, Declares Chairman Campbell.

Chairman Campbell of the House rules committee made it plain today that as far as he can see now it will be impossible to grant the House Dis-trict committee another day in which to call up the teachers' salary bill or other important legislation.

Mr. Campbell expressed the opinion that the only chance Chairman Focht of the District committee has to get the teachers' salary bill through the House is to notify the Speaker that he will move to suspend the rules to put the bill through.

It is known that Speaker Gillett would not be in favor of such a course, as he believes the teachers pay bill is not the character of legislation that should be considered under suspension of rules with a limited time cutting off all debate. Blames District Committee.

Chairman Campbell expressed himself as very sympathetic to the Disself as very sympathetic to the Dis-trict and to the school teachers. He said that if he had it in his power he would be glad to put the District he would be glad to put the District District By Cable to The Star. said that if he had it in his power he would be glad to put the District committee in for another day, but the District committee in for another day, but has been, perhaps, the most extraordinary day in the whole history of dinary day in the whole history of last two years, and that it is unfair in the closing jam of this Congress to push other important committees and general legislation aside to correct the shortcomings of the District com-mittee."

Chairman Campbell displayed four special rules, all on important general legislation, which must be given privileged status now. He pointed out that the House is now in its third day on another measure, the omni-bus Navy bill, which should have been settled in one day.

endar.
With only twelve legislative days left, he explained, it will be impossible to meet all these demands. Regarding the character of important legislation that is waiting. Mr. Campbell consulted the calendar of the military affairs committee, which has twenty-one important bills awaiting action. He said that the udiciary committee has a number of administration matters, including a measure to house woman criminals and to give additional room in federal penitentiaries.

Republican Senators, However, May Approve Paying Lost Salary.

The republican members of the Senate committee on contingent expenses of the Senate, it was reported today, are unwilling to bring about an investigation of the dismissal of the twenty-eight employes of the bureau of engraving and printing last year by executive order.

It is believed, however, that they might be willing to support a measure to pay these dimissed employes the back salary due them for the period since their dismissal.

The committee is to meet again this afternoon to consider further the Caraway regolution which calls for an investigation of the dismissal of these

Representatives of the dismissed bureau of engraving and printing chiefs today charged that the Senate committee on audit and control, which is considering a resolution by Senator Caraway of Arkansas to investigate the dismissals, has refused to grant hearing to either the dismissed chiefs or their friends.

Charles B. Brewer, special investigator of the Department of Justice who, it is understood, was instrumental in filing the original charges on which President Harding based his action, already has been heard by the committee and, according to authoritative information, he was unable to substantiate his original charges. Friends of the dismissed chiefs assert that the action of the committee is a serious perversion of justice and that it has shown grave bias in re-fusing to hear both sides of the ques-

BRITISH LABORITES SEND APPEAL TO PRESIDENT

Eighty-Eight Members of Commons Ask Mr. Harding to Save Europe.

Consequently, Howard Carter was very hasy inside the tomb all mornvery hasy inside the tomb all morning with Professor Brested and Dr. Allan Gardiner, whose assistance has been invaluable from the beginning of the work of examining seals and deciphering and copying inscriptions of all kinds. They had finished by noon, and the tomb was closed until after luncheon, at which Lord Carnaryon, Carter and Lady Evelyn Herbert entertained all those invited to be present today.

B. & O. DEMANDS U. S. VACATE PLAZA HOTEL BUILDINGS

1.900 Women May Be Forced to Seek Other Shelter by Conclusion of Lease.

EASED BY CONTRACT FOR "WAR PURPOSES"

Railroad Places Site in Hands of Realty Firm-"For Sales" Signs to Be Erected.

Relinquishment by the government of the property in squares 630 and 681 and part of square 680, on the Union station plaza, now occupied by the government hotels, has been re-quested by the Baltimore and Ohio ailroad, Secretary of Labor Davis announced today. The railroad, which owns the property in question and which leased it to the govern ment under a contract signed July 9 918, "for war purposes," requests that the property be vacated by April 1,

property promptly, the railroad com-pany has placed it in the hands of the Thomas J. Fisher Company, a real estate firm, and has authorized the erection of "for sale" signs on it. The government has been urged by the railroad to instruct the superintend-ent in charge of the buildings not to permit any one to interfere with the

ce tut tut the Earl of Carnarvon.)

By Cable to The Star.

LUXOR, Egypt, February 16.—This thas been, perhaps, the most extraordinary day in the whole history of Egyptian excavation. Whatever any one may have guessed or imagined of the secret of Tutankhamen's tombot truth as now revealed.

The entrance today was made into the sealed chamber of the tomb of Tutankhamen, and yet another door opened beyond that No eyes have yet ascent he king, but to practical certainty we know that he lies there close at hand in all his original state, undisturbed.

More Treesure.

ent in charge of the buildings not to permit any one to interfere with the signs.

More than 1.900 woman occupants of the government hostelies, who make their permanent homes in Washington at the government hostelies, will be either forced to seek residence elsewhere or will be put to great inconvenience if the government vacates the buildings on the property owned by the railroad, as requested. The various buildings located on squares 632 and 681, according to secretary Davis, constitute the most vital part of the entire plant and would in all probability necessitate the abandonment of the entire project.

Unable to Pay Rental.

The government is presented in the role of the tenant who is unable, due o existing statutes, to pay rental or the property leased from the railroad In a letter to C. H. Moran, real estate agent of the Bal-timore and Ohio, dated February 12, Secretary Davis says that the gov-It is such a hoard as the most sanguine excavator can hardly have pictured, even in visions in his sleep and puts Lord Carnarvon's and Mr. Carter's discovery in a class by itself and above all previous finds.

Though the official opening of the sealed mortuary chamber of the tomb has been fixed for Sunday, it was obviously impossible to postpone until then the actual work of breaking in the entrance. This was a job involving some hours of work, because it had to be done with the greatest care, so as to keep intact as many of the seals as possible, and also to avoid injury to any of the objects on the other side which might be caused by the falling material dislodged.

Unpleasant Atmosphere.

All this could not be done on Sunday while the official guests were kept waiting in the singularly unpleasant atmosphere of the tomb, so an agreement was made with the Egyptian authorities by which the actual breaking through of the wall should be done in their presence today.

Consequently, Howard Carter was a servery trays the distance of the contract or agreeding the servery of the contract or agreeding the servery of the servery of the contract or agreeding the servery of the servery of the property was asked by the Servery of the property was ernment is prohibited from paying

Mr. Moran, in reply, said the situation had changed after the agreemen had terminated one year after ratification of the treaties of peace, or on General Daugherty had filed a repor with the Senate in reply to a Senate after luncheon, at which Lord Carnaryon, Carter and Lady Evelyn Herbert entertained all those invited to be present today.

It was after 1 o'clock when the official party entered the tomb, and the operation was begun which was to result in such astounding discoveries, of which I am able to give the following authoritative description:

Details of Opening.

Today between the hours of 1 and 3 in the afternoon the culminating moment in the discovery of Tutankhamen's tomb took place when Lord Carnaryen and Howard Carter opened the inner sealed doorway in the presence of Lady Evelyn Herbert, Abdel Hamld Suliman Pasha, undersecretary of public works; Pierre Lacau,

The letter of the government of the property, in which he held that the government had, in good faith, abandoned its intention to secure the property, and Mr. Moran further claimed that abandonment of the property, and Mr. Moran further claimed that abandonment of the intention to acquire the property by condemnation proceedings means that the owner (the Baltimore and Ohio Railroad) is no longer hampered in the disposition or use of the property. In support of his contentions, Mr. Moran claimed that the property had lain idle for almost a dozen years, that the railroad company had paid taxes on it all this time, and added that the lease was a war measure executed because the railroad company wished to help the government as much as possible during the years, that the labor Secretary, and mr. Moran further claimed that the property, in which he held that the property, and from the claimed that the property had lain its intention to a resolution inquiring as to permanen

ence of Lady Evelyn Herbert, Abdel Hamid Suliman Pasha, undersecretary of public works; Pierre Lacau, director general of the antiquities department; Sir William Garstin, Sir Charles Cust. Mr. Lythgoe, the curator of the Metropolitan Museum of Art of New York; Mr. Winlock, director of the Egyptian expedition of the Metropolitan Museum, together with other representatives of the government.

The process of opening this doorway, bearing the royal insignia and decorated with religious texts, and so far the outer face of the Inner tabernacle is similarly gilded and so far the outer face of the Inner tabernacle inspired one.

On the door of the inner tabernacle the original seals seem yet unbroken. The robbers do not appear to have penetrated it. We made no attempt to open it today, simply because it was impossible. Apparently the inner door will not be opened until the outer wall is removed. It must have been shut and sealed and the outer wall is removed. It must have been shut and sealed and the outer wall is removed. It must have been shut and sealed and the outer wall is removed. It must have well then erected around it. It will, therefore, I conjecture, be necessary to pull down the outer screening wall before the inner shrine is opened. This will be quite an undertaking in the narrow space.

Paddles for Hereafter.

wall then erected around it. It will, therefore, I conjecture, be necessary to pull down the outer screening and occupy same for the period of the wall before the inner shrine is opened. This will be quite an undertaking in the narrow space.

Paddles for Hereafter.

Among the individual objects I noticed besides the oars, or paddles, for the use of the deceased in the hereafter, were some alabaster vases, seemingly of the finest quality, and a piece of some sort of jewelry lying huddled on the floor, where one may suppose they had been thrown by robbers.

From the foregoing it will be evident that we have really arrived at the sepulchre of an old Egyptian king unviolated by robbers and until twelve months after the exchange of the finel reading the exchange of the finel reading the extended the same, unless two until twelve months after the exchange of the finel reading to the exchange of the finel reading to the exchange of the finel reading to the more income. Secretary Davis in one of his letters to the agent of the railroad suggested that the entire matter be brought to the attention of Congress.

From the foregoing it will be evident that we have really arrived at the sepulchre of an old Egyptian king unviolated by robbers and until twelve months after the exchange of the final ratification of the treaty or treaties of peace which shall: conclude the same, unless two United States of America desires sooner to terminate the said temporary occupation.

Secretary Davis in one of his letters to the agent of the railroad suggested that the entire matter be brought to the attention of Congress of the congress of the congress of the congress of the said he had sent copies of the Senate and House committees on public buildings and grounds which exchange of the Senate and House committees on public buildings and grounds which exchange of the Senate and House committees on public buildings and grounds which exchange of the Senate and House committees on public buildings and grounds which exchange of the Senate and H
