The Weather

Washington, although it may shive and complain at the cold wave sweep ing over the town today, must remember that it has little ground fo grumbling about the winter as a whole. Winter has gone, now, and compared with the experience of New York and the New England states our climate has been notably salubrious. Maine and Massachusetts have had a season of almost unparalleled snowfall, while we have had comparatively none. The northwestern states, too, have passed through a rigorous season, with temperature far below zero most of the

time. Two conditions contribute to shield the National Capital from severe winter conditions which may prevail in cities within a couple of hundred miles of us. The Blue Ridge and the Allegheny mountains form a natural barrier, turning most of the southwestern storms on a course which gives Washington a wide berth. Proximity to the waters of Chesapeake

bay warms the atmosphere. It is said the Lord tempers the wind to the shorn lamb, and Washington. in the shortage of coal, should feel winter. So, if we shiver today, let us be thankful for the weather we have enjoyed and hope for a delightful

But it might be foundation for stories of overcharging called a metamorphic word because it in connection with Shrine week.

Speed. The air speed record has been broken again. In fact, it was broken twice on the same day by two American fliers. The highest speed now official record is 243 miles for four laps around a one-kilometer course. About two months ago a Frenchman broke the record held by an American aviator by covering the prescribed course at the rate of 233 miles an hour. That was a big advance in speed, and was commented on throughout the world. On the same day, and same course on which the latest speed miles an hour, another American flew at 236.5 miles an hour. The old standard of "a mile a minute," which seemed to many of us as the limit of brand they acquired. The government is no miracle speed which mortals could reach, has ing faster day by day, and men feel winter was over before going on hour the flier was going through the

> Whether or not the subscribers to elevation of their guns seems to be no less moot a question than what the temperature is to be tomorrow morn-

It is peculiarly fitting that an Amer ican Army flier should establish a new speed record over the course where the Wright brothers developed the

airplane.

Spring fashions are so attractive that it is difficult to blame winter for coming back to have a look at the Easter style parade.

Rejoicing that this is the last day of the "coal year" is dampened by the fact that another coal year begins tomorrow.

Seeing Washington.

The annual migration to Washington of seminaries and high schools is under way, and these large and interesting bodies of student visitors will become more numerous as spring advances. It is a movement which has rown within recent years, and it is no doubt safe to forecast that it will continue to grow. It is pleasing to Washington that these student bodies grateful for the blessings of a mild come. That it is helpful to them has been proved. Many high schools in the adjoining states and those close to Washington, as Delaware, Pennsyl vania and New Jersey come to Washington every spring. Many come from the New England states, and the movement has become strong in west child's drawing of the Alps and the once makes its Washington excursion it comes the next year and the next The excursion becomes one of the big things to which the school looks for ward and on which it looks back Teachers comment on the stimulating effect of the Washington excursion or pupils, and especially in their study of history and government. The ex perience of an excursion to Washing It is regrettable that there cannot ton, with two or three days of hard be automobile reciprocity between the work at seeing the show places, gives District and Maryland during Shrine each visiting pupil one of the greatest week. WASHINGTON OBSERVATIONS

BY FREDERIC WILLIAM WILE

for the "dirt farmer" position on the The red fez is one of the distinguish-Reserve Board when Campbell was without banking experience, but is a real farmer and has made a political reputation in Kansas as a county commissioner at Chanute.

> Huston Thompson, whom Woodrow Wilson has nominated for United States senator from Colorado, has een contributing articles to Henry Ford's They deal with the policies and problems of the Federal Trade Commission, of which the young Colorado lawyer is a member. Thompson discloses a bit of his political theory in the latest article. He defines as "the greatest social problem of our time, the absorption of our political and economic philosophy by an engulfing mercantilism."

Men and organizations in charge welcoming the Shriners to Washsome interesting figures. They expect the normal population of the deposits in the formight of the Shriners' sojourn at the golden gate in 1922 were \$22,000,000, greater than in any previous two weeks on record. As San Francisco entertained only minety temples and Washington expects 130 or 140 with a correspondingly heavier attendance, the wealth likely to pile up in District banks is easily calculable. San Franciscans raised \$400,000 for the Shrine conclave, and spent \$298,000. Washington is trying to mobilize a fund of \$300,000. The capital's piece de resistance in the way of decorative glory will be the "Garden of Allah," to be planted in Pennsylvania avenue, past the White House, between 15th and 17th streets. capital to be doubled by an influx of

is always in favor of the statue or building."

In the dispute as to whether Washington or Jackson should occupy the prominent position opposite the White House if either were now without memorials, "the greatest distinction should be given to Washington, of course," the Raleigh News and Observer (democratic) concedes; "but there is not honor to any man in Washington equal to the stately Washington Monument, which tow was over all else in Washington towered over all other Americans. No additional honor is needed or could be given the great Virginian. It would add no whit to his prestige to give him a distinction long ago conferred upon Jackson and would be an affront to the memory of the Tennesseean."

Granting that Jackson "should be

of the Tennesseean.

Granting that Jackson "should be memorialized in the city of Washington," the Chicago Post (independent republican) is, nevertheless, at a less to understand "just why an atrocity. in bronze should be allowed to do th memorializing." To this position th Buffalo Times (democratic) repli-

Buffalo Times (democratic) replies that "the statue, we are told, is a poor work of art. That is neither here nor there. The only valid excuse for taking down Jackson's statue would be to put up a better statue of Jackson in its stead."

The important question to the Cincinnati Enquirer (democratic) in the controversy is, "what good purps can such removal and substitutif in serve?" In the absence of convincing reply to that question, it asks again. "Why not permit the stern old democrat, statesman and soldier to sit his charger there in perpetuity? Everybody expects to find him there. It is there that he belongs. In any other setting he scarcely would be the same to the thousands and thousands who annually look up to him with friendly, reverent approval. To move him

Colored Mammy Design Opposed.

To the Editor of The Star:

As you know, there has been money appropriated for the erection of a statue commemorating the colored true type of colored manney, in-

statue commemorating the colored mammy of bygone days.

A picture in The Star of March 22, 1923, portraying a suggested design for the aforementioned statue, created

The picture in no way depicts the true type of colored mammy, inversely it gives the colored race a chance for complaint, and I for one would suggest a truer, nobler model than the one shown.
