

TWO FARM-LABOR LEADERS RESIGN

Nebraska Committeemen As-
sert Foster Indorsement
Was "Double Cross."

By the Associated Press.
OMAHA, Neb., July 14.—Alleging they have been "double-crossed" by the executive committee of the National Farmer-Labor Party in the indorsement of W. Z. Foster and Ben Gitlow as the presidential and vice presidential candidates of the Workers' Party of America, W. H. Greene and Ray J. L. Beebe of Omaha, national committeemen for Nebraska of the National Farmer-Labor Party, last night telegraphed their resignations to C. A. Hathaway, national secretary of the National Farmer-Labor Party, at St. Paul, they declared.

Declaring the executive committee of the party, which last month met at St. Paul and put Duncan McDonald and William Bouck on the Farmer-Labor national ticket, was instructed to carry on negotiations and submit the findings to the national committee, had failed to do so, the telegram asserts.

Assert No Report Made.
"No report has been made to the national committee. It appears that McDonald and Bouck have been withdrawn as candidates for the national Farmer-Labor ticket, and a group purporting to be the national executive committee of the National Farmer-Labor Party have indorsed the candidacy of W. Z. Foster and Ben Gitlow as candidates on the Workers' Party ticket, contrary to the spirit and intention of the St. Paul convention."

"This indorsement was without moral or legal authority, and we shall not feel bound by any such action."

The estimated number of tractors in use on American farms is 450,000.

Bath Parties Style In Berlin Due to Big Coal Shortage

By the Associated Press.
BERLIN, July 14.—Bath parties are all the go in Berlin just now. In order to economize on coal, all apartment house owners have stopped the daily supply of hot water, providing it only twice a month, or, in some of the more expensive houses, one day each week. As a consequence neighbors have taken to the exchange of bathing privileges and have regular schedules. "Hot-water day" is the event of the week among apartment dwellers, and after the family bathes, favored neighbors are invited in from other houses and they reciprocate when their good day rolls around.

Youth Drowns in James River.

Special Dispatch to The Star.
LYNCHBURG, Va., July 14.—While swimming yesterday Mayo Davies, eighteen, son of Mr. and Mrs. Lee Davies of Reusens, a suburb of Lynchburg, was drowned in the James River. Companions noticed that he appeared to turn over when he threw up his hands and sunk. The body was recovered and a pulmotor used in vain efforts to revive him.

MINISTERS WANT GERMANY IN LEAGUE

Premiers of Little Entente Also Agree on Action Toward Russian Recognition.

By the Associated Press.
PRAGUE, Czechoslovakia, July 14.—Unity of action on the admission of Germany to the league of nations and a general agreement on their attitude toward the Russian Soviet government was announced by the foreign ministers of the little entente as accomplishments of their two-day session, which ended here Saturday night. Dr. Benes, foreign minister of Czechoslovakia, said Germany ought to be admitted to the league, but only under conditions that would make her membership contribute toward the pacification of Europe. This question, he added, might be discussed after the powers had agreed on the application of the Davies report. Foreign Minister Duca of Rumania said recognition of the Soviet was a question for each nation, rather than for joint action by the little entente. He had, however, the support of his

NOTED INVENTOR DIES.

Perfected Device Used Successfully in Healing Rheumatism.

NEW YORK, July 14.—Oscar Newhouse, inventor of a device which Bellevue Hospital officials stated had proved successful in the amelioration of rheumatism cases, died of heart trouble yesterday. He was sixty-five years old. Mr. Newhouse's machine had been employed for about a year by the staff of Bellevue for the treatment of nerve and rheumatism patients. Dr. John O'Hanlon, superintendent, said, according to Benjamin Hamilton, a close friend of Mr. Newhouse, the inventor claimed that his machine had therapeutic value in the treatment of persons suffering from heart trouble. Mr. Hamilton asserted that he had effected many cures.

HUSBAND IS DEAD, WIFE SHOT IN SUICIDE PACT

Shoot Selves Within Few Yards of Houston, Tex., Municipal Golf Course.

By the Associated Press.
HOUSTON, Tex., July 14.—Within a few yards of the Houston municipal golf course fairway, upon which a few twosomes and foursomes still lingered, John Kendrick and his wife shot themselves in a suicide pact late yesterday afternoon. Kendrick is dead. A bullet from a heavy caliber revolver passed through his heart. Mrs. Kendrick, was taken to a hospital, a gaping wound in her breast.

SEEKS HONDURAN OFFICE.

Louis Bogran to Run With Backing of Rebel Groups.
NEW ORLEANS, July 14.—Louis Bogran, son of a former president of

Honduras and member of one of the wealthiest families in central America, has been agreed upon by leaders of the revolutionary forces in the recent uprising as a candidate for president of that republic at the forthcoming election, according to what is said to have been reliable information received yesterday in the Honduran colony here from Tegucigalpa. Mr. Bogran, civil engineer and graduate of the University of Indiana, is thirty-eight years old. He is at present in Washington and is quoted in press dispatches as having consented to make the race only after all factions had assured him of their support.

Ten Reasons: Why You Should Own the Famous ILLINOIS STERLING WATCH

1. It has a double roller escapement which insures the watch against overbanking—a safety device.
2. It has a bruiquet hair spring, which gives perfect circular vibration—used only in the high-grade watches.
3. It has a steel escapement with chamfered tooth edge—which reduces friction and insures long life.
4. It has preferred ruby and sapphire jewels, selected for their perfection and hardness.
5. It has temperature adjustments, thereby eliminating variation in different temperatures.
6. It has a compensating cut balance, which guarantees dependability.
7. It has a patented micrometer screw regulator—an added feature for close regulating.
8. It has a safety recolling click, which prevents the main spring from releasing.
9. It is cased and timed carefully at the factory to insure absolute timekeeping accuracy from the moment of purchase.
10. If it fails to give satisfaction we are authorized by the factory to replace with a new movement.
