**CHAMPIONS . . .** their victories result from stamina. From that fine co-ordination of trained mind and sturdy muscle. From a perfect blend of "knowing how"—how to play the game, and how to keep fit for the game.

To keep fit, you must watch the little things that contribute greatly to health and stamina. Perhaps the best example is The Danger Line—that tiny V-shaped crevice where teeth meet gums. For at The Danger Line food particles collect and ferment, forming acids which attack the teeth and irritate the gums, causing Acid Decay and conditions favorable to devastating pyorrhea.

Use Squibb's Dental Cream**

Your dentist—any dentist—will approve milk of magnesia for counteracting acids in the mouth which cause decay. Squibb's Dental Cream is made with Squibb's Milk of Magnesia. It will prevent Acid Decay, not only at The Danger Line, but every other place on your teeth where trouble may begin. It will reduce the chances of pyorrhea. It will protect for hours after use. It will soothe and strengthen tender, bleeding gums and allay sensitiveness. And it cleans and brightens thoroughly.

Standardize on Squibb's Dental Cream in your home. Enjoy better, prettier teeth. Safeguard and promote the health of all the family. Buy the large tube to-day.
