A relic of the past. This silver sword headdress, still worn by women in the Fochow district of southern China, is said to have originated from the old custom of women thus carrying swords to protect themselves from bandits descending from the hills.

This snapshot of Gen. Carmona, Portuguese President and military dictator, was made just after the termination of the last revolution, which he successfully suppressed.

## Speaking of Waves THE WAVES ACROSS THE SEA ARE EUGENE WAVES

That is—nine-tenths of them are—for London and Paris learned long ago that the Eugene technique alone achieves the perfect permanent. . . There are reasons, of course—very clear and logical reasons. . . .

—There's the Eugene Automatic Curler that permits the hair to be wound dry, smooth and perfectly flat, tightening it gently, without undue pulling and stretching.

—There's the patented Eugeneol Perforated Sachet which concentrates its myriad pressure-jets of clean, white steam, just where their persuasive power is needed.

—There's the Eugene Two-Sectional doubly-controlled Steamer, waving every length of hair precisely the right length of time. . . Scientific things to be sure, but highly important to you in their perfect results.

The Eugene Method is totally unlike the old methods that drench the hair with liquid chemicals, that wind it wet and bake it dry—often affecting its strength, its color and its true natural lustre.

The Eugene Method's dry winding and its steaming through the Eugeneol Perforated Sachet (illustrated) produce the graceful, undulating waves of the mode.

May we send you our booklet "The Eugene Method"? . . . It explains why the Eugene waver asks a higher price—and tells why his work is worth it. . . . The names of nearby Eugene Wavers are included upon request.
