THERE is a well-defined rumor afloat that we have sold our business and our new building now in the course of construction at 14th and F Streets. There is not a word of truth in this report. It is true that we have been approached by some of the largest organizations in this country and urged to sell, but we have steadfastly refused, as our regard for our organization which we have built up and for the public which has stood by us so loyally, would prevent our entertaining the thought.
