

MILITIA GUARDS OKLAHOMA WELLS

Col. Murray's New Order Follows Charge of Illegal Production of Oil.

By the Associated Press.
OKLAHOMA CITY, October 2.—The military lid on Oklahoma's flush oil wells was pounded down vigorously yesterday and National Guardsmen again were ordered into the cluster of great gushers on the doorstep of Oklahoma City to keep it in place.

New orders of Lieut. Col. Cicero I. Murray, generalissimo of the martial law shutdown effected nearly two months ago by his cousin, Gov. William H. Murray, particularly hushed what operations remained in the Oklahoma City field. The orders followed charges of royalty owners of illegal production and oil runs under the cover of night.

Gov. Murray has signified his intention of keeping the wells closed until oil prices increase to a dollar a barrel. Late in the day Adj. Gen. Charles F. Barrett assigned seven National Guard officers to night motor patrol in the field. For weeks the shutdown has been enforced by State and oil company civilian officers without the actual presence of the military.

Taking enforcement into his own hands, Col. Murray directed:

1.—An almost complete shutdown of Oklahoma City field production, barring completion of testing of wells or any production except under emergency conditions and with the sanction of the commanding officer.

2.—Discontinuation of pumping from storage or flow tanks at night.

3.—Shutdown of the Carr City pool in Seminole County with the exception of three leases and a warning to Seminole area operators that if any except leases exceed their allowable flow under the military order at the time of the next report the leases will be shut down.

WOMAN'S SLAYING MOTIVE IS SOUGHT

Hint That She Would Be Killed by Cleveland Man Probed by Police.

By the Associated Press.

HARRISBURG, Pa., October 2.—Enlisting the aid of Cleveland authorities, police today began tracing the career of Doris Whitmore, 30, in an effort to uncover a possible motive for her slaying here yesterday.

The woman's body was found lying on a bed in her house here, her skull fractured. The Dauphin County coroner found she had been killed with a "blunt instrument."

A neighbor said Mrs. Whitmore had told her if she were ever found dead she would have been killed by a Cleveland man. Police yesterday found Mrs. Whitmore at one time lived in Cleveland.

Robbery was one motive considered by police. Although the woman wore a diamond ring and wrist watch when found, authorities pointed out the \$12 they found in a closet was probably a great deal less than Mrs. Whitmore had when killed.

HAY FEVER PATIENTS SUFFER IN OPEN AIR

Study at Illinois U. Shows Comfort Gone as Soon as They Leave Pollen-Free Room.

By the Associated Press.

CHICAGO, October 2.—Now that hay fever days are over, the story can be told.

Experiments conducted with more than 100 men and women suffering with the affliction, at the University of Illinois Research Hospital, failed in at least one respect.

The patients, given eight-hour turns in the pollen-free eight-bed ward, were relieved of their sufferings as long as they were in the room. As soon as they stepped forth into the open again, their resistance lasted only until they took the first sniff of untampered air.

STAR LEGION HONORS MOTHERS OF WAR DEAD

Cleveland Convention Will End Today—Veterans Tender Guests Luncheon.

By the Associated Press.

CLEVELAND, October 2.—Women of the Service Star Legion, in national convention here, paid tribute yesterday to the mothers of soldiers killed in the World War.

Gold Star Mothers were the guests of the legion at a luncheon, presided over by the national president, Mrs. F. W. Withett of Fort Valley, Ga., herself a wearer of the gold star.

A half-hour memorial service, at which taps were blown in memory of the war dead, brought the day's activities to a close. The convention will end today.

PACIFIC FLYERS PLAN TO TAKE OFF TOMORROW

Pangborn and Herndon Smear Wings of Plane With Substance to Combat Ice and Sleet.

By the Associated Press.

SAMUSHIRO, Japan, October 2.—Clyde Pangborn and Hugh Herndon, American flyers, hope to take off here early tomorrow on their projected transpacific flight to the United States. Preparing for the flight, they smeared the wings of their plane today with a substance resembling molasses to prevent the formation of ice in case they encounter sleet.

Pangborn and Herndon are after the \$25,000 prize offered by a Japanese newspaper for the first non-stop transpacific airplane flight.

WED 18 YEARS, MAN SUES Bladensburg Resident Accuses Wife of Deserting Him.

By a Staff Correspondent of The Star.

UPPER MARLBORO, Md., October 2.—Accusing his wife, Beatrice Tallman, of deserting him after 18 years of married life, La Vere Tallman of Bladensburg yesterday brought suit in Circuit Court here for an absolute divorce.

The couple were married in New Jersey in 1910, and the husband tells the court his wife left him in August, 1928. They have two children, Harold, 19, and Henry, 14, now in the custody of their father.

Through Attorney J. Ridley Shields, the husband petitions for a divorce and permanent custody of the children.

Stamp Licking Attacked.

What is called the "pernicious habit" of licking postage stamps is being attacked in a campaign recently started in France. The campaigners declare: "This habit is dangerous. Microbes are carried by stamps. Even poisons may be absorbed from the dyes."
