Lewis Sees Russian Invasion of Alaska While Japan Attacks Philippines.

A Russo-Jananese union directed at the United States was forecast last night by Senator J. Hamilton Lewis, Democrat, of Illinois, in a speech in the National Radio Forum, arranged by The Washington Star and broadcast over a Nationwide network of the National Broadcasting Co.

Discussing the present situation in he Far East, Senator Lewis declared at the outset that Japan seeks to become the overlord of Asia-that she 'is preparing an Asiatic Monroe Doc-

trine."

Both Japan and Russia, he continued, have grievances against this country, the former by reason of the exclusion act and the latter because of non-

#### Union With Russia.

With such a condition of affairs, Senator Lowis continued, "let it be expected that soon America will confront a union of Japan and Russia. "This will confront the United States with a defiance, and at such hour we will be fortunate if under the guise of some alleged offense by the United States Russia will not be incited by influences to seize Alaska, her former possession, now disclosed as rich in all resources. At the same time as this invasion Japan will move to take the Philippines for all their uses."

#### Opposes Arms Conference.

In view of this, Senator Lewis said, he opposes the arms conference now in progress, believing that "any effort lessen the national defense of our country or to weaken its power to defend itself against the combination which now threatens is a serious error filled with tragedy."

Possession of China Is Object. Let it be understood that the conroversy of Japan for the railroad and that of China for the possession of its neighboring land, Manchuria, now of Chinese occupation, as well as the claim of Russia for the road, as asserted from Moscow, has for its object the possession of China and adjacent territory. With this consummated there will be a continuous control from Japan to the border of Siberia. This connection between Japan and Siberia will leave Japan as the master director in the affairs of Asia. This is the ulti-

mate object and apparently the prime purpose of Japan. You will observe that the scheme to pacify and supervise all Asia is a natural one on the part of Japan. It is one that could have been expected, particularly by the United States of America. And it should have been anticipated when one considers the history of the immediate past and pros-pect of the present. Japan patterns States. We will not forget that we took such course in behalf of our own United States to pacify North America when later the Central American countries.

### Cites Japanese Aims
