

Gates on Stand to End 14 Days of Questioning In Red Leaders' Trial

NEW YORK, June 14.—John Gates, editor of the Daily Worker, was called back to the witness stand today for the windup of 14 days of questioning at the Communist conspiracy trial.

Gates is the first of the 11 defendants to testify at the 92-day-old trial in Federal Court.

His lawyer, Harry Sachse, drew another rebuke yesterday from Judge Harold R. Medina for demanding the admission of certain evidence after the judge had ruled it out.

Seeks "Rehabilitation." The defense lawyer said he was trying to "rehabilitate" Gates after six days of cross-examination.

Yesterday's questioning developed again the fact that Gates after opposing this country's involvement in the war during the Hitler-Stalin pact, urged American entry after Hitler invaded Russia.

Mr. Sachse failed in efforts to introduce documents to support part of Gates' previous testimony. The court rejected passages from two books—"Mission to Moscow," by former Ambassador Joseph E. Davies, and "A Time for Decision," by former Undersecretary of State Sumner Welles.

Mr. Sachse indicated he wanted to show that Gates used data from both books to support Soviet explanations for the Hitler-Stalin non-aggression pact.

Borah Speech Rejected. Judge Medina also rejected a speech by the late Senator Borah of Idaho in the Congressional record of 1919. Mr. Sachse said it was intended to show the United States intervened with arms in Siberia.

Gates had testified that he believes the United States was guilty on several occasions of waging undeclared wars.

The 11 defendants—who compose the Communist Party's American Politburo—are charged with conspiracy to advocate overthrow of the Government by force and violence.

Alexandria Woman Gets Term for Fire Attempt

An Alexandria woman yesterday was sentenced to two and one-half years in prison for trying to set fire to her landlady's house.

Mrs. Lillibelle Jarrett, 32, colored, of the 800 block Montgomery street, was convicted recently for attempting to burn the home of Mrs. Henrietta Edwards, also colored, of the same address. Sentence was imposed yesterday in Alexandria Municipal Court by Judge William P. Woods.

Police said the attempted arson followed an argument between the two women. They said Mrs. Jarrett succeeded only in scorching the front door.

Weather Report

District of Columbia—Fair most of the time, but some cloudiness. Continued warm and humid. Highest around 88 this afternoon and lowest tonight about 72.

Wednesday warm and humid with scattered showers likely in afternoon.

Maryland—Some cloudiness, with a few scattered showers in west portion tonight. Wednesday continued warm and humid, with a few scattered thundershowers likely in the interior.

Virginia—Continued warm and humid, with scattered showers in west portion tonight. Wednesday showers likely continued warm and humid.

Wind velocity, 10 miles per hour; direction, south-southeast. Five-Day Weather Forecast for Washington and vicinity.

The temperature will average slightly above normal for the period. Normal maximum is 83, minimum 63 for the Washington area. Warm and humid with showers likely during the first part. Mostly fair and not so warm for end of period. Total amount of precipitation about one inch.

River Report. (From U. S. Engineers.) Potomac River clear at Harpers Ferry and at Great Falls. Shenandoah clear at Harpers Ferry.

Readings at Washington National Airport. Yesterday—High, 87; low, 72. Today—High, 87; low, 72. Tomorrow—High, 87; low, 72.

Record Temperatures This Year. Highest, 91, on May 22. Lowest, 21, on January 30.

Published by United States Coast and Geodetic Survey.

High, Low, and Moon. Sun, today, 5:41 a.m. to 8:35 p.m. Moon, today, 12:00 a.m. to 9:06 a.m.

Automobile lights must be turned on one-half hour after sunset.

Precipitation. Monthly precipitation in inches to the Capital (current month to date).

Film Writers' Counsel H. H. Snelling Given Predicts High Court Will Agree to Review For Public Service

Counsel for John Howard Lawson and Dalton Trumbo, screen writers, whose contempt of Congress convictions were upheld by the United States Court of Appeals yesterday, expressed confidence today that the Supreme Court will agree to review the cases.

Lawson and Trumbo were two of the so-called "unfriendly 10" from Hollywood who failed to tell the House Committee on Un-American Activities whether they are members of the Communist Party.

Biberman Criticizes Decision. The other eight have not been tried, pending the final outcome of the Lawson and Trumbo cases. Speaking for the others, Herbert Biberman, one of the writers, declared:

"The very language of the current decision reflects the Government's purpose increasingly to invade public privacy and individual conscience and convictions. This was forebodingly demonstrated in the (Judith) Coplon case, with the revelation that the FBI is investigating belief and association solely for the purpose of political intimidation."

Under an informal agreement the other eight have tentatively said they would enter pleas of guilty if Lawson and Trumbo finally have to go to jail. Biberman said he and the other men under indictment would accept only the ruling of the Supreme Court as final.

Rehearing to Be Sought. Defense Attorney Robert W. Kenny said he will ask the appeals court for a rehearing, and if that is denied will apply to the Supreme Court for a review which, he added, "we are confident will be granted."

Lawson told the Associated Press in San Fernando, Calif., "We will push this case through. We are confident that our view will be upheld. The very fact that this case relates to the motion picture industry—which is a means of communication—makes it essential that the right of free speech be maintained and we are sure it will be."

Youth Breaks Into Store; Can't Break Out Again. The early-morning burglary of the Peoples drugstore at 5550 Connecticut avenue N.W. went off as planned until the youthful burglar started to leave. He couldn't.

The coal chute and cellar door entrance a youth had used to enter the store wouldn't work as an exit.

"I couldn't get out. I give up," the 18-year-old suspect told Manager George Wiseman when he was found in the store basement. He told police he was from Rockville, Md., and had entered the store about 3 a.m. After failing to get out, he decided to wait until some one opened the store this morning.

He is being held at the 8th precinct station.

Paints a Success Story. RUSH CITY, Minn. (AP)—In 1940 Effie Sheldon Bornhoff's husband asked her to try her luck at painting a picture for their home. Her first attempt, a water color, won a blue ribbon at the Minnesota State Fair. Now she has more than 5,000 separate water colors and oils in her home. And at a recent "open house," which she holds every year, nearly 1,000 persons from Minnesota and Wisconsin came to view her paintings.

Midwest Democrats Stake 1950 Hopes on Brannan Farm Plan

By the Associated Press. DES MOINES, June 14.—Democrats will stake their hopes for another Midwestern farm belt victory in 1950 on the Truman administration's new farm plan promising cheaper food and farmer prosperity.

A 16-State Democratic Midwest conference has voted to support the controversial program advanced yesterday by Secretary of Agriculture Brannan and endorsed by President Truman.

Composed of State party officials, the conference made this decision after hearing Mr. Brannan and other top-ranking administration leaders advance the proposal as a sure-fire measure for preventing a new farm depression, and as a victory vehicle in next year's Congressional elections.

Federation Opposes Plan. This stand was taken in the face of sharp opposition to the plan by the powerful American Farm Bureau Federation. This farm organization, which has more members in the Midwest area than any other farm group, has endorsed the long-range Aiken farm law passed by the Republican 80th Congress.

Farm Belt Democrats said they were willing to let farmers choose between the administration's so-called Brannan plan and the Aiken law.

It was in the Midwest that President Truman staged a surprising victory in the presidential race last year.

Republicans have declared their intention to try to pull the traditionally Republican farm vote back into the party fold next year.

G. O. P. Challenge Accepted. "We accept the challenge of the Republican leadership," said the conference resolution, "to make the farm programs offered by the two parties the major issue of the election campaign in the Midwest."

In brief, the Brannan plan would promise the farmers higher returns than the Aiken law. Likewise, it would permit somewhat lower consumer prices on surplus perishable products. It would depend more on subsidies to support farm income than would the Aiken measure.

Eaton Re-elected President. Herbert N. Eaton of North Chevy Chase was re-elected president. Other officers re-elected are Walter H. McClenon, vice president; Mrs. W. W. Rubey, corresponding secretary, and Mansfield Lorie, treasurer.

Joseph Mathias was elected recording secretary to succeed Ernest Woodchek, who refused re-election. Named to the Executive Board were O. W. Anderson, Stephen Duvall, Jr., George Schultze and Blair Lee III.

The federation asked Congress to defer action on a House resolution authorizing the Civil Service Commission to impose penalties less than removal for minor infractions of the Hatch Act.

Objection was voiced to a rider whereby Federal workers would be permitted to actively participate in party campaigns in areas near the District of Columbia where at least 10 per cent of the voters are employed by the Federal or District Government.

Co-operation Directed. The federation was directed to co-operate with representatives of civic groups in other counties near the District and with the Civil Service Commission in order to permit the full participation of Federal employees in local election on nonpartisan basis.

This was the last meeting of the Civic Federation until October. It was held in the Bethesda Elementary School.

7 Area Students Graduate. Six Washington area students were among 3,865 graduated from Indiana University at Bloomington, Ind. Members of the largest class in the university's history were Sandor Klein, Armand X. Labat, John H. Marley, Philip J. Ness, Thomas E. Sheridan, Jr., Johnson S. Townley and Rosella E. Jones.

Production Started On First of Strip Maps For Use on Skyway

Production of the first of a series of 13 strip maps for use on Skyway One, aerial freeway between Los Angeles and Washington, is under way, it was announced today by Clarence S. Beesmyer, president of the U. S. Skyway One Association, Inc.

The skyway was initiated nearly two years ago by the Los Angeles Chamber of Commerce, the Washington Board of Trade and chambers of commerce in cities on the route.

The first map will cover a strip 80 miles wide for the 368-mile distance between Los Angeles and Phoenix, Ariz., and will be an improvement for civilian use over Air Force flight charts. Mr. Beesmyer said. No service charts follow the skyway route, he pointed out.

The map scale will be in the ratio of 1 inch on the map to about 8 miles on the ground. Air Force maps run 1 inch to about 16 ground miles, Mr. Beesmyer said.

Small marginal inset maps will show complete ground details of airports in each panel of the map, he explained, and the strip will fold in accordion manner for easy reading by pilots.

Funds for publishing the map have been provided by the General Petroleum Corp. under contract arrangements made by Glen B. Eastburn, manager of the Los Angeles chamber's aviation department and secretary-treasurer of the Skyway Association, and the oil company's aviation department. The maps cost \$1 each.

Navy Plane With 7 Aboard Missing on West Coast

SANTA MONICA, Calif., June 14.—Planes and a surface craft searched today for a Naval Reserve training plane missing with a crew of seven since 8:45 o'clock last night.

The two-engine transport normally would have run out of fuel at 1:32 a.m. today, the Navy said. It said seven Naval Reservists from Memphis, Tenn., were aboard.

The search by Coast Guard planes and a Coast Guard cutter was concentrated along the Southern California coastal area.

The Navy said shortly after 3 a.m. no word had been received from the transport since it contacted Clover Field here as it prepared for a landing.

A 1,000-foot ceiling was over the field, and the plane turned back over the Pacific Ocean, a Navy public information officer said. It has not been heard from since.

The Navy said the crew of the missing plane included three lieutenants, a lieutenant (j. g.) and three enlisted men. Their names were not available here.

The plane took off late yesterday afternoon from Moffett Field.

Msgr. Byrne Consecrated Titular Bishop at Seoul

The Vatican's apostolic delegate to Korea, the Most Rev. Patrick J. Byrne of Washington, was consecrated titular bishop of Gaza at Seoul today, the Associated Press reported.

Three bishops served as consecrating prelates at the ceremony in the Cathedral of Mary Immaculate in the Korean capital. They are the Most Rev. Thomas E. McDonnell, New York, head of the Society for the Propagation of the Faith; the Most Rev. Adrian Larribau, Bishop of Kaejon, Paris Foreign Mission Society, and the Most Rev. Paul M. Ro, Bishop of Seoul.

A native of Washington, Bishop Byrne is a graduate of St. Charles College, Ellicott City, Md., and of St. Mary's Seminary, Baltimore. He was ordained in 1915.

Bishop Byrne, of the Maryknoll (N. Y.) Mission which has long worked in the mission field in Korea, was appointed prefect apostolic of Peng Yang, Korea, in 1927 and prefect apostolic of Kyoto, Japan, in 1937.

Among those attending the ceremony today were the Very Rev. Robert I. Gannon, retired president of Fordham University, New York, and Msgr. John J. Scally of New York.

Pakistan bought \$6,396,000 worth of goods from Britain in one recent month.

Tommy Dorsey Escapes In Nebraska Bus Crash

WAHOO, Nebr., June 14.—Tommy Dorsey, the band leader, escaped injury yesterday in a highway crash 5 miles east of here.

Sheriff Clarence Hagstrom said Mr. Dorsey, whose band has an Omaha engagement tonight, and his wife were passengers in a bus which was in collision with a station wagon. No one in the bus was injured.

Occupants of the station wagon were John M. Jackson, 40, and his son William, 16, of Elmhurst, Ill., the sheriff said. They were taken to a hospital here.

The Federal Spotlight

Agencies to Avoid Mass Firings By Delay in Filling Vacancies

By Joseph Young

Most Government agencies here which face layoffs will adopt a policy of "attrition" to avoid the necessity of making the mass firings that their budget cuts would indicate.

In other words, the agencies plan to keep as many of their present personnel as possible and absorb the main force of their budget cuts by not filling vacancies that will occur from normal job turnover during the coming year.

Most bureaus won't admit this publicly because they're still hoping that the Senate will restore a considerable share of the amounts slashed by the House. The Senate, in all likelihood, will restore some of the funds, but not nearly all of it.

Consequently, there will be a considerable reduction in funds for personnel items. That's why the bureaus involved will use the "attrition" system to avoid mass layoffs. That this system can avoid many firings can be seen by the fact that the Government's normal personnel turnover during a year, from resignations, retirements and other factors, usually averages about 500,000.

Some reductions still will have to be made, but the attrition process will save thousands of jobs. In fact, there are some personnel people who contend that no firings would be necessary if the White House and Budget Bureau worked out an integrated attrition policy on a Government-wide basis.

INJURY BILL.—The House Rules Committee balked yesterday at giving a rule to the bill which would increase considerably the rate of compensation payments to Federal employees injured on the job.

Several members said they "wanted time to think it over" before taking action. However, Chairman Sabath, who favors the measure, said he hopes to bring up the bill again today for committee consideration. The bill cannot come up for House action unless it is granted a rule.

Several members balked at giving the bill the green light on economy grounds. Representative Cox, Democrat, of Georgia was reported as saying, "When are we ever going to stop spending money?"

Those favoring the measure pointed out that its cost is comparatively small in these days of large expenditures—\$7,500,000. The Employees' Compensation Act hasn't been liberalized since 1927.

Meanwhile, a Senate Labor Subcommittee has begun hearings on the bill amid strong indications that it will approve it.

CAPITAL ROUNDUP.—The Civil Service Commission has exempted 30 undercover agent positions in the Bureau of Narcotics from civil service requirements. The commission announces exams for food sanitation inspectors at salaries of \$2,974 to \$3,727 a year; also vessel sanitation inspectors, \$3,351 to \$4,103; geophysicists, \$3,727 to \$6,235, and mining engineers, \$3,727 to \$6,235. Bureau of Animal Industry employees will celebrate the bureau's 65th anniversary at a dance Friday night in the Wardman Park Hotel.

The District of Columbia Federation of the National Federation of Federal Employees has designated this month as "Ulrey J. Biller Appreciation Month" in honor of the union's "grand old man," who for many years served as its national vice president and as a member of its Executive Council.

Mr. Biller was once secretary of Albania's Communist Party. He formed and headed the Albanian secret police which later arrested him.

The Albanian Telegraph Agency reported Saturday that the high court sentenced three other persons to prison for terms of up to 20 years on similar charges.

73 Sailors Become Naval Academy Plebes. ANNAPOLIS, June 14.—Seventy-three sailors arrived at the Naval Academy yesterday to become members of the class of 1953.

The new plebes are from the Naval Academy Preparatory School at Bainbridge, Md. The 1953 class, expected to reach 1,100, will stay at the Academy this summer. A group of 83 candidates is due tomorrow.

Threshers killed 159 rats in a single corn stack at Westley, England.

Be sure to listen in Sundays at 11:15 a.m. over WMAL, The Star station, for Joseph Young's broadcast version of the Federal Spotlight, featuring additional news and views of the Government service.

McCarran Urges Hearing On Bill to Save Rockfish. Senator McCarran, Democrat of Nevada warned yesterday that rockfish would become nonexistent in this area unless something is done soon to protect them from the "greed of commercial fishermen."

He appealed to Chairman McGrath of the Senate District Committee for early hearings on the McCarran bill to outlaw the sale here of rockfish weighing more than 15 pounds.

PAY.—Here's the pay situation at a glance: The House Civil Service Committee is expected to

approve on Thursday separate retroactive pay legislation for the District Government's classified employees. The House yesterday approved pay boosts for District policemen, firemen and teachers and per diem workers.

Meanwhile, a Senate Civil Service Subcommittee will report a Federal reclassification pay bill sometime this week. But the chances of Congress taking any action on such legislation this year is practically nil.

ROTARIANS Will Hear Trygve Lie and See Fashion Show Today. NEW YORK, June 14.—Delegates to the 40th annual Rotary International Convention flocked to Madison Square Garden today for a widely varied session ranging from a fashion show to a speech by Trygve Lie, United Nations secretary-general.

Mr. Lie's topic was "The United Nations—Bridge to Peace." He was to share the platform with Dan A. Kimball, Assistant Secretary of the Navy for Air, and Tom J. Davis of Butte, Mont., past Rotary president.

One of the high lights of the five-day session comes up tonight when "America's Town Meeting of the Air" will be broadcast before the Rotarians.

Brannan Will Speak. The subject is "How Can the Free Peoples of the World Best Share Peace and Well-Being?" Speakers include Secretary of Agriculture Brannan, Carlos P. Romulo, Philippine representative to the U. N., Eric Johnston, president of the Motion Picture Association of America, and Senator Fulbright, Democrat, of Arkansas.

A fashion show in the morning session called for a parade of the latest women's styles, with narration by Jinx Falkenburg and Margaret McNellis.

At last night's session, outgoing Rotary President Angus S. Mitchell of Melbourne, Australia, urged Rotarians to help improve business practices the world over.

"The threatened postwar recessions or depression," he said, "has not materialized. . . . It is too often a temptation for businessmen to labor under the impression that they are creating prosperity, instead of realizing that prosperity is creating them."

"In such a period, it is often difficult to marshal an aggressive interest in seeking a solution to those problems that are of an ethical rather than of a material nature."

Mr. Mitchell also urged delegates to intensify their efforts to win world-wide support for the United Nations.

Albania Executes Official Siding With Yugoslavia. LONDON, June 14.—The Tirana radio announced today that former Albanian Vice Premier Koci Xoxe was executed by a firing squad Saturday.

The Albanian high court convicted Xoxe Friday of "traitorous activities." A former Interior Minister, he was accused of siding with Yugoslavia in the latter's feud with the Soviet-inspired Cominform.

Xoxe was once secretary of Albania's Communist Party. He formed and headed the Albanian secret police which later arrested him.

The Albanian Telegraph Agency reported Saturday that the high court sentenced three other persons to prison for terms of up to 20 years on similar charges.
