Imagine me—

a guest at my own parties!"

"It's simple, too, for I turn that festive food issue over to low-cost electricity! With anywhere from 5 to 50 people popping in, my electric roaster goes into service. This little jewel does everything—cooks, roasts and bakes, too. At other times, my electric toaster, mixer, sandwich-grill, waffle iron and coffee-maker take over. Whatever the combination, I'm free to circulate and have fun. No wonder I'm sold on this system—no trouble, no watching, and delicious results everytime!"
