

NAM to Press for End Of Profits Tax June 30

By the Associated Press
NEW YORK, May 23.—The National Association of Manufacturers will press for expiration of the excess profits tax on June 30, William J. Grede, board chairman, said today in a letter to members.

Mr. Grede urged members to support President Eisenhower in his program for effecting early tax reductions and revisions in the Federal tax system. But he added that it was "unfortunate" that the President had recommended extension of the excess profits tax for six months beyond its scheduled June 30 expiration date.

Program Drafted to Inform Doctors on New TB Findings

By the Associated Press
LOS ANGELES, May 23.—A "Super-scientific" program to inform doctors about some sharp new findings in tuberculosis research and treatment was announced today by the National Tuberculosis Association.

The new things include some recently uncovered facts about how lungs mix inhaled air, how thoroughly they expel used air, and how efficient they are in passing oxygen along into the blood.

The aerodynamics and mechanical efficiency of lungs are outside the scope of ordinary medicine, and that is why the program gets a "super-scientific" rating, Dr. Julius L. Wilson of Philadelphia, head of the project, told a press conference today.

Air mixing determines how thoroughly the lung mechanism can separate oxygen from the other components of air. The expulsion test yields measurements on how much of the empty space within the lungs actually functions during breathing. The other test determines to what extent a tissue which passes oxygen from lung to blood stream may be impaired by disease.

All this will add up to better techniques for determining how much lung functioning a person may lose and yet leave a safe margin for life.

This will help a surgeon to calculate how much he can cut out. It will tell other doctors more precisely how active a patient can be with a given amount of functioning lung.

Two Missing, 14 Are Safe After Two Tugboats Sink

By the Associated Press
NEW ORLEANS, May 23.—Two men were missing today and 14 others were safe after two tugboats sinking, one 55 miles south of Morgan City, La., and the other in the intracoastal canal near New Orleans.

The George R. N. working at a Magnolia Petroleum Company well off Eugene Island, captized while moving an anchor. Nine of the 11 crew members were saved, but two were missing. Company officials identified the missing men as John Thomas Collier, 33, and V. J. Chandler, 36, both of Houston, Tex.

Earlier, a 58-foot New Orleans tug, the Alfred B., towing four loaded oil barges, sank in the intracoastal canal near the Chef Menteur Bridge. The captain and the engineer suffered minor injuries, but all five crew members swam to safety.

American U. Law School Honors Two Students

Two students attending the Washington College of Law, American University, last night were selected for high honors by the school.

John M. O'Donnell, 33, of 2019 I street N.W., was named outstanding graduating senior, and William L. Porter, 35, colored, of 610 Irving street N.W., was named editor of the Law Review.

Mr. O'Donnell was presented a trophy plaque as a mark of achievement at the annual Law Review dinner at the university. He is employed in the anti-trust division of the Department of Justice. He took his pre-law training at Catholic University.

Mr. Porter is a graduate of Dunbar High School and American University. He is an agent

Vandenberg in Bogota

3.5 Million From Britain
Of 33 million persons who emigrated to the United States between 1820-1950, some 3.5 million were from Britain, London learns.

for the Bureau of Internal Revenue.

Awards also were given to Joe F. McDonald, 36, retiring editor of the Law Review, and Daniel E. Matthews and Richard G. Van Buskirk, co-editors.

Principal speaker was Judge George T. Washington of the District of Columbia Court of Appeals.

India Hopes to Buy Oil From Middle East

By the Associated Press
NEW DELHI.—India will explore possibilities of purchasing crude oil in Southeast Asia for the projected Caltex Oil Refinery on the East Indian coast at Vishakapatnam, Production Minister K. C. Reddy says.

He added that Middle Eastern oil would prove nearest for new refineries under construction in Bombay Harbor.

India will save \$21 million annually in foreign exchange through the refineries, Deputy Commerce Minister D. P. Kar-markar says.

Casablanca Pavillion

A permanent pavillion dedicated to native arts and crafts is among the features of the new fair grounds in Casablanca, French Morocco.

20" Belt Drive
FAN
2-Speed Reversible
