

Dulles Will Try to See Mikoyan Tomorrow

Secretary of State Dulles said in his return last night he will try to see Soviet Deputy Premier Anastas Mikoyan tomorrow morning.

Mr. Dulles flew into Washington National Airport on the Columbia II, the President's plane, and told reporters he is "fully recovered" after a two-week vacation in Jamaica. He had spent a week in Walter Reed Hospital in early December, suffering from an inflammation of the lower intestine.

Mr. Mikoyan was reported flying from Copenhagen to New York last night, proclaiming as the left Denmark that he had a "date" with Secretary Dulles in Washington.

The Secretary told reporters he knew nothing of a "date," although Mr. Mikoyan had asked for an appointment.

"Awkward" Time

Mr. Dulles said he would not like to confer with Deputy Premier Mikoyan today, but will try to see him tomorrow morning, even though this would be "awkward" because the Secretary is scheduled to participate with President Eisenhower in the White House bi-partisan meeting with congressional leaders.

Tomorrow afternoon Mr. Dulles is to fly from Washington to Ottawa to attend a cabinet-level conference with Canadian officials on trade and economic policy.

Tentative plans arranged for Mr. Mikoyan by the Soviet embassy here call for him to travel to Washington by car or train this morning, arriving in the early afternoon.

The Scandinavian Airlines System plane carrying the No. 2 man in the Soviet hierarchy was scheduled to land at New York's International Airport at 6:50 a.m. today.

Up to Mikoyan

Secretary Dulles indicated the topics for discussion with Mr. Mikoyan are up to the Soviet guest. A reporter asked if Mr. Dulles expected to discuss the Berlin crisis with Deputy Premier Mikoyan.

"He takes the initiative," Mr. Dulles replied with a smile.

The Secretary refused to speculate on chances Mr. Mikoyan will see the President.

Russians Putting Chill On Steady Smokers

MOSCOW, Dec. 31 (AP). Soviet authorities have approved a countrywide campaign against smoking.

The ministry of health's official journal, "Health," stated: "It is now abundantly clear that smoking is a dangerous form of chronic poisoning of the body which can cause grave illness."

The official journal slapped a bit of politics into its anti-smoking campaign with the claim: "Everywhere American tobacco products have been exported since World War II, mortality in lung cancer has been mounting at the same rapid pace as in the United States."

Authorities Quoted

Quoting at length from special medical investigations in the United States, Britain, the Soviet Union, and Czechoslovakia, the publication reported:

"The fight against cancer of the respiratory organs, and that is a fight against smoking, is an urgent problem in our country as well as abroad." It said Soviet medical statistics show 90 per cent of Soviet men suffering from lung cancer and 80 per cent of those with cancer of the tongue or mouth are smokers.

koyan will see the President and Vice President, pleading lack of information after his 15 days in Jamaica.

He told Assistant Secretary and others who greeted him at of State William Macomber the airport he had "a wonderful time" at the Montego Bay resort where he stayed and is "thinking of becoming a beach-comber."

He said he went swimming three times a day.

No Comment on Cuba

The Secretary declined comment on the overthrow on Diction Fulgencio Batista in Cuba.

He said there is "a possibility" he will fly to Karachi, Pakistan, the end of this month for a Baghdad Pact meeting, but no final decision has been made.

Mr. Mikoyan told newsmen in Copenhagen he is looking forward to his visit to the United States, the Associated Press reported, because "I have many old friends and I hope to get many new friends over there."

In New York, city police were to be deployed along his entire route from Idlewild Airport to the Park Avenue headquarters of the Soviet delegation to the United Nations, and then out of the city through the Lincoln Tunnel bound for Washington.

Police Guard Set

At least 400 police were to guard the Deputy Premier, the Associated Press reported.

The American Federation of Hungarians reported it would picket Mr. Mikoyan during his brief stay in New York. And there were reports that a similar demonstration was being planned here Monday night at a dinner Eric Johnston is holding in Mr. Mikoyan's honor at the Sixteenth and I street headquarters of the Motion Picture Association of America.

Concern for demonstrations in Washington and other parts of the country may explain the reticence of Soviet and American officials in discussing the Deputy Premier's plan for his "vacation" in this country.

All arrangements were reportedly tentative, pending Mr. Mikoyan's approval of them on his arrival in New York.

Farm Program Change Urged

By the Associated Press

The Conference on Economic Progress yesterday proposed an entirely new national farm program.

The group urged that its suggestions be enacted at once and expanded toward full accomplishment within six years.

In a 62-page study, the group asked that the Employment Act of 1956 be amended to apply specifically to agriculture and to require annual submission by the President of a "full prosperity budget for agriculture" in his economic reports to Congress.

The conference describes itself as a "non-profit, non-political organization engaged solely in economic research, education and publication of studies related to full employment and full production in the United States." It has headquarters here.

President send annually to the Congress a short-range and especially a long-range full prosperity budget for agriculture."

The study said national farm policies have become bankrupt "because during the past six years, measured in constant dollars, farm operators' income has dropped 21 per cent; Government investment in the farm surplus has gone up 300 per cent; the Federal budget for agriculture has gone up about 400 per cent."
