Helping a Fellow Along.

Would you like to borrow money at 5 per cent, for 42 years, in order to get a home of your own? If so, emigrate to South Australia where the genial government does the following through its state bank:

Lends a fellow with \$250 of his own, \$1,250 more; a fellow with \$500 of his own, \$2,500 more; a fellow with \$625 of his own, \$3,125 more. In other words, they encourage the thrifty by loaning them \$5 for every \$1 they have saved. Odd idea!

Egypt's worrying for fear the war will spoil the tourist season. They depend largely on importation of American prosperity.

It requires over 200,000 cows to supply New York with milk and cream.
