

POLICE BREAK DOWN DOORS— FIND BUSY DOPE DEN

Detectives raided a room at 3169 North Clark street last night and found a dope den running full blast. Incidentally their raid appears to have furnished the cause of the death of Albert Hartwick, the chemist, whose body was found in the same room on June 6.

Four persons were taken from the room yesterday, two of whom were women. Charles Hilard, 48, was unconscious. It was found that the inmates had been using a concoction of cocaine.

The police now believe that Hartwick frequented the den and had taken an overdose of cocaine which resulted in his death. The neighbors have been suspicious of the room since Hartwick's death.

The doors were broken down by the police when they heard Hilard's moans.

DESIRED THE DETAILS

"Pa, was you at a circus last night?"

"No, my boy. Why?"

"Well, ma says you tracked an unusual amount of sawdust into the house when you came home late last night talking to yourself about green elephants."

SWISH! SWASH!

By Jim Manee.

Most always, folks, I love the rain.
I love to have it 'round.
It's nice to see it splash the pane
And patter to the ground.
But, say, today I feel real bad
To see it rain, I do.
Because I've found a hole right in
The bottom of my shoe.

P. S.—Every time I step it sounds like a cow pulling his hoof out of the mud.

TODAY'S HEALTHOGRAM

Wrapped foods which can be purchased in many stores are better protected against unclean hands. They are not liable to be contaminated with street dirt or ordinary dust. Insects are less liable to infest them. Flies are less liable to infect them.

WEATHER FORECAST

Partly cloudy with possibly local showers today; cooler in afternoon or night; Saturday partly cloudy and cooler; moderate variable winds, becoming fresh northerly.
