

stand for anything we personally use, but only for the property we use in our business. Now these so-called Socialists who don't know what they are talking about might do fairly good work in the religion or temperance field, but they shouldn't knock those who can talk socialism correctly.

When you see a person knocking those who are working in the theological field you will generally find that they are only part way out of the theological hole. When the labor exploiters let loose their religious bloodhounds like Billy Monday on these workmen they will be the first to fall for his stuff, will lose all interest in economic reform and will be individual reformers after that, talking how to be a good wage slave for somebody.—D. F. Sweetland, 2259 S. Kildare av.

**CONSTANTINE DID.**—One writer in The Public Forum said some Greek emperor changed the sabbath of the Most High from Saturday to Sunday. I would like to correct that statement, as history proves the first Sunday law was made by Constantine in 321 A. D. He was converted to Christianity and embraced the Catholic faith, so it is clear enough who was backing him up. Wonder why Protestants follow in his steps, as we clearly can see that by breaking God's law we show how little respect we have for it.

I am glad that the truth about the sabbath is coming to the front and that God has a people who are not only willing to defend the whole bible, but also give their lives for it, if need be. Truth crushed to earth shall rise again, and we are seeing it done right in front of our eyes.

Most people say the sabbath was only for the Jews. I wonder then what Adam was? He got the sabbath before there was sin on earth even, and we surely could not call him a Jew. No, the sabbath was for all mankind, and the Lord put it

among the commandments to show how important it was for us to keep. Furthermore, there is a promise for those who keep his commandments, as we can see in Rev. 22:14:

"Blessed are those who do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city."—A. B.

**NATURE'S VENGEANCE.**—The God of Nature is reeking out vengeance on his enemies. Rev. Hertzell, a man who worked hard to close the homes of women who lived the passion of their sex and to drive them out into the streets, has just died a horrible death by consumption at the early age of 40. State's Att'y Wayman, who closed these people out of all the homes they had, died a suicidal and a horrible death. Anthony Comstock, a Dr. Jekyll and Mr. Hyde, who suppressed free speech and free press, died an early wretched death. He fought birth control and tried to continue misery.

In the south nature is reeking out a terrible vengeance where miscegenation laws result in nearly all of the whites handing down a tanned or mulatto race. Nature will accomplish this within 200 years. In the north, nature is working vengeance where the sexes are isolated, except by marriage. Nature curses people with nervous prostration, cancer, consumption, insanity, an early death and other ailments because the sexual relation is denied.

We are now spending nearly all our time in "help those who are weak" campaigns. The result is not what it should be. "Survival of the fittest" is nature's rule. We are saving every weakling that should die and we deprive the strong. Men are forced to defy nature by eating foods cured in salts or saltpeter. This brings on early sickness, breakdown and weak offspring.

The God of Nature is angry and is taking vengeance everywhere. Japan
