Alleged Purchase of Montana Legislature by Senator Clark.

STORY OF DENTIST ECTOR.

Money Promised to Him Never was Paid - One Man Refused a \$15,000 Bribe.

Washington, Jan. 12.-The Senate committee on privileges and elections began its session in the Clark case today with a request from the prosecution to have the books of the Thomas Cruse Savings Bank at Helena Mont., showing the deposits of A. J. Davidson and a man named Toole, brought before the committee. The original subpoena had only called for the deposit slips. The point was not decided.

E. L. P. Ector, a dentist at Missoula, was the first witness. He had participated in the campaign in Ravalli county in the interest of E. P. Wood, who was the Democratic candidate for the legislature in the last campaign and who was a friend of Mr. Clark. Ector said he had acted at the instance of Mr. Bickford, one of Mr. Clark's managers Letters from Bickford were exhibited. In one of these written after the legislative election, Bickford referred to the presence of "our friend" in Hamilton, and asked Ector to ascertain his financial condition. Ector send "Our friend" cial condition. Ector said "Our friend" was Mr. Wood, and that he replied to this letter saying his indebtedness was \$6,500 and that \$7,000 would probably be necessary to settle all his debts. Afterward Bickford had given him \$7,000 to give to Wood. He had then refused to accept the money, telling Bickford it was "all off," as Wood had teld him that he could not afford to sell himself.
The witness said Bickford had promised to pay him for his services, but that no specific sum had been men-

"He asked me how much I expected." said the witness, "and I told him I wanted all I could get out of it. I continued by saying, 'No doubt you will make a stake out of it.' He asked me how ten per cent would do. I said 'That would be satisfactory, as I have no doubt you will get \$20,000 or \$25,000 out of it.'

It appeared that no settlement was made with him by Mr. Bickford, and that Mr. Ector wrote to Senator Clark about the matter. There was a correspondence with that gentleman be-ginning December 10, 1898, and closing November 8, 1899. These letters were ely in the hands of Mr. Bickford. gentleman concerning the matter.

In the second letter dated January 28, 1899, Mr. Clark spoke of the fact that he had just been elected, saying Bickford was wild with joy, adding that while he had no personal knowledge as to what he had done, he "never disappointed any one who had helped

This last statement was practically repeated from Paris in April last, and in another letter written from New York November 8, last. In the New York letter Clark said he would refer Ector's matter to Bickford, and the Paris letter he said it was his desire that any one who served him should be "amply remunerated." One of the letters of the series was

signed in typewriter, and the defense objected to its admission. This objection brought out the first division in the committee, Senators McComas and Caffery casting the only votes against Cross-examination postponed until the defense should look up the letters received from Ector.

member of the last Montana legislature, from Granite county, testified that he had been approached by Mr. Bickford when he went to Helena previous to the meeting of the legislature, and asked to vote for Mr. Clark. "I said," the witness testified, "that I

might do so if there was enough in it. He asked how much. I said \$20,000. He then asked me if half that amount would not be enough. I replied no, and we separated.

Sullivan said that afterward he had again met Bickford, and that the lathad suggested \$15,000. He had told Bickford then that he would not vote for Clark under any circumstances, and ad seen no more of him. Sullivan said his purpose had been

to lead Bickford on and that he had not expected to vote for Clark, even if the offer of \$20,000 had been accepted. The witness stated that he is now the proprietor of the Florence Hotel at Butte, Mont., and the cross-examination was devoted to showing that this hotel is owned largely by Marcus Daly. The witness said he paid his rent to Mr. Hennissey and did not know whether Daly was the owner. He admitted that his patronage was largely from among the miners of the Anaconda mine and counsel brought out the fact that whereas before the legislature met the witness, had been the proprietor of a saloon, paying \$30 a month, he now pays \$2,000 a month for the Florence

Anthony Dougherty of Helena, proved to be the first witness who was apparently unwilling to testify. He was eld with the view of showing that he had allowed a friend named Gallagher to occupy for several days a room in the Brown block, rented by himself and that he remained in the closet of the room and overheard a conversation between A. J. Steele and Reps. Gillette and Flynn concerning the senatorial election. Dougherty declared he had remained in the closet and had hard no such conversation, answering only yes or no in reply to questions. He sald he had let Gallagher take the room and had lived elsewhere while he occupied it; but that he had seen or heard no one there.

State Auditor Poindexter testified that A. J. Steele had promised to give him \$50,000 to secure the vote of the three members of the legislature from Beaverhead county for Mr. Clark, he (Poindexter) to have \$5,000 for his serbut that he had never approached the members because he opposed to Clark's election and had only agreed to see them for him to prevent others acting in the capacity of

Terrible Fate of Those on Board the Wrecked Vessel.

Bodies Visible in the Surt-Ship is on Fire-The Crew Probably Drowned.

St. Johns, N. F., Jan. 12 .- No further news of the steamer reported wrecked on the reef last night in St. Mary's Bay had been received here up to this morning. No steamer can leave here for the scene of the wreck before this afternoon, The colonial cruiser Fiona Bay and the steamer Kite will be sent from Pacentia Bay as soon as possible to try and save the survivors if any remain.

A steamer leaving here today could not get to St. Mary's Bay before to-

morrow Later-Belated reports from the magistrate and wreck commissioner at St. Mary's give the following additional particulars in regard to the steamer:

She is a two-masted vessel and is a complete wreck. Only three survivors were visible at night fall. The vessel's boats were smashed and were floating November 8, 1899. These letters were read to show that Mr. Bickford had been the agent of Clark in the senatorial race. In the first letter Clark are visible in the surf. Chicago, Jan. 12.—The Illinois su-preme court at Springfield today handed a decision declaring the section the new revenue law which provided for the scaling down of the tax levy unconstitutional. The law applied all the State and as the asses valuation of property has been heavily increased in some sections, the knocking out of the limitation clause of the new law would result in a large increase in the tax levy, as by this ruling the old scale will be used. In Chicago and Cook county the increase will range from 20 to 50 per cent. The decision has created considerable sur-

### Helm Case Settled.

Kansas City, Jan. 12 .- The brought four years ago by Ferdinand Ar Heim, administrator of the estate of Michael Heim, deceased, the big East St. Louis brewer, against Jos. J. Heim, executor of the estate of Ferdinand Helm, Jos. J. Heim, Fred Heim, Jr., and Michael G. Heim, has been dismissed Judge Slover in the district court. Judge Slover finds that the estate has been properly administered and assesses the cost in the suit against the

plaintiff The fortune over which the parties to the suit have been contending was amassed by the brothers, Michael and Fred Heim, in the brewery business in East St. Louis, Ill. In 1883 Michael Helm died intestate and the estate was not settled for over ten years, when the widow, now Mrs. Anna Heim McArthur, of Los Angeles, Cal., and her two sons cepted \$105,000 in full settlement for their shares. The contention raised in the suit just disposed of was that this sum was inadequate, and that the value of their interests in the brewery was worth much more. In his opinion Judge Slover declares the settlement made was a most liberal one. He also rules that the agreement signed by McArthur, in which, in consideration of a house and lot valued at \$15,-000 and located in Los Angeles, she re linguished all further interests under the will, is valid and binding.

# NICARAGUA CANAL BILL REPORTED.

House Committee Favors the Hepburn Measure.

WHAT THE BILL PROVIDES.

United States to Construct the Canal, and to Fortify and Defend It -Other Business.

Washington, Jan. 12.-The House committee on interstate and foreign commerce today ordered a favorable report upon the Hepburn bill for the construction of the Nicaraguan canal. The bill is practically the same one reported by this committee in the last Congress. There was some discussion about the advisability of delaying action on the bill until the Isthmian canal commission reported but this was finally regarded as unnecessary, and all the members except Mr. Fletcher, of Missouri, voted to report the bill favorably. The latter said his silence should not be construed as opposition to the measure, but merely as a reservation of his right to support or oppose it after further consideration. The committee made some changes in the original bill, inserting a new section three and making verbal alterations. As finally agreed to the bill is as fol-

lows: To provide for the construction of a

canal connecting the waters of the At-lantic and Pacific oceans. Be it enacted, etc., that the President of the United States be and is hereby authorized to acquire from the states of Costa Roca and Nicaragua, for and in behalf of the United States, control of such portion of territory now belong-ing to Costa Rica and Nicaragua as may be desirable and necessary on which to excavate, construct and defend a canal of such depth and capacity as will be sufficient for the movements of ships of the greatest tonnage and draft now in use from a point near Greytown, on the Caribbean sea, via Lake Nicaragua to Breto on the Pacific ocean; and such sums as may be necessary to secure such control are hereby apropriated out of any money in the treasury not otherwise appro-

Section 2.-That when the President has secured full control over the territory in section 1 referred to he shall direct the secretary of war to excavate and construct a canal and waterway from a point on the shore of the Caribbean Sea, near Greytown, by way of Nicaragua to a point near Breto, on the Pacific ocean. Such canal shall be of sufficient capacity and depth as that it may be used by vessels of the largest tonnage and greatest depth now in use and shall be supplied with all necessary locks and other appliances to meet the necessities of vessels passing from Greytown to Breto, and the secretary of war shall also contruct such safe and commodious harbors at the termini of said canal and such fortifications for defense as will be required for safety and protection of said canal and

Section 3-That the President shall cause such surveys as may be neces sary for said canal and harbors and in the constructing of the same.

Section 4-That in the excavation and construction of said canal the San Juan river and Lake Nicaragua or such parts of each as may be made available shall be used. Section 5-That in any negotiations with the states of Costa Rica or Nic-

aragua the President is authorized to guarantee to said states the use said canal and harbors, upon such terms as may be agreed upon for all vessels owned by said states or by citizens thereof.

Section 6-That the sum of \$140,000,000 so much thereof as may be necessary is hereby appropriated out of money in the treasury not otherwise appropriated for the completion of the rk herein authorized; said money to be drawn from the treasury from time to time, as the same shall be needed, upon warrants of the President, based on estimates made and verified by the chief engineer in charge of the work and approved by the secretary of war. Edmunds argument had been printed by inadvertence. After some discussion it was agreed by unanimous consent that the bill should be reprinted without the agreement attached in the present print. The House at 12:20 p. m. adjourned until Monday.

#### ENCOURAGING TO APIARISTS Utah Honey Ranks with the Best and the Market is Growing.

Henry Bullock, of Providence, Cache county, is in the city, for a few days' visit with his friends and relatives. Bullock is the possessor of one of the best aparles in the State, and one of the pioneers in the honey industry, therefore what he has to say in relation to this subject is worthy of respect. He says, the product of last year was not what it should have been, considering the general crop of the State, but the bee-keepers have done reasonably well. Mr. Bullock says that he has always been able to market his product, in fact, there is a large demand for Utah honey, which is growing in fa-yor every day. In 1899 he harvested, or drew, 6,000 pounds of honey which he easily disposed of at six cents a pound. It is his opinion that there were 50,000 pounds produced in Cache valley alone, 50,000 and sold at a good profit. This indus-try, says Bullock, should be looked af-

is hard, says August Vogeler, of the Vogeler, Wiedemann company, to compute the value of the honey made yearly by this industrious little creature, as great quantities are consumed which never reach the market. Las year six carloads of strained honey and ive carloads of comb honey, left Utah for points in the West, North and East. The season, however, was not favor-able to the industry, because of the late spring, which prevented the growth of many of the flowers, and seriously af-fected the brooding. Mr. Vogeler says that he was very much impressed with the showing made by the bee men of the State at the late fair, and even bet ter things are looked for next year. Although, says he, Utah honey is the best in the world, one thing that works against it in the retail market is the packages, while if honey jars were used it would show off to a better ad-

#### AMUSEMENTS.

There was mor, than a fair audience at the Theater last night when the Black Patti Troubadours opened their engagement. A large section of Blackville was in attendance, many of the upper crust being in the lower part of the house and the galleries being well filled with representatives of the nether section. These parts of the audience were those from which the great-est applause came. As for the regular theater goers, they are, without doubt, growing more and more weary of the endless succession of coon songs, buck dances and rag time specialties with which the present season has been crowded, and while last night's achieve-ments were all good in those lines, yet they have undoubtedly begun to pall on people; there was no great amount of enthusiasm even over the best of the work. Black Patti herself, whose real name is Mme. Sisseretta Jones, is course the most notable figure. She has an excellent voice, with only one or two imperfect notes; the others are all brilliant and effective, and her songs were heartily applauded. Wilson, the equilibrist, is the best in his line that has ever been seen here, and the others throughout are all bright and capable. The company will be seen for the last time tonight.

# IT MAY COME TO SALT LAKE NEXT.

Dr. Talmage's Effort to Have American Geologists Meet Here.

HIS TRIP TO CALIFORNIA. THE RESULT IS AN ARREST

Spoke on Eroslon, Form and Exposures in the Deserts of South Central Utah.

During the Christmas and New Year vacation, Dr. J. E. Talmage, of the University of Utah, made a visit to California. One purpose of the journey was that of attending a two days' series of meetings in connection with the winter session of the Geological Society of America, of which distinguished organization the doctor is a fellow. The main division of the Geological Society of America meets during the winter holidays, usually in some eastern city; this year the meeting was held in Washington, D. C. The fellows of the society residing in the west have found it impracticable to make the long journey eastward and return and give proper time to the society work during the winter recess, they have, therefore, secured the establishment of a western or cordilleran section, which will hold independent sections, while its mem-bers will, of course, still retain their full rights of fellowship in the main society. There is a second and stronger reason for this action than that of mere convenience in travel. Western geology has many points of importance and in-

terest peculiar to the region.

At the California meetings just held the veteran geologist, Prof. Le Conte, presided. Among the many papers and addresses presented Dr. Talmage addresses presented Dr. Talmage spoke on (1) Forms and exposures on the "deserts" of south,-central Utah; (2) Right-line markings in sedementory rock near Glen canyon, Arizona; (3) Puddings from the bed of the Paria river, Utah.

The committee in charge of the affairs of the western section consists of Prof. J. L. Le Conte, of the University of California; Prof. J. E. Talmage, of the University of Utah, and Prof. A. C. Lawson, of the University of California. There is strong probability that the next session of the society may be held in Salt Lake City. On his return journey from the west, Dr. Talmage spent some time at Car-

# W. M. RAYMER WAS FESTIVE FIG

Abandons His Wife and Home for Another Woman,

Seems to be a Clear Case of Bigamy, Pleaded Not Guilty-Now in the County Jall.

Last evening Deputy Sheriff Ben Hat. ris returned from Robinson bringing with him W. M. Raymer, alias L. W Ray, who he arrested on the chi of polygamy. The complaint was to and signed by Mrs. Nellie R who asserts that she is the only legal wife of the accused alleges that on Novem 1883, the defendant, Raymen, Novem Nellie Gwynn, in Wilson county and on April 22, 1899, in Salt Lak it is alleged, he married, unde name of L. W. Ray, a girl named Mar

Raymen at one time lived will wise wife on Vine street his wife on Vine street this city and the Hastin girl was ployed by them. The husband, ac ing to Mrs. Raymer, became infatuawith the girl he d like to would Subsequently Raymen left his wif four children to manage as best th could, and went to Tintic to work an has lived there it is said, with Mar Hastin as his wife.

As soon as Mrs. Raymer discovered this, she made diligent inquiry and be came convinced that her husband h actually gone through a form of m riage with the Hastin girl in this cit under the name of L. W. Ray. There is an entry on the records the county clerk's office which sho that a license was issued to Ray at

Mary Hastin, and the marriage of mony was performed by Deputy Clerk George E. Blair. Mary Hastin is the mother of one child, and is considerably younger than

Ray. Ray has been working at the Mammoth mill at Robinson. Last summer Mrs. Raymer suspected that her husband was guilty of bigamy and sought the advice of her friends in the matter. Her friends advised her to wait for a time and if it develo that her fears were well grounded the proper thing to do would be to have him arrested. This advice, it seems she accepted, and now Raymer will have to face the consequences. If the allegations set forth in the complain are true, it is what in many other States would be designated as a clear case of bigamy and not polygamy.

This morning Raymer was arraigned before Justice Pardee and entered a plea of not guilty. His bonds were fixed in the sum of \$500 in default of which he was taken to the county jail,
