NO BIG RUSSIAN R. R. CONTRACTS.

That is, So Far as American Railway Men are Concerned.

HELPING HOME INDUSTRY.

Russian Officials Keeping Orders for Cars and Bridges in Russia-Contracts Already Let.

A New York dispatch today says: According to the statements of a gen-

tleman representing the Russian government, who has just returned from a visit to St. Petersburg, American manufacturers must not look to the immediate receipt of any large contracts for equipment and material, for the trans-Siberian railroad.

The gentleman referred to, who is in close touch with the officials of the Muscovite government, said:

"Prince Hilkoff, the Russian minister of ways and communications, and M. De Witte, the finance minister, are entirely opposed at the moment to sending heavy contracts out of the country. This decision has been arrived at in view of the fact that several of the cerns are shutting down through lack of work. Orders for five thousand freight cars for the trans-Siberian road were being awarded just as I left the capital to four Russian concerns that were on the eve of suspending opera-tions because of the duliness in trade. the hands of receivers, owing to finan-cial embarrassment. The cars are to be delivered inside of one year. I was told by one of the principal engineers in the ministry of ways and communi-cations that the trans-Siberian road will require 15,000 cars in all, so that as contracts for five thousand have een placed as above stated, 10,000 more will be ordered.

Contracts for bridges, estimated to be worth some \$500,000, have just been placed with Russian manufacturers. Such proceeding was actuated partly by the minister's policy, but it was also found that while further fostering native industries, by awarding the con-tracts to Russian bridge-makers, the latter offered additional advantages, as they undertook to deliver the material by June, whereas, the best inducement as to delivery that American bridge manufacturers could make was comp tion of the contracts by November

As to the prospect of orders for the Chinese eastern road, the speaker, who acted last year as purchasing agent for that system, said:

"I expect to see a goodly number of substantial orders emanate from Port Arthur before long. I know of three Americans out there now, and I feel assured that the result will be most pleasing to manufacturers in the United States."

Reverting to the prospects of pur-chases abroad for the trans-Siberian he said:

"As I mentioned before, the Russian government is very reluctant at present to send heavy contracts out of the country, but it would undoubtedly welcome an influx of foreign capital and for the building of manufacturing plants in many desirable localities throughout Siberia and southern Russia." is prepared to offer many inducements

WESTERN ROADS.

They Are Represented at a Meeting in New York.

New York, March 7 .- The presidents of the various western and transconti-nental railroads held their quarterly sessions in this city today. With the sessions in this city today. With the chief executives are a number of traffic managers, whose attendance is an innovation, all previous meetings having been confined strictly to the presidents. The abrogation of ticket commissions, the alleged rupture between the roads running from Chicago and lines to rescind the operating agree-ment, are among the matters arranged

for consideration.

Edward T. Jeffery, president and general manager of the Denver & Rio Grande railroad, presided at the meet-

Reducing Employes' Interest. A New York dispatch this morning

The Pennsylvania Railroad company has announced that the rate of interest paid to the depositors in the employes'

savings fund, will be reduced from four per cent to three and a half per cent, reduction to take effect on the first of next July. The company states that of the amount in this fund, \$,716.356.68 was in-

vested last year in securities bearing interest at an average rate of nearly four per cent, but that in consequence steady drain in the rates of interest on first-class securities, the reduction in the rate of interest paid to depositors has now become necessary. This step is similar to that taken by the large life insurance companies in changing their reserve held on policies

from a three and a half per cent basis to a three per cent basis. Very few life insurance companies still maintain their reserve on the old four per cent basis, because of the gradual decrease in the interest account of their invest-

RAILROAD NOTES.

Live Stock Agent Hudnall of the Midland left for the east today. P. P. Shelby of the Pacific and Idaho Northern returned to Weiser last night.

J. G. Doolittle of the Frisco line, who been in Denver, returned yester-Hoyt Sherman of the Colorado South.

left for the west and north this morning. Gen. Supt. Calvin of the Short Line

left for the north this morning on trip of inspection.

The roads running into Salt Lake have already began preparations for the Conference traffic. The Short Line have opened a new gravel pit at Ogden and are ballasting

the track in the vicinity. H. B. Kooser of the Missouri Pacific has reached St. Louis. He will re-turn the last of the week.

T. J. Clark, the traveling passenger of the Chicago & Rock Island

agent of the Chicago & ive-left for Denver this morning. Contracting Agent Evans of the Chi-

cago-Northwestern, left today for a two weeks' sojourn at Chicago, The Short Line have already begun preparations for the sheepshearing sea-

son in the south of the State. Traveling Freight Agent Flynn of the Missouri Pacific, who has been in New Orleans for some weeks, will be back again Saturday.

The Rock Island is out with a new

booklet, answering all questions con-cerning their new through train ser-vice from the coast to Chicago.

Two children, aged respectively 3 and years, are en route to Salt Lake from Nova Scotia, Canada. They will travel unattended, the parents being already in this city. They are the children of Mr. and Mrs. Fuller, who came here in search of health.

The advance guard of the eastbound tourist travel reached the city this morning, when a Raymond-Whitcomb excursion train pulled in. They will spend 24 hours taking in the sights of the city, and leave for the east on No. 4 over the R. G. W. tomorrow morning.

The Rio Grande Western will divide their San Francisco agency. Mr. W. F. Thompson has been appointed the gen eral agent of the passenger department. The present general agent taking that of the freight. The new offices are under the Palace Hotel.

The Oregon Short Line has complet ed the harvesting of ice at Market Loke, ida: A great quantity has been put up this year, the quality being A No. 1. In addition to that cut for home use, the company have taken out 150 cars of commercial ice. Acting Assistant Freight Agent Taggart said this morning that there is a great call for commercial ice all over Utah and that the office is being besieged with orders which it is impossible to fill. He prediets an ice famine for Utah.

COURT AT MANTI.

Judge Johnson Has a Busy Day-" Grants a Divorce.

Special per Deseret Telegraph, Manti, March 7 .- The following business was transacted in Judge Johnson's

court yesterday: M. F. Murray, trustee, vs Soren J. Johnson and Sophia Johnson, this action is brought to enjoin defendant from obstructing a certain stairway between two business blocks in Ephraim, and to compel them to convey to plaintiff title to a half interest in the property in controversy. The court took the matter under advisement and this morning rendered decision in favor

of plaintin Nels C. Nelson was granted a divorce from Mary Elien Nelson. Lillie Jones vs Abraham Jones, case

Bent Danielson was appointed guard-ian ad litem for Albert Josephine Freits, Joseph and Hyrum Danielson minors. John Malverson, A. F. Anderson and William Angensen were admitted to

Margaret B. T. Thomas vs Isaiah Thomas, dismissed. Carrie Olsen vs Olof Olsen; motion to

Patrick Ryan vs Henry Robbins et al; action dismissed at cost of plaintiff. This morning Jesse C. Sorenson, wife of John H. Sorenson, of Gunnison, was committed to the insane asylum, Lena Peterson Monroe was divorced from James Monroe, the minor children and the property being given to plaintiff.

UTAH PAINT WORKS.

Plant to be Established in Salina in the Near Future.

Geo. M. Spicer, the contracting agent of the Santa Fe, who has just returned from Manti, brings word that the Ebony Paint company, of which Hon. treasurer, is making preparations to erect a very large plant near Salina. Experiments have proved that the paint will be of a very superior quality and large quantities will be con-

sumed by the railroads. The paint is taken from a sort of shale which abounds in southern Sanpete and northern Sevier counties. This shale contains a substance resembling petroleum, and after the paint is exracted from it, there is a residue left which makes a very superior quality of lubricating oil. The works will be constructed at once and before June the company expects to have their product upon the market.

duvuvvvvvvvvvvvvvvvvvv 3 JUDGE TIMMONY'S COURT.

government It was a light day in Judge Timmony's court this afternoon. Only two backsliders were on the docket. The first was William Solby, who vowed that he was not drunk yesterday. The court believed otherwise, however, and gave Willie three days.

Sebastian Home was the next. was also accused of indulging too free-ly and of being a vagrant also. Officer Hempel related how Seb begged from diverse persons at an early hour this "I vas nod guildy," averred Seb; "I

DEATH WAS SUDDEN.

Coloradoan Well Known in Utah, Dies in Denver.

Captain H. H. Brown died Sunday night at the American Perse after a three days' illness with pneumonia, says the Denver Post.

Captain Erown was 73 years of age at the time of his death. He was born in Akron, O. Oct. 23, 1827. After grad-uating from high school he entered the firm of Payne, Newton & Co., of Cleves and, and from 1864 until 1884 was the general manager of their coal mines at Akron. During that time he was a member of the Ohio State militia and an influential citizen of his town.

In 1885 Captain Brown severed his connection with the Payne-Newton company and came to Colorado for his health. He was made agent for the Thomson-Houston Electric company, his territory being the States of Colo-Wyoming and Utah. Captain Brown put in all of the Thomson-Houston electric lighting plants in Colorado and sold the first

electric railway plant which his comramway company. He held the until the consolidation of the Thom-son-Houston and Edison Electric com-panies into the General Electric com-Subsequently he had charge of the

mining department of the latter cor-poration. In 1893, owing to ill health, e retired from active business life. Through unfortunate mining ations during the past four years ost a great deal of money and it is hought by his friends that worry in-cident to his financial losses was instrumental in causing his death. Captain Brown was a widower. He caves one son, Charles H. Brown, a rominent mining man of Victor

***************** **NEW TOWNS FOR** THE SNAKE RIVER

A Country to Which Settlers Are Going in Great Numbers.

PREST. W. F. RIGBY TALKS.

in Salt Lake With H. C. Jacobs, Interesting Utah Home Seekers to Go There and Locate.

The future prosperity, growth and stability of Idaho is well assured. It will not be many years before that young State will stand shoulder to shoulder with the foremost of western commonwealths. Climate, soil, resources innumerable, and a thrifty and homogeneous people contribute to that end. Just now the State is enjoying a development that is so rapid as to almost partake of the nature of a boom, and yet withal is so steady and deep rooted as to insure permanence. This growth is quite universal, though the greatest activity and promise appear to center, at present at least, in and about the Snake River valley.

During the last few days President

W. F. Rigby of the Fremont Stake, and H. C. Jacobs of Weber county, have been in Salt Lake with a view to in-teresting Utah home-seekers to take up their abode in that section. The success they are meeting with is very pronounced. Said President Rigby:

"We are sending large numbers of settlers from Utah to the Snake River country every week and the growth of this portion of Idaho will be very rapid, In order that knowledge concerning it may be more generally dispensed we will, on April 10th next, run a large excursion from Utah so that prospec-tive settlers may see for themselves just what we have."

"You can searcely," continued Pres. Rigby, "imagine the wonderful development of that region. As an illustration I call attention to the fact that sixteen years ago the country was settled by whites for the first time. settled by whites for the first time. Even then, only seven families went into the country. Myself and family and President Ricks and family were among those who settled there. Now we have two large, prosperous Stakes and forty-four organized wards; and during that time we have taken out fifty-one canals from the Snake river and have built twenty-four bridges over it and its tributaries. We have over it and its tributaries. We have tens and tens of thousands of acres of land under cultivation and it is as good land as can be found anywhere. much of it is yet unentered and only awaits claimants in the persons of sturdy agriculturists. When I state that we have no bad land I am only stating that which is absolutely true.

"As to the future outlook of the country and the people, all is very bright. At least two hundred thousand head of sheep are being wintered in Bingham and Fremont counties this season, and all are doing well and will turn large revenues after the spring clip of wool. Other stock are doing well, as there is an abundance of good hay for them. It is the home of timo-thy hay, while to also raise two good crops of lucer, ach year. Our farm-ers in the Teton valley last year raised 73,000 pounds of timothy seed, and will raise more this year. In this valley there are 10,000 acres of good land for sale with water rights at from \$4 to 38 per acre, and near here we will found two towns the coming summer, sur-rounding which is an abundance of land that has not yet been taken up. The Teton valley is one of the best timbered and watered of which I have any knowledge, while the opportunities for stock raising in Jackson's valley or Jackson's Hole, as it was formerly called, are unsurpassed. The people who take advantage of them can make themselves independently wealthy in a emarkably short time.

During their sojourn in the city, Rigby and Jacobs have been n constant communication with the Oregon Short Line officials, who are operating with them in their efforts at colonization by offering special rates on the railroads to the intending set-tiers. The 40 miles of railroad built the company last year in Idaho passes in or near eleven of the fortyfour Mormon settlements heretofore referred to. , Rexburg is the largest and most important of these.

A "HUNG JURY."

An Unsophisticated Young Lady is "Joshed" by Her Brother.

A good story is told of a young lady in the county clerk's office, the beauty of it being its truthfulness. Last evening she left the joint building in company with Assistant County Attorney W. T. Gunter, and the two talked of the Benbrook murder case. Mr. Gunter said he had heard that there was some probability of there being a "hung jury," and asked Miss -her opinion in the matter. Now, the young lady did not know what a "hung meant, but not wishing to display her ignorance, replied, "Well, we shall soon know what the jury thinks Upon arriving home Miss asked her brother, who is a lawyer by profession, what a "hung jury" meant. The brother, not a smile on his face replied by saying, "Why, a hung jury is where the jurors get hung if they fail to bring in a verdict, and the de-Miss --- stared at her brother and exclaimed, "Laws; no!"

"That's what it means," said the student of Blackstone, and it was not un-til court opened this morning that the young lady discovered that her wicked brother had been "joshing" her.

CHANGE SUPERINTENDENTS. Appointments for Uintah, Utah, Indian School, and Others.

[SPECIAL TO THE "NEWS."]

Washington, D. C., March 7.-James E. Kirk, superintendent of the Uintah Indian school, Utah, has been transferred to the superintendency of the Warm Springs school at Oregon, and Oscar H. Lipp, teacher at the Uintah school is appointed superintendent

Samuel B. Davis, superintendent of the Warm Springs school is transferred to be superintendent of Shoshone Indian school, Wyoming.

SENT TO ASYLUM.

Frederick Blake, the old gentleman from St. George who was picked up by the police outside the city and county building Sunday, has been re-committed to the asylum at Provo. The poor old fellow's malady is religious mania with suicidal tendency. When asked by Clerk Blair if he was a temperate man, Blake said, "No, sir; until now, I've always been a silver man."

WOMEN'S SHOES, \$3.00.

We do not build our shoes for women-but our experience at shoe-building comes in pretty good, and enables us to judge of quality. We take a shoe and examine it carefully from the sole up-and we know what we're talking about when we say we have the best \$3.00 shoe for women that's made today.

STREET RAILWAY EMPLOYES.

to Employers. St. Louis March 7 .- The demands of the employes of the St. Louis Transit Company, as formulated at last night's meeting of the Amalgamated Associa tion of street railway employes, were today presented to General Manager Coleman who said he would immedilay them before President Edward Whitaker. Later in the day President Whitaker will announce to the committee when he will give them an answer. General Manager Coleman received the committee as ployes and not as members of a labor

organization. The committee asks for the reinstatement of all employes who have been discharged for being members of association; that a ten-hour work day prevail; that a day's work be completed within twelve consecutive hours: that the standard rate of wages for trainmen, firemen, greasers and motor in-spectors shall be 25 cents an hour, and cents an hour for car washers and shed men, with a regular scale of wages for all over time; that rules in regard to extra men be revised, and the company recognize and treat with the committee from the em-ployes association in the future.

With but one exception all the street car lines in the city are a part of the St. Louis Transit Company, whose ployes number nearly 3,900 men. months, it is said, the men have been secretly organizing and this is the first indication of their purpose.
It is not announced what they will do in case their demands are not ac-

ceeded to, but a general strike seems

May Wear the Green.
