# THIS TRAMP WAS NOT "PULLED."

Big Wandering Richmond Engine Brings an Excursion.

ON THE ROAD SIX YEARS.

Will be Sent to the Paris Exposition for Exhibit-Roster of the Pleasure Party.

Over the Rio Grande Western last night came a special excursion train which is of a somewhat noted character in some respects. The excursion was one of the Raymond & Whitcomb series and was pulled over the rails by the noted "Richmond tramp" engine which has been "visiting" all over the country since 1894. It was built for the purpose of displaying the mechani- will be constructed. cal excellence of its type of engine and for the purpose of demonstrating this to railroad officials all over the country the machine has traveled along a majority of the lines operated | Gen. Manager Jacobsen. in the United States. After a busy life for the past six years this engine, No. 2427, is to be taken in to the shops and repainted, after which it will be sent to the Paris exposition this summer to show Europeans what style of engine this country turns out. The machine has been run as a passenger, freight and switcher, and, in fact, has "seen the country" from a locomotive's point of view. She is a cross compound of the Mellen system, carries 200 pounds of steam, weighs 225,000 pounds loaded, 109,000 pounds on drivers. The excursion which came in last

night is in charge of Mr. C. W. Smith and Mr. H. B. Fairbanks, while Mr. Walter L. Bebee has upon his hands the pleasant task of keeping track of everybody's baggage. Following is the

# Tests Were Satisfactory.

Ogden, March 8.-The Union Pacific railroad officials are very desirous of learning the exact motive power of their large 1,500 class engines and for that purpose they are making tests from time to time. One of the series of experimental trips was made yesterday, two trains were taken out of the Union depot yards, one leaving at 6 a. m. and the other at 3 p. m. The first engine pulled out 712 tons of freight and the second one 753 tons, and the monster rolling powers took their burden up Devil's Gate Hill in Weber canyon with apparent ease. At a test had a fe weeks ago the greatest load was 64: tons, but yesterday's test exceeded the previous performance by 111 tons, and it is anticipated that still more tonnage may be piled on and the monster engines will pull it. This trial evidences that the new engines can take over 200 tons more than one of the ordinary engines, assisted by a helper up grades. To each train was atached private car for the accommodation of eading railroad officials who observed the test with much pleasure and satis-faction, for the locomotives have al-ready accomplished much more than they were contracted and guaranteed

# Harmonions Meeting.

The Western rallroad presidents and commerce commission continued their meeting at New York today. was a somewhat smaller attendance than yesterday, a number of traffic of-ficials having left town.

the meeting terminated Chairman Jeffery said the conference had been entirely harmonious and satisfactory, every road of consequence beand the Gulf of Mexico and Canada having been represented by one or more

The action taken at the January meeting, abolishing commissions on ticket sales was reaffirmed and strengthened," added Chairman Jeffery. "The determination to conduct inter-state traffic in conformity with the interstate commerce law was reassirmed. Chairman Knapp, who was present with Commissioner Yeomans, delivered an

address. According to Chairman Jeffery nothing was said or done about the pro-rating situation. The reported dis-pute among the roads between Chicago

and St. Paul was not taken up. In fact

## RAILROAD NOTES.

R. F. Neslen-of the Burlington left D. R. Gray, general agent of the

Southern Pacific, returned today from a trip over his territory to the West. The Illinois Central may establish a general agency in this city in the

Among the new supplies received last night by the Chicago and Rock Island people here is a new map, giving a birdseye view of Chicago, and the rall-road lines entering it.

Complaints have been made that the 6:10 car on the Rapid Transit south on State, has been pulled off, to the great inconvenience of a large number who have to wait thirty minutes for the

J. W. Ridd of the R. G. W. returned this morning from a trip to the southern part of the State. He says that from present appearances, the conference travel this year will be heavier than in many years past. N. W. Anderson of Ogden, a well

own stock man, came in this morning from the east. He reports a fall in the price of cattle owing mostly to the weather. He reports 18 inches of snow all over Nebraska. The Rio Grande Western is now en-

gaged in taking out several curves in their track between Murray and Bingham Junction. The work consists of several fills and about a mile of track

No passenger trains are being run over the Salt Lake and Mercur road during the quarantine. The freight business of the line, however, is growng to vast proportions, according to

Director Lund of Utah and Pacific, is on his way back from his trip in Ne-vada and is reported to be at Chloride, Nevada. The trip was taken to examine several mining properties laying in southern Nevada.

Jack Reeves of the Oregon Short Line, and I. C. Tuttle, the live stock agent of the same, are at Kansas City. From a letter received from Mr. Reeves this morning small progress is being made at the trans-Missouri meeting. It is un-derstood that one of the main topics to be discussed at the meeting is the stock traffic for the coming year and a great number of changes are looked for.

Denver Stockmen.—A lineman on the Union Pacific was chased up a telegraph pole a few miles out of Chey-enne by four gray wolves. He was rescued by a passing trein crew. How he scaled the pole, which was covered with a coating of ice on one side, is more than he can tell, for he had no pole climbers. He had been sitting on the cross arms for several hours, but had been unable to stop passing trains.

L. L. Downing of the Chicago, Milwaukee and St. Paul, Frank Plaisted of the Union Pacific, and G. W. Feakins of the Colorado Midland, returned this morning from Bolse citz, where they have been attending the meeting of the woolgrowers. Mr. Feakins reports the largest number of railroad people in attendance ever known in the west. Many questions of interest have been discussed, among the more important being the means of handling the clip of 1900. The sheepmen are jubilant over the prospects for the season.

It is stated that the R. G. W. has included a cafe car on their recent order to be used on their Tintic train.

A late dispatch from Minneapolis yesterday says: A jury in the federal court today found against the Northern Pacific railroad in a test case involving the validity of the revenue tax on bills of lading for export. The road had shipped 50,600 pounds of wheat to Liverpool and claimed exemption on constitutional grounds, quoting the clause of article 1, section 9, which says: "No tax or duty shall be laid on articles exported from any State."

## CONSTRUCTION OF THE PARTY OF TH AMUSEMENTS.

bonness and a second Not'a few leading dramatic critics are on record as saying that "The Winter's Tale" is Shakespeare's greatest play as well as his last. The statement is open to question. Nevertheless it is a great play, and that it has escaped production by the big companies so long is difficult of comprehension. It has ap-parently remained for the James-Kidder-Hanford combination to recognize its worth and sleze upon its wonderful possibilities, which are so pleasingly manifold as to call forth the most en-Sait Lakers, for the first time last night, had the privilege of sitting through its six acts and watching its gradual unfolding amid scenes of beauty and magnificence, in their home Theater. The audience was large and critical, though the absence of many first nighters was noted on account of the Lenten season, Mr. Hanford as Leontes, the Sicilian king, played his part like an actor of the first rank. It is evident that he has made a careful study of the character of the mercurial monarch whose peace destroying jealousy resulted in his own undoing. As to Miss Kidder, right well did she in-terpret the role of the wrongfully accused and unfortunate Queen Hermione. who fell a victim to her husband's

# "Better Be Wise Than Rich."

Road's Pills care liver the; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

# groundless suspicion. The dignified resignation maintained by her when confronted with the baseless charge SEVIER COUNTY of having broken her marriage vows was a charming piece of work. But it was as Perdita, her own beautiful, blithesome and care-free child, where SUIT DECIDED.

Supreme Court Decision in Case Bunker vs Coons Et al.

LOWER COURT AFFIRMED.

to life in the part of the old shepherd. The rest of the support was much above the average. The "Winter's Tale" goes again tonight and Saturday afternoon. "The Rivals" will be given Friday night and "Macbeth" on Saturday night, when Miss Kidder will play Lady Macbeth. She is said to be the greatest living interpreter of this part. Held that Sale of Land was Illegal for the Reason it was Exempt Under Homestead Law.

"Have You Seen Smith" begins a two nights' engagement at the Grand this evening. The box office sale today has The Supreme court delivered an opinion today in the case of Alfred Bunker vs John W. Coons and the Consolidated Implement company, appellants, affirming the judgment of the district Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25c court of Sevier county, W. M. McCarty. Action was brought to set aside an execution sale of thirty acres of land in Sevier county, worth about \$1,000; and claimed by the plaintiff Bunker to be his homestead. The land was sold at the suit of the Consolidated Implement company vs Affred Bunker. Judgment was obtained upon a promissory note E. F. Pearce of Butte, Mont., is a Knutsford guest. and the sale was made thereon.

The case was tried in May, 1898, the court below finding the issues in favor of plaintiff, from which judgment appellants prosecuted the present appeal.

The appellants contended that the evidence was not sufficient to justify the findings, for the reasons that Bunker did not actually live upon the land; that he was not the head of a family; that his mother did not depend upon him for support, that he was not a resident of Utah, and that he waived his homestead right by a clause in the

note providing for the same. The Supreme court finds from the record that the testimony supported both the findings and judgment. Re-ferring to head of a family, the court, holds that it does not necessarily fol-low that he shall be a married man. Says the court: "Manifestly the Legislature did not intend to lay down one rule governing heads of families consisting of married men, and other heads of families consisting of unmarried men, or other persons entitled to the homestead right, who might have greater responsibilities thrust upon them than the former class. It would be un-reasonable to discriminate between per-sons of different classes, when the statute granting the right gives the homestead to all heads of families, to lands and appurtenances situated in one or

The court further holds that the waiv. er in the contract was properly not admitted in evidence, for the reason that walver can affect the head of a

Bunker is the support of his widowed mother, and for some time prior to the filing of the suit lived in Nevada and Annabella, Utah. Appellants took the position that because of his absence from the homestead for a certain per-iod of time, he forfeited his right to the property under the statutes, but the court holds that the fact of his sending money to the support of his family, coupled with the fact that he intended to return, did not constitute an abandonment of his rights.

The opinion was written by Justice Miner and concurred in by Justice Bas-kin. Chief Justice Bartch concurred in the affirmation of the lower court's

## Husband Sues for Divorce. Charles H. Tuckett filed a divorce suit

against Alice Holt Tuckett in the Third district court taday praying for an annulment of the marriage bonds on the grounds of cruelty and desertion. The parties were married in this city on April I, 1896. Last July, plaintiff says, Mrs.Tuckett left her husband and went to Helena, and has since refused to live with him. The cruelty com-plained of is that Mrs. Tuckett on nuvile names and refused to allow him to

# Bench Show Open.

It is announced from Chicago that the tenth annual bench show of the Mascoutah Kennel club opened at the First Regiment Armory there today. From the number and quality of the entries the show is expected to be the most successful ever held here. Nearly 1,200 dogs are on exhibition, ing the principal entries from the reof other prize winners from all over the country. The exhibit will last four

# OONSHIU ORANGE.

The Oonshiu, Unshiu, or Kii seedless orange, was brought to Florida from apan some years ago by Gen. Van kenburg, a former resident of that country. It is a native of the island of Klusiu, Japan, and by request of Mrs. Gen. Van Valkenburg was named Satsuma, after one of the chief cities of that island. In Florida it is almost unjversally known as Satsuma, and is the favorite and most valuable early orange of the State, being ready for market in September and October, while by the last of November it has lost its juices and high flavor which make it so exceptionally delicious earlier in the season. It is also one of the hardiest of all oranges, 20 degrees above zero not injuring it when budded or grafted on Trifoliata and dormant. On the contrary, the Otaheite will not stand much frost without suffering serious injury, which is a characteristic of the lemons, A few years since a lady in Virginia reported that her Satsuma orange

dwarfed on Trifoliata stock ripened forty-two full-sized fruits the second year after she obtained it, and while it was confined to the limits of an eightinch pot.-Vick's Magazine.

# LOOKING FOR A POWDER.

France, Germany and the United States are endeavoring to secure a stable and safe powder that will at the same time give low pressure and high velocity. England has contented herself with the use of cordite. Ordnance officers agree that cordite is a very suitable powder, but it has one defect Guns from which cordite is fired quickly erode, and the heat is so intense that the life of the gun is considerably les-
