### MORE THAN TWENTY TONS. Immense Block of Stone for Descret

News Building.

What is believed to be the largest stone that has ever been brought into the city will arrive tomorrow morning. The exact weight could not be learned this afternoon, but it is said to exceed twenty tons. The stone comes from the Mt. Nebo Brown stone quarry and will be used in the construction of the Deseret News building.

#### President Wood Returns from an Extensive Idaho and Montana Trip.

President J. D. Wood of the Wood Live Stock company, returned last evening from a trip to Idaho and Montana. Mr. Wood stopped over at a number of places from Pocatello as far north as Red Rock, Montana. He also went along the Snake river as far as St. Anthony. Mr. Wood while away inspected his large sheep and cattle in-terest in Idaho and met and conversed with numbers of sheep men and he says everybody says the present season is an ideal one for sheep men. The lambing runs between 90 to 110 per cent. The season is about one month earlier than usual and instead of grass being scarce about lambing time, as it usu-ally is, there has been plenty of feed. On the first of May Mr. Wood says the grass on the range was as long as it

usually is in June. Wood's company is shearing Mit about 40.00 sheep this season the aver-age cHp from which will run about 7 pounds. The company was fortunate in disposing of its wool last winter at good prices. A cross between the Cotswold and Ramboulettes are run by the Wood company, Mr. Wood pronounces them the best for mutton and wool. He anticipates a big demand for

"It is maintained by the minority that the troops sent to Idaho by the President of the United States continued to be under the control of the President, and that the military commander in charge could only use the troops in aid of the civil authorities of the State to preserve peace and order, and to prevent resistance being made by lawless persons to the process of the courts and the proper civil authorities

of the State. "The President of the United States has kept and is still keeping soldiers in that community, and by so doing is upholding a tyrannical course of conduct pursued by the governor of Idaho. "The minority points out flagrant in-stances of abuse of power and violation of law by General Merriam, the com-mander of the troops:

"1-General Meriam sent on May 3 about 150 troops to the town of Burke, and arrested without warrant the entire male population of the town, consisting of about 200 persons. It was an outrage on the liberty of the citizens which has no parallel in the annals of this coun-
