The Utah Art Institute is enjoying a generous patronage and the enthusiasm at the display is unbounded. Notwithstanding the presence of the work of the easiren artists the display of the Utah painters comes in for a good share of the attention and praise. J. B. Fairbank's "After the Rain' is spoken of as one of the very best in the room, and Evan's "A Misty Morning' is also the object of high praise. Besides these are a number of others that attract marked attention, among them Browning's "Hayfield." Tonight Mr. Edwin Evans, chairman of the executive committee, will give a talk on the paintings of the castern artists, and Fairbanks will speak on the same subject on Monday and Tuesday. BIG BATCH OF BIRTHS. How the New Requirement Operated In Case of One Physician.

As convincing evidence that a new ordinance is necessary in order to compel physicians and midwives to report buths to the board of health, an instance occurred yesterday afternoon which should not leave any doubt as to the advisability of such legislation. Dr. S. Ewing sent in a list of 33 births at which he was the attending physician, and some of which dated as fat back as Jan. 10, 1900, over three year

The information concerning births in nearly all of those reported in the list is inadequate and does not meet the requirements of the boarhealth, hence Clerk Horace Smith will have to request further informa ion concerning them from Dr. Ewing The circular letter which was recently issued by County Atty. Westervelt in relation to reporting births is evidently responsible for the action of Dr. Ewing. The list reported by the

# HICH SCHOOL CIRL SEVERELY INJURED

Miss Lyle Hall Frightfully Cut While In City Creek Canyon.

WAS RUNNING A RACE.

Fell on Sharp Stones-Hight Hand Deeply Lacerated, White Painful Scalp Wound is Sustained.

Miss Lyle Hall, a 15-year-old High school girl, was frightfully hurt yesterday afternoon in City Creek canyon. Her class was out on a sort of a pleasure and scientific expedition and Miss Hall was running a race with a companion, when she stumbled and fell on a pile of sharp stones.

Her classmates regarded the fall only as an ordinary mishap, never realiz-ing that anything serious could have occurred. She was slow to recover herself, however, and a number of the young people went to her assistance. They were somewhat astonished to find glood trickling down her face from un der her hair, and not knowing what was the matter, but little apprehending anything serious, they brought her to the city and carried her into the office of Dr. Richards in the Templeton buildng. She was conscious at the time and n answer to the physician she said she thought something was the matter with her right hand. The doctor looked. and discovered that that member was mutilated in a painful degree. A dee gash extending across the palm almost severed the hand. The bone in the thumb joint was protruding and one or two of the fingers were broken. The patient did not realize that she was otherwise injured, but the docnair to a deep and ugly cut that ex-tended from the forehead over the left eye, to the back of the head. One of he hairpins was literally lodged in the scalp, and a breastpin the girl had been wearing had plowed its way the

ntire length of the gash. The unforunate girl was immediately placed on the operating table, where for nearly two hours the physicians, Drs. S. L. Richards and E. E. Wilcox labored to stop the flow of blood. At one time the hemorrhage was so great that the doctors then selves felt alarm-But both wounds were finally sewed up, and drefsed and the young lady is now at her home, between Fifth and Sixth West on South Temple street, in as satisfactory a condition as is pos-If the Hall family come to look with

### YOU CAN INTEREST HIM. Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new fangled breakfast foods simply makes matters worse as any dyspeptic who has tried them

As Dr. Bennett says, the only reason I can immagine why Stuart's Dyspep sia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark tion of that society in 1842 by the Prophet Joseph Smith.
